NEW ONLINE TRAINING
New online classes available in HAZWOPER, H2S, and OSHA’s Silica Standard - p. 27

COMPETENT PERSON TRAINING
Topics in Fall Protection, Excavation, Scaffolding, and more - p. 24

SPANISH TRAINING
See our Spanish catalog for our Spanish schedule. Earn your SSH or CSHO in Spanish - p. 44

NEW SILICA TRAINING
LEARN WHAT OSHA’S NEW SILICA STANDARD MEANS TO YOU - P. 26
Excellence and achievement abound at The University of Texas at Arlington. Our highly ranked academic programs attract the best and brightest scholars from around the world, and our faculty and participants consistently receive national and international recognition for their accomplishments. The breadth and depth of these accolades accentuate UTA’s status as a preeminent place for intellectual pursuits and a driver of positive change. Our training is highly regarded by employers and industries.

As a leading OSHA Education Center, UTA is expanding its delivery of safety and health courses, offering new classroom locations, online courses, and more on-site contract training. Our courses are taught by industry experts with real-world insight and extensive technical and OSHA knowledge.

We will customize our training for your organization. No matter the delivery method you choose, course attendees can earn continuing education units (CEUs) and apply them to our professional certificates.

Attend Courses at Multiple Locations
Our numerous training sites throughout Region VI offer you flexible and convenient access to our knowledgeable and experienced instructors and quality training. Contract classes are also available.

FREE TRAINING

In recognition of Safe and Sound Week, Labor Rights Week, Workers’ Memorial Day, and OSHA’s National Stand-Down to Prevent Falls in Construction, the University of Texas at Arlington OSHA Education Center is offering a series of free short courses.

See page 22 for complete course schedule.

SCHEDULE CONTRACT #GS-10F-211BA
Discount pricing and streamlined purchasing procedures for open enrollment and custom contract training is now available to federal government customers through UTA’s GSA schedule 899 Environmental Services contract. Visit our website at uta.edu/ded for more information or call us at 866.906.9190.

ASK US ABOUT CONTRACT TRAINING!
Do you have several employees who need training or don’t see a course offering that meets your schedule? Every course and professional certification offered in this catalog can be delivered straight to you, at your facility, and on your schedule – eliminating employee travel expenses. Unless otherwise indicated, contract pricing throughout this publication reflects a class size of up to 20 participants and includes all instructor fees and course materials. Custom contract classes for more than 20 participants and/or customized curriculum or specific courses are also available. Contact our office at 866.906.9190 to learn more.

SPECIALIST IN SAFETY & HEALTH

The Specialist in Safety and Health (SSH) is designed to give participants the foundational knowledge they need in the safety field, with an emphasis on their choice of industry.

GENERAL INDUSTRY

**REQUIRED (1)**
- OSHA #511 OSHA Standards for General Industry
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery & Machine Guarding Standards
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

**ELECTIVES (3)**
- OSHA #510 OSHA Standards for Construction
- OSHA #525 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery & Machine Guarding Standards
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

CONSTRUCTION INDUSTRY

**REQUIRED (1)**
- OSHA #510 OSHA Standards for Construction

**ELECTIVES (3)**
- OSHA #2015 Hazardous Materials
- OSHA #2055 Cranes in Construction
- OSHA #2225 Respiratory Protection
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

PORT SAFETY

**REQUIRED (2)**
- OSHA #2055 Cranes in Construction
- OSHA #5410 OSHA Standards for the Maritime Industry

**ELECTIVES (2)**
- Any two (2) OSHA courses

OIL & GAS

**REQUIRED (2)**
- OSHA #5810 Hazard Recognition for Oil and Gas
- OG 202 Hydrogen Sulfide (H₂S)

**ELECTIVES (2)**
- Any two (2) OSHA courses

FIRE SAFETY

**REQUIRED (2)**
- OSHA #511 OSHA Standards for General Industry
- OSHA #510 OSHA Standards for Construction
- LS 101 Life Safety Code Concept
- FS 1500 Fire Safety and Health Management

**ELECTIVES (2)**
- OSHA #2015 Hazardous Materials
- OSHA #2225 Respiratory Protection
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3115 Fall Protection
- OSHA #5600 Disaster Site Worker Trainer Course
- MM 722 Chemistry for the Environmental Professional
- FS 201/202 Applied Fire Safety, Protection, and Analysis
- FS 913 Fire Service Trainer Course for Hazard Communication Global Harmonization (GHS)
- SH 7201 Bloodborne Pathogen Trainer Course

DISASTER RESPONSE

**REQUIRED (2)**
- DR 560 ICS/NIMS for Disaster Response
- DR 660 Incident Management Training
- OSHA #511 OSHA Standards for General Industry
- OSHA #510 OSHA Standards for Construction

**ELECTIVES (2)**
- Any one (1) OSHA course
- HM 241 HAZWOPER General Site Worker 40-hour
- HM 245 HAZWOPER First Responder Operations Level

HEALTHCARE

**REQUIRED (3)**
- SH 200 OSHA/Joint Commission Healthcare Safety Overview and Crosswalk
- SH 201 Trainer Course for Healthcare Employee Safety and Health
- OSHA #511 OSHA Standards for General Industry

**ELECTIVES (2)**
- Any two (2) OSHA courses

RISK MANAGEMENT

**REQUIRED (2)**
- OSHA #511 OSHA Standards for General Industry
- OSHA #510 OSHA Standards for Construction
- RM 101 SHE Risk Management Principles

**ELECTIVES (2)**
- RM 201 Assessment Techniques
- RM 202 Performance Measurement and Analysis
- RM 203 Risk-Informed Decision Making

1 Completion of SH 300 meets requirements.
2 Completion of SH 340 meets requirements.
3 Excluding Outreach Trainer courses and OSHA short courses.
4 Completion of OSHA #500 or #502 meets requirements.
5 Completion of OSHA #501 or #503 meets requirements.
6 Completion of OSHA #500 or #502 meets requirements.
CERTIFIED SAFETY & HEALTH OFFICIAL

Offered in two major industry tracks, the CSHO provides a solid and broad-based safety and health education in a curricula of OSHA Training Institute courses.

### GENERAL INDUSTRY

**REQUIRED (7)**

- OSHA #501 Trainer Course in OSHA Standards for General Industry
- OSHA #510 OSHA Standards for Construction
- OSHA #511 OSHA Standards for General Industry
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3095 Electrical Standards

**ELECTIVES (2)**

- OSHA #2015 Hazardous Materials
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #3085 Principles for Scaffolding
- OSHA #3115 Fall Protection
- OSHA #5410 OSHA Standards for the Maritime Industry
- OSHA #5810 Hazard Recognition for Oil and Gas

### CONSTRUCTION INDUSTRY

**REQUIRED (7)**

- OSHA #500 Trainer Course in OSHA Standards for Construction
- OSHA #510 OSHA Standards for Construction
- OSHA #511 OSHA Standards for General Industry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

**ELECTIVES (2)**

- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #2055 Cranes in Construction
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry

*Note: Two (2) OSHA short courses may be counted as one (1) elective toward your CSHO.*

SAFETY, HEALTH & ENVIRONMENTAL PROFESSIONAL

Often, EHS responsibilities fall on the same person in an organization. Stay on top of your game and earn your SHEP certification by completing a full complement of coursework in safety and health, environmental, and risk management.

### REQUIRED (3)

- ETI 101 Intro to Environmental Compliance
- RM 101 SHE Risk Management Principles
- Choose one (1)
- Certified Safety & Health Official (CSHO) Certification

*Requires one (1) environmental elective*

- OSHA #500 Trainer Course in OSHA Standards for Construction

*Requires five (5) electives*

- OSHA #501 Standards for General Industry

### SAFETY AND HEALTH ELECTIVES (4)

*Not required with your CSHO.*

- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #2055 Cranes in Construction
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection
- OSHA #5810 Hazard Recognition for Oil and Gas
- SH 810 Written Programs for S&H Management

### ENVIRONMENTAL ELECTIVES (1)

- AIR 201 Fundamentals of the Clean Air Act
- ETI 501 EPA Outreach Trainer Course
- MGE 801 Environmental Management Systems
- MGE 810 Environmental Audits
- MGE 811 Environmental Law
- MGE 817 Pollution Prevention and Lean Principles
- WTR 301 Water and Wastewater Regulations
- WST 401 Resource Conservation and Recovery Act

1 Completion of SH 300 meets requirements.
2 Completion of SH 340 meets requirements.
3 Excluding Outreach Trainer courses and OSHA short courses.
4 Completion of SH 340 meets requirements.
5 Excluding Outreach Trainer courses and OSHA short courses.
6 Completion of SH 300 meets requirements.
**PUBLIC SECTOR Certificate Programs**

### SAFETY & HEALTH

**REQUIRED (2)**
- SHEP Certification
- MS 901 Management System Design for EHS

**ELECTIVES (3)**
- Three (3) advanced safety and health courses with MC shield

**ENVIRONMENTAL**

**REQUIRED (2)**
- MS 901 Management System Design for EHS
- Environmental Regulatory Professional (ERP) Certification or Environmental Science Professional (ESP) Certification or Environmental Management Professional (EMP) Certification

**ELECTIVES (3)**
- Three (3) additional environmental courses

---

**GENERAL INDUSTRY**

**REQUIRED (3)**
- OSHA #511 OSHA Standards for General Industry
- OSHA #7500 Intro to Safety and Health Management
- OSHA #7505 Intro to Incident (Accident) Investigation

**ELECTIVES (4) [minimum of 29 contact hours]**
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2255 Principles of Ergonomics
- OSHA #3095 Electrical Standards
- OSHA #2264 Permit-Required Confined Space Entry or OSHA #7300 Understanding OSHA's Permit-Required Confined Space Standard
- OSHA #7000 Training Guidelines for Safe Patient Handling
- OSHA #7005 Public Warehousing and Storage
- OSHA #2045 Machinery and Machine Guarding Standards or OSHA #7100 Intro to Machinery and Machine Safeguarding
- OSHA #7105 Evacuation and Emergency Planning
- OSHA #7115 Lockout/Tagout
- OSHA #7200 Bloodborne Pathogen Exposure
- OSHA #7105 Evacuation and Emergency Planning
- OSHA #7115 Lockout/Tagout
- OSHA #7205 Health Hazard Awareness
- OSHA #7210 Pandemic Influenza Preparedness
- OSHA #7845 Recordkeeping Rule Seminar

---

**CONSTRUCTION INDUSTRY**

**REQUIRED (3)**
- OSHA #510 OSHA Standards for Construction
- OSHA #7500 Intro to Safety and Health Management
- OSHA #7505 Intro to Incident (Accident) Investigation

**ELECTIVES (4) [minimum of 29 contact hours]**
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2255 Principles of Ergonomics
- OSHA #3095 Electrical Standards
- OSHA #2264 Permit-Required Confined Space Entry or OSHA #7100 Intro to Machinery and Machine Safeguarding
- OSHA #7105 Evacuation and Emergency Planning
- OSHA #7115 Lockout/Tagout
- OSHA #7200 Bloodborne Pathogen Exposure
- OSHA #7105 Evacuation and Emergency Planning
- OSHA #7115 Lockout/Tagout
- OSHA #7205 Health Hazard Awareness
- OSHA #7210 Pandemic Influenza Preparedness
- OSHA #7845 Recordkeeping Rule Seminar

---

**SAFETY & HEALTH**

**REQUIRED (2)**
- SHEP Certification
- MS 901 Management System Design for EHS

**ELECTIVES (3)**
- Three (3) additional safety and health courses

---

In order to receive your certificate, download a Certificate Request Form from uta.edu/ded.
# Certification Planning Guide

## Certified Life Safety Specialist

In this program you will learn the concept, structure, and technical knowledge necessary to apply the NFPA Life Safety Code to everyday issues affecting the fire service, industry, and your community.

**REQUIRED (3)**
- FS 711  Blueprint Reading for the Fire Service
- LS 101  Life Safety Code Concept
- OSHA #510  OSHA Standards for Construction or
- OSHA #511  OSHA Standards for General Industry

**ELECTIVES (3)**
- FS 1000  Building Construction for the Fire Service
- FS 201/202  Applied Fire Safety, Protection, and Analysis
- SH 200  Life Safety for Assembly and Education
- LS 102  Life Safety for Day Care and Residential
- LS 103  Life Safety for Day Care and Residential
- LS 104  Life Safety for Ambulatory and Health Care
- LS 105  Life Safety for Correctional Facilities
- LS 106  Life Safety for Apartments
- LS 107  Life Safety for Mercantile and Business
- LS 108  Life Safety for Industrial and Storage
- LS 109  Life Safety for Rehabilitation of Historic Properties
- OSHA #7105  Evacuation and Emergency Planning
- WST 405  Above-Ground/Underground Storage Tank

## Safety & Health Operations (FSHO)

**REQUIRED (4)**
- FS 1500  Fire Safety and Health Management
- RM 105  Fire Risk Management
- FS 201/202  Applied Fire Safety, Protection, & Analysis
- NFFF  Everyone Goes Home

## Safety & Health Technician (FSHT)

**REQUIRED (3)**
- Meet the requirements for the FSHO
- FS 1510  Advanced Fire 1500
- RM 101  SHE Risk Management Principles

**ELECTIVES (3)**
- OSHA #2225  Respiratory Protection
- OSHA #7115  Lockout/Tagout
- OSHA #7205  Health Hazard Awareness
- OSHA #7500  Intro to Safety and Health Management
- OSHA #7505  Intro to Incident (Accident) Investigation
- OSHA #7105  Evacuation and Emergency Planning
- SH 7201  Bloodborne Pathogen Trainer Course
- HM 242  HAZWOPER Annual Refresher
- DOT 101  Hazardous Materials Transportation

**NFA COURSES** (one of the following may be applied as an elective)
- Q0494  National Fire Incident Reporting System (NIFRS) 5.0
- Q0381  Empowering Responder Wellness

## Safety & Health Specialist (FSHS)

**REQUIRED (3)**
- Meet the requirements for the FSHT
- FS 910  Traffic Incident Management (TIM)
- OSHA #511  OSHA Standards for General Industry

**ELECTIVES (3)**
- OSHA #521  OSHPA Guide to Industrial Hygiene
- OSHA #2264  Permit-Required Confined Space Entry
- OSHA #3015  Excavation, Trenching, and Soil Mechanics
- OSHA #3115  Fall Protection
- SH 925  Management of Change

**NFA COURSES** (one of the following may be applied as an elective)
- R0506  Executive Planning
- Q0138  Fire Service Supervision

### Apply for College Credit!

Many OSHA courses can be applied towards college degree programs at the following institutions:

- Columbia Southern University
- Northwest Arkansas Community College
- Tarrant County Community College

A minimum of two (2) classes being applied toward your SSH, CSHO, SHEP, or MC must be taken with UT Arlington.

866-906-9190 | uta.edu/ded/osha
OSHA #510
OSHA Standards for the Construction Industry

30 Hours | $595  Contract | $8,000

This course covers the OSHA Standards, policies, and procedures in the construction industry. Topics include scope and application of the OSHA Construction Standards, construction safety and health principles, with special emphasis on the most hazardous areas in construction. Upon course completion, participants will be able to define construction terms found in the OSHA Construction Standards; identify hazards in the construction industry; locate and determine the appropriate OSHA Construction Standards, policies, and procedures; and describe the use of the OSHA Construction Standards and Regulations to supplement an ongoing workplace safety and health program.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Personal Protective Equipment.

OSHA #500
Trainer Course in OSHA Standards for Construction

30 Hours | $695  Contract | $9,000

This course prepares the participants to become a trainer in the OSHA Outreach Training Program, conduct both the 10- and 30-hour Construction Outreach classes and issue OSHA Outreach Cards to participants after verifying course completion. Using the OSHA Construction Standards as a guide, the course emphasizes those topics required in the 10- and 30-hour programs, as well as those which are most hazardous. Participants receive training on effective instructional approaches and the use of visual aids and handouts. Participants must prepare a presentation on an assigned OSHA Construction Outreach Training Program topic and pass a written exam.

Prerequisites: Participants must have successfully completed the OSHA #510 OSHA Standards for Construction within the past seven (7) years and have five (5) years of safety and health work experience in the construction industry.

Refresher Training: Authorized OSHA Outreach Training Program trainers are required to attend the OSHA #502 Update for Construction Industry Outreach Trainers at least once every four (4) years to maintain their trainer status.

AVAILABLE BY CONTRACT

OSHA #6005
Collateral Duty Course for Other Federal Agencies
30 Hours  Contract | $8,000

OSHA #6015
Occupational Safety and Health Course for Other Federal Agencies
65 Hours  Contract | $21,000
OSHA #501
Trainer Course in OSHA Standards for General Industry

30 Hours | $695  Contract | $9,000

This course prepares the participant to become a trainer in the OSHA Outreach Training Program, to conduct both the 10- and 30-hour General Industry Outreach classes and issue OSHA Outreach Cards to participants after verifying course completion. Using the OSHA General Industry Standards as a guide, this course emphasizes those topics required in the 10- and 30-hour programs, as well as those which are most hazardous. Participants receive training on effective instructional approaches and the use of visual aids and handouts. Participants must prepare a presentation on an assigned OSHA General Industry Outreach Training Program topic and pass a written exam at the end of the course.

Prerequisites: Participants must have successfully completed the OSHA #511 OSHA Standards for General Industry within the past seven (7) years and have five (5) years of safety and health work experience in general industry.

Refresher Training: Authorized General Industry Outreach Training Program trainers are required to attend the OSHA #503 Update for General Industry Outreach Trainers at least once every four (4) years to maintain their trainer status.

The OSHA #500, #501, #5400 and #5600 are part of the Occupational Safety and Health Administration Outreach Training Program. Completion of these courses authorizes individuals as an Outreach Trainer. Authorized Outreach Trainers deliver 10- and 30-hour outreach classes to workers in construction, general industry, maritime, and 7.5- and 15-hour classes for disaster site workers. For more information on using the Outreach Portal, or on the Outreach Training Program, see page 14.
## OSHA #502 Update for Construction Industry Outreach Trainers

**19 Hours | $495 Contract | $7,000**

This course is for authorized OSHA Outreach Training Program trainers who have completed the OSHA #500 Trainer Course in OSHA Standards for the Construction Industry. The course provides an update on OSHA Construction Standards, policies, and regulations. Upon course completion, participants will be able to demonstrate professional development by applying effective adult learning principles and interactive training techniques to identify, define, and explain construction industry hazards and acceptable corrective measures as they teach the 10- and 30-hour Construction Outreach Training Program classes.

**Prerequisites:** OSHA #500 Trainer Course in OSHA Standards for Construction. Authorized Construction Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

OSHA #503
Update for General Industry Outreach Trainers
19 Hours | $495
Contract | $7,000
This course is for authorized OSHA Outreach Training Program trainers who have completed course #501 Trainer Course in Occupational Safety and Health Standards for General Industry. The course provides an update on OSHA General Industry Standards, policies, and regulations. Upon course completion, participants will be able to demonstrate professional development by applying effective adult learning principles and interactive training techniques to clearly identify, define, and explain general industry hazards and acceptable corrective measures as they teach the 10- and 30-hour General Industry Outreach Training Program classes.

Prerequisites: OSHA #501 Trainer Course in Standards for General Industry, Authorized General Industry Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

The United States Department of Labor OSHA Outreach Training Program provides training for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces. The program also provides information regarding workers’ rights, employer responsibilities, and how to file a complaint. This is a voluntary program and does not meet training requirements for any OSHA standards.

The Outreach Training Portal is a web-based application designed with our trainers in mind to provide a more efficient and reliable method of requesting Outreach participant cards.

For more information about the Outreach Training Program or on using the Outreach Portal, contact our friendly staff at the number below.

OutreachPortal.com | 866.906.9190 | outreach@uta.edu

Advantages of being a UTA OSHA Education Center Outreach Trainer:
- Train with some of the best instructors in the business
- Take advantage of course availability
- Find course locations near you
- Work with our friendly staff
- Experience outstanding trainer support

Advantages of using the UTA OSHA Education Center Outreach Portal:
- Simplified submission and recordkeeping
- Computer, tablet, or smart phone access
- User-friendly, menu-driven
- Improved processing speed
- Reliability
- Ease of communication with our experienced and knowledgeable Outreach Staff
Authorized Safety & Health Trainer
Modeled after the OSHA Outreach Program, the goal of the UT Arlington Authorized S&H Trainer Program is to provide training for workers on workplace hazards and safe work practices. Individuals designated as UTA authorized safety and health trainers address the recognition, avoidance, abatement, and prevention of safety and health hazards associated with specific issues in the workplace. Trainers can use the Outreach Portal to request completion cards for their participants.

TOPICS INCLUDE:
Bloodborne Pathogens
Confined Space
Cranes & Rigging
Electrical
Excavation & Trenching
Fall Protection
Hazard Communication/Global Harmonization System (GHS)
Healthcare
Hot Work
Hydrogen Sulfide (H₂S)
Material Handling
Personal Protective Equipment
Respiratory Protection
Scaffolding
Silica

ATP 191
Safety and Health Authorized Trainer
32 Hours | $695  Contract | $9,000
This course incorporates an overview of instructional strategies, design, and practices for adult learning settings. It explores situational and cultural factors that influence adult learning and reviews the requirements of ANSI Z490.1, Criteria for Accepted Practices in Safety, Health, and Environmental Training on how to create, maintain, and evaluate effective EH&S training. Various instructional approaches, classroom management techniques, and the effective use of visual aids and handouts will be covered. Participants will develop informational presentations based upon the technical instruction and individual research requirements. Instruction and hands-on exercises on specific safety and health topics will be provided. The course includes “teach back” sessions to apply the adult learning techniques and effective safety and health training knowledge and skills. Participants will work in small groups, or independently, to develop the technical information for their presentation on one of the listed topic areas. Successful completion of the course and written and performance examinations will allow the participant to be recognized as an UTA Authorized Trainer.

Refresher Training: UTA Authorized Trainers are required to attend the ATP 190O Online Update for Safety and Health Authorized Trainers at least once every three (3) years to maintain their trainer status.

Prerequisites: Participants must have three (3) years of safety and health work experience in any industry, or be a current authorized Outreach trainer.

Oct 22 - 25, 2018  Houston, TX
Feb 11 - 14, 2019  Houston, TX
Feb 19 - 22, 2019  Arlington, TX
Apr 9 - 12, 2019  Albuquerque, NM
May 14 - 17, 2019  Arlington, TX
Jun 17 - 20, 2019  Houston, TX

Authorized Trainer Program
BECOME A TRAINER
• Complete ATP 191 Safety and Health Authorized Trainer
• Take prerequisite course for desired designation¹
BE A TRAINER
• Instruct awareness-level classes following UTA ATP guidelines
• Submit course reports via Outreach Portal to receive participant cards
STAY A TRAINER
• Update designations every three (3) years through online modules

¹ Visit our website or view course descriptions for designation prerequisites

The courses listed on this page feature no U.S. Department of Labor or OSHA affiliation, approval, or endorsement.
**OSHA #5410**

**Occupational Safety and Health Standards for the Maritime Industry**

35 Hours | $695  
30 Hours | $9,000

This course covers the OSHA policies, procedures, and standards for the maritime industry, specifically shipyard employment, marine terminals, and longshoring. Special emphasis is on those areas most hazardous in the maritime industry using the OSHA Maritime Standards as a guide.

Jan 14 - 18, 2019  
Houston (South), TX

Apr 8 - 12, 2019  
Baton Rouge, LA

---

**OSHA #5400**

**Trainer Course in OSHA Standards for the Maritime Industry**

30 Hours | $695  
30 Hours | $9,000

This course prepares the participant to become a trainer in the Outreach Training Program to conduct 10- and 30-hour maritime classes in shipyard employment, marine terminals, and longshoring. It authorizes them to issue OSHA Outreach Cards to participants after verifying course completion. Participants will receive training on effective instructional approaches and use of visual aids and handouts. Participants must successfully prepare a presentation on an assigned OSHA maritime industry Outreach Training Program topic and successfully pass a written exam.

**Prerequisites:** Participants must successfully complete the OSHA #5410 Occupational Safety and Health Standards for the Maritime Industry, have three (3) years of maritime industry experience, and possess and at least two (2) years of occupational safety and health experience with a broad focus in any industry.

**Refresher Training:** Authorized Maritime Industry Outreach Training Program trainers are required to attend OSHA #5402 Maritime Industry Trainer Update Course at least once every four (4) years to maintain their trainer status.

Feb 12 - 15, 2019  
Houston (South), TX

---

**OSHA #5402**

**Maritime Industry Trainer Update Course**

19 Hours | $495  
15 Hours | $7,000

This course provides trainers with information about updates to the OSHA Maritime standards, policies, and regulations. Upon course completion, participants will be able to demonstrate professional development by applying effective adult learning principles and interactive training techniques to identify, define, and explain maritime industry hazards and acceptable corrective measures.

**Prerequisites:** OSHA #5400 Trainer Course in OSHA Standards for the Maritime Industry. Authorized OSHA Outreach trainers are required to attend this course once every four (4) years to maintain their trainer status.

Sep 11 - 13, 2018  
Beaumont, TX

---

**OSHA #5600**

**Disaster Site Worker Trainer Course**

30 Hours | $9,000

Successful completion of this course authorizes participants to become OSHA Outreach trainers in the Disaster Site Worker Outreach Training Program. Course topics include the National Response Framework; the Incident Command System; disaster work zone safety; respiratory protection, communication issues; and application of the elements of successful adult training. Participants will prepare and deliver a presentation on an assigned disaster site worker topic.

**Prerequisites:** OSHA #500 Trainer Course in OSHA Standards for Construction or OSHA #501 Trainer Course in OSHA Standards for General Industry, three (3) years of safety training experience, and completion of the 40-hour HAZWOPER training.

**Refresher Training:** Outreach Training Program trainers are required to attend the OSHA #5602 Update for Disaster Site Worker Trainer course at least once every four (4) years to maintain their Outreach Training Program trainer authorization.

---

**OSHA #5602**

**Update for Disaster Site Worker Trainer Course**

7.5 Hours | $3,000

This course updates the authorized Disaster Site Worker trainer with new technical and regulatory information related to disaster response and the role of OSHA in coordinating occupational safety and health efforts in the National Response Framework. Participants will have the opportunity to share "lessons learned" from teaching the Disaster Site Worker Course.

**Prerequisites:** Authorized Outreach Training Program trainers are required to attend the OSHA #5600 Disaster Site Worker Trainer Course once every four (4) years to maintain their trainer status.

---

**SH 15DR**

**Disaster Site Worker**

15 Hours | $395  
10 Hours | $3,000

This course is designed for personnel who provide skilled support services or site clean-up services in response to a disaster. This course increases the participant’s awareness of the safety and health hazards that they may encounter at a natural or human-caused disaster site. Emphasized in this course are respiratory protection, PPE, and proper decontamination procedures.

**Prerequisites:** OSHA 10- or 30- hour training in Construction or General Industry.

Mar 7 - 8, 2019  
Houston (South), TX

Mar 21 - 22, 2019  
Arlington, TX

Apr 4 - 5, 2019  
Tulsa, OK

---

**SH 10C**

**OSHA 10-Hour Construction Course**

10 Hours | $395  
10 Hours | $3,000

This training covers certain OSHA-mandated topics, such as an overview of OSHA, tips on how to locate specific OSHA regulations, basic electrical safety, walking/working surfaces, and hazardous materials.

Mar 5 - 6, 2019  
Houston (South), TX

Apr 2 - 3, 2019  
Tulsa, OK
OSHA #521
OSHA Guide to Industrial Hygiene

26 Hours | $595 | Contract | $8,000

This course covers industrial hygiene practices and related OSHA regulations and procedures. Course topics include recognition, evaluation, and control of chemical, physical, biological, and ergonomic hazards; Permissible Exposure Limits (PEL); OSHA health standards; respiratory protection; engineering controls; OSHA sampling protocols and strategies; and workplace health program elements. Workshops involve participants in health hazard recognition, OSHA health standards, and use of sampling equipment. Upon course completion, participants will be able to recognize basic industrial hygiene principles and practices, identify characteristics of common air contaminants, locate PELs, perform basic industrial hygiene calculations, and determine the methods for hazard control and abatement.

OSHA #2015
Hazardous Materials

26 Hours | $595 | Contract | $8,000

This course covers OSHA General Industry Standards and other consensus and proprietary standards related to the use of hazardous materials. Course topics include flammable liquids, compressed gases, LP-gases, and cryogenic liquids. Participants will review related processes, such as spraying, dipping, and the use of electrical equipment in hazardous locations. Upon course completion, participants will be able to assess compliance with OSHA hazardous materials standards; determine hazardous (classified) locations; and conduct proper moving, storing, and handling of hazardous materials.

**OSHA #2045**  
**Machinery and Machine Guarding Standards**

| 26 Hours | $595 Contract | $8,000 |

This course covers various types of common machinery, machine safeguards, and related OSHA regulations and procedures. Participants will receive guidance on the hazards associated with various types of machinery and determining proper machine safeguards. Course topics include machinery processes, mechanical motions, points of operation, control of hazardous energy sources (lockout/tagout), guarding of portable powered tools, control methods and hazard abatement, appropriate machine safeguards, and common OSHA machine guarding violations. Program highlights include the ability to recognize hazards, provide options for control, and hazard abatement through machine safeguarding and inspection workshops.

**OSHA #2225**  
**Respiratory Protection**

| 26 Hours | $595 Contract | $8,000 |

This course covers the requirements for establishing, maintaining, and monitoring a respiratory protection program. Course topics include terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements. Program highlights include workshops on respirator selection, qualitative and quantitative fit testing, and the use of respiratory protection and support equipment. Upon course completion, participants will be able to identify and describe the elements of a respiratory protection program; properly select, use, and inspect respiratory protection and protection factors; and evaluate compliance with the OSHA standards. 

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Respiratory Protection.

**OSHA #2055**  
**Cranes in Construction**  
**22.5 Hours | $595**  
This course covers best practices in crane and derrick operation using as a guide the OSHA Cranes and Derricks in Construction Rule. Course topics include hazards associated with crane assembly and disassembly; types of cranes; lifting concepts; rigging and wire rope; signaling; employee qualifications and training; and maintenance, repair, and inspection requirements. Participants will participate in workshops to reinforce the concepts of safe crane operation.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Cranes & Rigging.

**OSHA #2255**  
**Principles of Ergonomics**  
**19 Hours | $595**  
This course covers the use of ergonomic principles to recognize, evaluate, and control workplace conditions that cause or contribute to musculoskeletal and nerve disorders. Topics include work physiology; anthropometry; musculoskeletal disorders; use of video display terminals; and risk factors, such as vibration, temperature, material handling, repetition, and lifting. Industrial case studies cover analysis and design of workstations and equipment workshops, along with coverage of current OSHA policies and guidelines. Upon course completion, participants will be able to recognize work-related musculoskeletal and nerve disorders, assess ergonomic programs, and conduct ergonomic evaluations.

**OSHA #2264**  
**Permit-Required Confined Space Entry**  
**22.5 Hours | $595**  
This course covers safety and health hazards associated with permit-required confined space entry. Course topics include both the OSHA permit-required confined space standards for construction and general industry; identification of permit- and non-permit-required confined spaces; ventilation techniques; development and implementation of a confined space program; and training requirements. This course features workshops on permit entry classification, instrumentation, and program development.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Confined Space.

OSHA #3015
Excavation, Trenching, and Soil Mechanics

22.5 Hours | $595

This course covers the OSHA Excavation Standard and safety and health aspects related to excavation and trenching. Course topics include the relationship between practical soil mechanics and the stability of shored and unshored slopes and walls, introduction of various types of shoring, soil classification, and use of protective systems. Participants participate in workshops in the use of instruments such as penetrometers, Torvane shears, and engineering rods to demonstrate testing methods. Participants will be able to assess compliance with the Standard, use soil testing methods to classify soil types, determine protective systems for excavation operations, and understand the training requirements.

*This course satisfies the training prerequisite for the Authorized Trainer Program designation in Excavation & Trenching.*

OSHA #3095
Electrical Standards

26 Hours | $595

This course covers the OSHA Electrical Standards and hazards associated with electrical installations and equipment. Course topics include single- and three-phase systems, cord- and plug-connected and fixed equipment, grounding, ground fault circuit interrupters (GFCI), and safety-related work practices. Emphasis is on electrical hazard recognition, OSHA Standards and policies, hazard recognition and abatement measures, and procedures. Applicable portions of the National Electrical Code (NEC) are also covered. Participants will participate in workshops on the safe and correct use of electrical testing equipment.

*This course satisfies the training prerequisite for the Authorized Trainer Program designation in Electrical.*

OSHA #3115
Fall Protection
22.5 Hours | $595
This course covers OSHA Fall Protection Standards for construction, as well as an overview of fall protection methods. Course topics include the components and limitations of fall arrest systems, and the OSHA Standards and policies regarding fall protection. Workshops provide participants the opportunity to demonstrate the proper inspection and use of fall protection equipment and fall arrest systems, training requirements, and the methods for developing a fall protection program.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Fall Protection.

OSHA #3085
Principles for Scaffolding
22.5 Hours | $595
This course covers the requirements for the safe construction and use of scaffolding, using as a guide the OSHA construction scaffold standard. Participants will participate in workshops to reinforce concepts of safe scaffolding. Upon course completion, participants will be able to identify the types of scaffolds and their components, determine safe assembly, use, and disassembly of scaffolding, and recognize common violations of OSHA Standards.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Scaffolding.

Introduction to Machinery and Machine Safeguarding
7.5 Hours | $195 Contract | $3,000
This course covers the process to identify, select and properly safeguard machinery to protect employees and others in the work area and provide training in safe work practices. Participants will be able to explain the hazardous actions and motions of various types of machinery, identify methods of safeguarding, and match identified safeguards with the applicable OSHA Machinery and Machine Guarding Standards to reduce and eliminate the potential for accidents and injuries.
  Sep 17, 2018 Houston, TX
  Apr 29, 2019 Arlington, TX

OSHA #7105
Evacuation and Emergency Planning
4 Hours | $145 Contract | $3,000
This course covers the OSHA requirements for emergency action and fire protection plans. Workshops involve participants in the development of emergency action plans. Participants will be able to list the elements of an emergency action plan and emergency evacuation floor plans, recognize violations of OSHA exit route requirements, and develop and implement workplace emergency action and fire protection plans.

OSHA #7115
Lockout/Tagout
7.5 Hours | $195 Contract | $3,000
This course covers the role and responsibility of the employer in developing and implementing an energy control or lockout/tagout (LOTO) program. Topics include types of hazardous energy, detecting hazardous conditions, implementing control measures, and developing and implementing energy control programs. Participants will be able to explain the importance of energy control programs, procedures, training, and audits.
  Apr 29, 2019 Arlington, TX

OSHA #7205
Health Hazard Awareness
7.5 Hours | $195 Contract | $3,000
This course covers common health hazards encountered in the workplace. These health hazards include exposure to chemicals, asbestos, silica and lead. Course topics include identification and evaluation of health hazards and their sources of exposure, health hazard information, and engineering controls. Participants will participate in workshops on the evaluation and abatement of workplace health hazards. Participants will be able to assess common health hazards in the workplace and the methods for controlling and abating these hazards.
  May 3, 2019 Houston, TX
OSHA #7300
Understanding OSHA's Permit-Required Confined Space Standard
7.5 Hours | $195 Contract | $3,000
This course covers the requirements of the OSHA Permit-Required Confined Space Standard for both general industry and construction. This course is designed for the responsible party. Participants will have a basic understanding of confined space hazards, evaluation, and abatement of the hazards, and identification of when a confined space must be classified as a permit-required confined space.

Sep 10, 2018  Arlington, TX

OSHA #7400
Noise Hazards in the Construction Industry
7.5 Hours | $195 Contract | $3,000
This course covers the evaluation and reduction of noise hazards in the construction industry. Course topics include OSHA Construction Noise Standards, properties of sound, noise-induced hearing loss, noise exposure control, the selection and use of hearing protection, conducting sound level surveys, and worker training. Classroom demonstrations cover noise instrumentation and hearing protection devices.

Apr 29, 2019  San Antonio, TX

OSHA #7405
Fall Hazard Awareness for the Construction Industry
7.5 Hours | $195 Contract | $3,000
This course covers the identification, evaluation, prevention, and control of fall hazards in the construction industry. The course focuses on falls to a lower level rather than falls to the same level resulting from slips and falls. Course topics include identification, analysis, and prevention of fall hazards, using the OSHA Fall Protection Standards. Participants will be able to identify fall hazards and employ OSHA-compliant methods to control and abate these hazards.

OSHA #7500
Introduction to Safety & Health Management
7.5 Hours | $195 Contract | $3,000
This course covers the implementation of an effective safety and health management system. The course addresses the core elements of an effective safety and health management system and those central issues that are critical to management of each element. This interactive training session, with class discussion and workshops, provides participants with the ability to evaluate, develop, and implement an effective safety and health management system.

Apr 29, 2019  Oklahoma City, OK
Aug 12, 2019  Arlington, TX
Aug 12, 2019  Houston, TX

OSHA #7505
Introduction to (Incident) Accident Investigation
7.5 Hours | $195 Contract | $3,000
This course introduces basic accident investigation procedures and describes accident analysis techniques. The course topics include reasons for conducting accident investigations, employer responsibilities related to workplace accident investigations, and incident investigation procedures. This interactive training session, based on class discussion and workshops, provides participants with the basic skills necessary to conduct effective workplace incident investigations.

Sep 17, 2018  Albuquerque, NM

OSHA #7510
Introduction to OSHA for Small Business
4 Hours | $145 Contract | $3,000
This course covers an introduction to the Occupational Safety and Health Administration (OSHA) and the OSH Act for owners and managers of small businesses. Course topics include an introduction to OSHA, OSHA Standards, the inspection process, implementation of a safety and health program, worker training requirements and assistance available to small businesses. Participants will understand OSHA operations and procedures and how to work with OSHA to prevent or reduce injuries and illnesses in their workplace.

Sep 17, 2018  Houston, TX
Apr 29, 2019  New Orleans, LA

OSHA #7845
Recordkeeping Rule Seminar
4 Hours | $145 Contract | $3,000
This course covers the OSHA requirements for maintaining and posting records of occupational injuries and illnesses and reporting specific cases to OSHA. Participants will be able to identify OSHA requirements for recordkeeping, posting, and reporting occupational injuries and illnesses, as well as complete the OSHA Form 300 Log of Work-Related Injuries and Illnesses, the OSHA Form 300A Summary of Work-Related Injuries and Illnesses, and the OSHA Form 301 Injury and Illness Incident Report.

Sep 14, 2018  Houston, TX
Sep 17, 2018  New Orleans, LA
COMPETENT PERSON COURSES

These 3-day courses are designed for personnel who may be designated as the Competent Person by their employer. They incorporate specific ANSI standards, US Army Corps of Engineer EM 385-1-1 requirements, and other consensus standards in addition to the OSHA requirements. They include active participation, with hands-on activities and demonstrations. These courses are also recommended for any construction, maintenance, or supervisory personnel with specific responsibilities in the covered activities.*

CPT 101
Fall Protection for the Competent Person

24 Hours | $595  Contract | $8,000
This course is designed for typical construction-related activities involving working at height or personnel who use fall prevention and/or protection equipment and systems or who is responsible for safety at their job sites where fall hazards exist. The topics covered include fall hazard recognition, evaluation, and control; construction exposures and applications; detailed review of fall protection regulations and requirements; hierarchy of fall protection systems; fall hazard evaluation; aerial lifts and ladders; developing and maintaining a managed fall protection program; fall protection procedures, rescue procedures, training; and incident investigations.

Refresher Training: Competent Persons are required to attend update training at least every two (2) years to stay current with fall protection and rescue educational industry requirements IAW ANSI Z359.2. The update course CPT 101O is now available online.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Fall Protection.

Nov 13 - 15, 2018  Houston, TX
Aug 13 - 15, 2019  San Antonio, TX

CPT 102
Excavation and Trenching Safety for the Competent Person

24 Hours | $595  Contract | $8,000
This course is designed for typical construction-related trenching and excavation activities or personnel responsible for safety at their job sites where excavation hazards exist. The topics covered include hazard recognition, evaluation, and control; construction exposures and applications; trenching and excavation regulations and requirements; soil classification; excavation hazard abatement; selection of suitable worker protection systems; pre-engineered and engineered systems; access and egress; and incident investigations.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Excavation.

Sep 11 - 13, 2018  Arlington, TX
Apr 23 - 25, 2019  Houston, TX

CPT 103
Scaffolding Safety for the Competent Person

24 Hours | $595  Contract | $8,000
This course is designed for typical construction-related scaffolding erection, use, maintenance, and dismantling activities or personnel responsible for safety at their job sites where scaffolding is used. The topics covered include hazard recognition, evaluation, and control; construction exposures and applications; a detailed review of scaffolding regulations and requirements; eliminating and controlling hazards; conducting hazard surveys and inspections; access and egress; and incident investigations.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Scaffolding.

Jun 4 - 6, 2019  Arlington, TX

CPT 104
Confined Space Entry for the Competent Person

24 Hours  Contract | $8,000
This course is designed for confined space operations or personnel involved in confined space operations. The topics covered include hazard recognition, evaluation, and control; construction exposures and applications; proper rigging principles and techniques; knots; tagline use; working load limits; mathematical calculations, and sling angles and load angle factors; sling selection and usage; wire rope and chain design; rigging inspection, proper rigging hardware inspection, and hook inspection and use; conditions and causes for removal; wedge sockets; hitches, crane characteristics and dynamics; requirements of the signal person; and hand signals and voice communication.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Confined Space.

CPT 105
Qualified Rigger and Signalperson

24 Hours  Contract | $8,000
This course is designed for personnel who oversee crane operations and lifts or are required to be Qualified Riggers/Signalpersons. The topics covered include hazard recognition, evaluation, and control; construction exposures and applications; proper rigging principles and techniques; knots; tagline use; working load limits; mathematical calculations, and sling angles and load angle factors; sling selection and usage; wire rope and chain design; rigging inspection, proper rigging hardware inspection, and hook inspection and use; conditions and causes for removal; wedge sockets; hitches, crane characteristics and dynamics; requirements of the signal person; and hand signals and voice communication.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Cranes & Rigging.

CPT 106
Silica for the Competent Person

24 Hours  Contract | $8,000
This course is designed to meet the new requirements for silica-competent person capable of recognizing and evaluating situations where overexposure may be occurring. The topics covered include routes of silica exposure; health effects of silica overexposure; exposure levels and tasks associated with acute and chronic silicosis; occupational exposure level and how exposures are measured; current regulations and best practices; determination of presence of silica through bulk sample analysis; material safety data sheets and material checklists; and controls to reduce silica exposures.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Silica.

*Prerequisites: OSHA #500 Trainer Course in OSHA Standards for Construction, OSHA #501 Trainer Course in OSHA Standards for General Industry, or ATP 191 Safety & Health Authorized Trainer. This course satisfies the requirements of OSHA, ANSI, and USACE 385-1-1.
**Prerequisites:**
OSHA #500 Trainer Course in OSHA Standards for Construction, OSHA #501 Trainer Course in OSHA Standards for General Industry, or ATP 191 Safety & Health Authorized Trainer.

This course satisfies the requirements of OSHA, ANSI, and USACE 385-1-1.

**SH 200**  
OSHA/Joint Commission  
Healthcare Safety Overview & Crosswalk  
**8 Hours | $195**  
Contract | $3,000  
This course will prepare participants to evaluate the readiness of a healthcare organization pursuing accreditation by the Joint Commission. Participants crosswalk the OSHA 29 CFR 1910 General Industry Standards and Joint Commission Accreditation Manual Chapters covering Environment of Care (EC), Emergency Management (EM), Life Safety (LS) and Infection Control (IC). In addition, if applicable, references will be made to provisions of the Centers for Medicare Services (CMS) conditions of Participation. Participants investigate the numerous agencies, funding sources, investors and interest groups that contribute to regulatory and compliance requirements. Case studies are used to highlight and direct participant activities and identify areas for further investigation. This course is available for 9.6 Contact Hours of Nursing Continuing Education.

**SH 201**  
Trainer Course for Healthcare Employee Safety & Health  
**16 Hours | $395**  
Contract | $5,000  
This course is designed for healthcare professionals who plan to present safety and health content to their employees and colleagues. The program covers topics specific to making safety and health training engaging, relevant, and impactful for all healthcare workers. In addition to the content, the participants will receive a Trainer's Tool Kit with a variety of resources and training materials.

*This course satisfies the training prerequisite for the Authorized Trainer Program designation in Healthcare Employee Safety & Health.*

**SH 202**  
Trainer Course for Medic First Aid and CPR  
**16 Hours | $495**  
Contract | $8,000  
This course is designed to help participants build essential life-saving skills. Participants will be qualified to train others in Medic First Aid/CPR, use of Automated External Defibrillators (AEDs), disease prevention from Bloodborne Pathogens, and Infant and Child rescue skills and AED applications. Participants will apply these skills in optional scenario-based practices. Upon course completion, participants will be approved to instruct MEDIC First Aid training programs in BasicPlus, CarePlus, Bloodborne Pathogens, Emergency Oxygen, and Child/Infant Supplement. This training can be used for continuing education credits for nursing.

SH 210
OSHA’s New Silica Standard
16 Hours | $295
Contract | $5,000
Learn what OSHA’s new Silica Standard means to the Oil and Gas Industry. This training will explain the result of assessments by NIOSH, identify the sources of silica exposure, and discuss the changes in the new silica standard, the impact on operations, and the timeline for implementing these new requirements. Requirements for air monitoring, engineering controls and work practices to control exposure, controlling access to high-exposure sites, use of respiratory protection, employee training, and medical surveillance related to minimizing silica exposures will be discussed.

Sep 20 - 21, 2018 Arlington, TX
Nov 1 - 2, 2018 Houston, TX
Nov 15 - 16, 2018 Oklahoma City, OK
Nov 29 - 30, 2018 San Antonio, TX

SH 211
Overview of OSHA’s New Silica Standard
Online | $95
Contract | $3,000
This online presentation will help educate participants on the OSHA standards for crystalline silica, as well as provide an overview of the new standards with which industry professionals will be required to comply. It will help participants understand the new codes and how they will change work in the industry.

SH 385O
EM 385-1-1 Construction Requirements with OSHA 30-Hour Construction
40 Hours
Contract | $10,000
This course is designed for contractors, military, and government employees who enforce, or must comply with, U.S. Army Corps of Engineers (USACE) safety and health requirements (EM 385-1-1, U.S. Army Corps of Engineers Safety & Health Requirements Manual) and OSHA 29 CFR 1926. Attendees will learn the unique procedures established by the USACE contracts and EM 385-1-1. Topics include recognition, avoidance, abatement, and prevention of safety and health hazards in construction. Specific topics cover preparation of site-specific accident prevention plan (APP), activity hazard analysis (AHA) development, site personnel training, incident response, and jobsite auditing.

Sep 17 - 19, 2018 Arlington, TX
Oct 29 - 31, 2018 Houston, TX

SH 520
Industrial Hygiene Techniques
24 Hours | $595
Contract | $8,000
This course introduces participants to industrial hygiene concepts, principles, and practices to evaluate physical and chemical hazards in the workplace. Participants will learn to use and calibrate industrial hygiene measurement equipment, such as personal sampling pumps, indoor air quality meters, and gas analyzers. They will learn sampling methods and techniques for various potential workplace hazards.

Sep 17 - 19, 2018 Arlington, TX
Oct 29 - 31, 2018 Houston, TX

SH 522
Industrial Hygiene Sampling Techniques for Silica
8 Hours | $195
Contract | $3,000
This course introduces participants to basic industrial hygiene concepts, principles, and practices as they relate to the evaluation of respirable crystalline silica in the oil and gas industry. Schedule monitoring and the best practices for silica sampling as identified in the new OSHA standard will be covered with hands-on activities.

This course provides training and application of the concepts of NFPA 101 Life Safety Code requirements that protect people, property, and equipment. The course covers a host of topics related to reducing the spread of fire in buildings and providing a means of safe egress from buildings. Case studies and exercises will be used to convey the concepts supporting the code and its relationship to OSHA and Building Code requirements. Participants will receive a copy of the NFPA 101 Life Safety Code.

Participants learn the components of building construction as they relate to firefighter safety and life safety, identify various classifications of building construction, and explain the theoretical concepts of how fire impacts the major types of building construction. They will gain knowledge on the elements of construction and the design of structures that are key factors when inspecting buildings, pre-planning fire operations, and operating during emergencies. Upon course completion, participants will be better able to identify the indicators of potential structural failures as they relate to firefighter safety and how to respond to fires in various types of construction.

OG 201
Update for Hydrogen Sulfide (H$_2$S) Trainer Course

4 Hours | $195
Online | $175
Contract | $3,000

This update course provides trainers with the skills and knowledge to educate employers and employees on the hazards associated with H$_2$S (Hydrogen Sulfide). It is required once every three (3) years for all personnel teaching H$_2$S classes in accordance with ANSI Z390.1. It provides timely information on hazards, policies, and regulations, with specific emphasis on the ANSI Z390.1 Standard.

**Prerequisites:** OG 200/202 Trainer Course in Hydrogen Sulfide (H$_2$S)

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Hydrogen Sulfide.

OG 202
Hydrogen Sulfide (H$_2$S)

20 Hours | $595
Contract | $7,000

This course provides comprehensive training on the hazards associated with H$_2$S and their required protective measures. Participants will learn the properties and characteristics, respiratory protection requirements, gas detection, emergency response, and current H$_2$S technology. Hands-on exercises and equipment demonstrations are included. The requirements in the ANSI Z390.1, Accepted Practices for Hydrogen Sulfide Training, American Petroleum Institute (API) Recommended Practices, and Federal H$_2$S regulatory standards are also covered. This course is designed for personnel working in the petroleum industry, municipalities, utilities, research and development laboratories, transportation, paper/pulp/food processing, and chemical manufacturing companies.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Hydrogen Sulfide.

DR 560
ICS/NIMS for the Disaster Response Supervisor & Professional

24 Hours | $595
Contract | $7,000

This course is designed for those individuals who may have leadership responsibilities at a natural or human-caused disaster site. The Incident Command System (ICS) and the National Incident Management System (NIMS) are studied in detail with an emphasis on their roles and uses during the crisis and consequence management phases of disaster response work. The topics covered include the history, features and principles, and organizational structure of ICS; introduction and overview of NIMS; the relationship between ICS and NIMS; operating efficiently during an incident or event within ICS; the intent, key concepts and principles underlying NIMS; and the purpose of the NIMS components, including preparedness, communications and information management, resource management, and command and management.

Mar 18 - 20, 2019 Arlington, TX

DR 660
Incident Management Training

32 Hours | $8,000
Contract | $8,000

This course provides training in Incident Command under the National Incident Management System (NIMS) for Corporate Organizations. The training provides an introduction to the Incident Command System (ICS) and then develops the knowledge and skills necessary for personnel who are likely to assume a supervisory position during Incident Command. This course describes the history, features, principles, and organizational structure, as well as the organization and operation of the ICS and Incident Command Hazardous-Material. The topics covered include management of resources, the duties of all positions, and examples of how these principles are used in incident and event planning. It also explains the relationship between ICS and NIMS.
HM 241
HAZWOPER General Site Worker 40-Hour

40 Hours | $595  Contract | $10,000
This course is designed to fulfill the training requirements for workers involved in hazardous waste cleanup/remediation at industrial sites, RCRA or Superfund sites, voluntary cleanup operations, and operations involving hazardous wastes listed within Title 29 CFR Part 1910.120(e). Topics include scope, application, and definitions; safety and health programs; site characterization and analysis; site control; training; medical surveillance; engineering controls, work practices, and personal protective equipment; monitoring; site safety and health plans; drums and containers; decontamination; and on-site emergencies.

SH 900
Leading Measures for Improving Safety
24 Hours | $895
Contact | $11,000
This advanced safety and health course is designed to provide participants with the skill and knowledge to identify key steps and develop implementation strategies for an organization to effectively apply leading measures for improving safety performance. The course will also address corporate success measures, reward, and recognition programs, and help participants identify potential pitfalls of performance measurement systems. The use of case studies, job safety analyses, and near-miss (near-hit) reports will be used to foster a practical application of a leading measure approach to improving safety performance.
Oct 2 - 4, 2018 Houston (South), TX
Mar 19 - 21, 2019 Arlington, TX

MS 901
Management System Design for EHS
92 Hours | $2,895
Contract | $27,000
This management system course provides participants the opportunity to design the core elements of a management system for environmental, risk, safety, and health programs. The goal of this course is to assist participants in the design and development of an effective management system through classroom instruction, case studies, and participant exercise activities. Participants must be available to attend all three sessions.
ALBUQUERQUE, NM

Session 1: Aug 5 - 9, 2019
Session 2: Sep 10 - 13, 2019
Session 3: Oct 22 - 24, 2019

SH 801
Enhancing Safety Performance with Behavioral Safety: Current Trends in BBS
24 Hours | $895
Contact | $11,000
This course is designed to provide participants with a thorough understanding of Behavior-Based Safety and begins with the evolution of BBS, including the underlying principles, common myths and half-truths. Emphasis is given to lessons learned from experience and research. Long-term goals for BBS are identified, along with proven steps organizations can take that lead to safety excellence. Participants will learn how to develop observation and feedback skills, how to use behavioral data to improve performance, and strategies to motivate employee safety performance.
Jul 16 - 18, 2019 Houston (South), TX

SH 810
Written Programs for Safety & Health Management
40 Hours | $895
Contract | $11,000
This course addresses the eight core elements of an effective safety and health system and those central issues that are critical to each element’s development, implementation, and proper management through the use of written material. Using a hands-on approach, participants will have the opportunity to develop policies, procedures, and checklists that are required to effectively manage a safety and health management system. It includes a course completion certificate for the OSHA #7500 Introduction to Safety & Health Management.
Feb 11 - 15, 2019 Arlington, TX

Contact us today to set up contract training.
osh@uta.edu 866.906.9190
SH 910
Principles of Auditing
24 Hours | $895 Contract | $11,000
This course provides participants with the fundamental principles needed to conduct auditing activities related to regulatory compliance, contractual performance, and individual skills and knowledge. Participants will develop auditing skills, including planning, procedures, evaluation, and management. The course specifically addresses training audits, contractor performance audits, and compliance audits.

Sep 25 - 27, 2018 Houston, TX
May 28 - 30, 2019 Arlington, TX

SH 920
Process Safety Management (PSM)
32 Hours | $995 Contract | $12,000
Process Safety Management, or PSM, is an OSHA requirement for companies that use Highly Hazardous Chemicals (HHC) in their manufacturing processes. This course describes the procedures required by OSHA and instructs the participant in how to design a full implementation of a PSM program that addresses the hazardous issues and is compliant with the OSHA requirements.

Oct 30 - Nov 2, 2018 Houston (South), TX

SH 925
Management of Change
20 Hours | $595 Contract | $7,000
The management of change (MOC) is a control procedure critical to many industries and processes. Change is essential to a company's productivity and needs to be managed. This two-and-half-day course will present methods to identify, review, approve, and implement changes within a management of change program through a series of exercises. After completing this course, participants will have tools to develop a management of change process.

Nov 27 - 29, 2018 Houston, TX
Apr 16 - 18, 2019 Arlington, TX

SH 930
Project Management for EHS Professionals
28 Hours | $995 Contract | $12,000
Project Management is both an art and a science. This course introduces EHS professionals to the methodology, tools, and techniques needed to deliver successful projects. Participants will learn the fundamentals of the project management framework, consisting of project initiation, planning, execution, control, and closure. Through course exercises and scenarios, participants will build skills in assessing and managing stakeholders, identifying and controlling project scope, developing a Project Plan, as well as other critical project documentation, managing risks, and building the project schedule and budget.

Jan 22 - 25, 2019 Arlington, TX
May 28 - 31, 2019 Houston, TX

SH 601
Intermediate Accident Investigation & Photography
24 Hours | $595 Contract | $7,000
This three-day course provides participants with instruction on accident investigation procedures and analysis techniques beyond the basic level. The goal of the course is to assist participants in gaining the skills and knowledge necessary to conduct more effective workplace incident investigations. This course also includes a full day of instruction on the proper use of digital photography and its role in conducting investigations and documenting the scene of an incident.

Oct 9 - 11, 2018 El Paso, TX
Nov 6 - 8, 2018 Austin, TX
Dec 11 - 13, 2018 Oklahoma City, OK
Jan 29 - 31, 2019 Houston, TX
Feb 19 - 21, 2019 Arlington, TX
May 7 - 9, 2019 Albuquerque, NM
Jul 30 - Aug 1, 2019 Houston, TX
Aug 27 - 29, 2019 Arlington, TX

SH 701
Advanced Accident Investigation
32 Hours | $695 Contract | $9,000
This four-day course presents advanced skills in conducting incident investigations that aid in determining the contributing factors to workplace injuries and fatalities. In particular, participants will learn how to develop a course of action to prevent future problems. They will also learn the importance of conducting a thorough investigation in a consistent manner that will, if necessary, stand up in court. Coursework includes lecture, in-class workshops, case studies, and out-of-class work.

Prerequisites: SH 601 Intermediate Accident Investigation and Photography

Nov 27 - 30, 2018 El Paso, TX
Jan 22 - 25, 2019 Austin, TX
Feb 5 - 8, 2019 Tulsa, OK

## ETI 501
### EPA Outreach Trainer Course

**32 Hours | $695**

This course authorizes trainers to teach the EPA 8-Hour Environmental Hazard Awareness course and allows them to be recognized by UTA as an EPA Outreach Trainer. During the course, EPA topics will be reviewed and training techniques presented to promote environmental awareness among workers and equip them to better protect human health and environmental resources.

Note: Participants are encouraged to bring a laptop.

**Prerequisites:** ETI 101 - Introduction to Environmental Compliance with completion exam and three years of environmental program experience. A college or master's degree in environmental programs or a Registered Environmental Manager (REM) designation from the National Registry of Environmental Professions may be substituted for two years of experience.

MGE 801
Environmental Management Systems ISO 14001:2015
32 Hours | $995
This course specifies general requirements and guidelines of the ISO 14001:2015 Environmental Management System (EMS) standard. A fully implemented EMS will provide reasonable assurance of minimal negative environmental impact, improved environmental performance and sustainable growth.

May 21 - 24, 2019 Arlington, TX

MGE 810
Environmental Audits
24 Hours | $895
An in-depth look at environmental compliance auditing in all types of organizations in accordance with demonstrated industry techniques and standards of practice. Completion of this course will help improve compliance status, control risks, support environmental management systems, and identify opportunities for pollution prevention.

Oct 24 - 26, 2018 Austin, TX
May 1 - 3, 2019 Austin, TX
Jun 5 - 7, 2019 Arlington, TX

MGE 811
Environmental Law
24 Hours | $750
This course assists environmental and safety managers in identifying legal issues, deepening their understanding of how the law intersects with work duties and responsibilities, and learning how best to protect themselves and their employers from claims and enforcement actions.

Apr 10 - 12, 2019 Arlington, TX
Jun 19 - 21, 2019 Austin, TX

MGE 817
Pollution Prevention and WRPA
16 Hours | $375
This course will give you strategies on how to improve efficiency while decreasing or eliminating pollution. Experts in pollution prevention, environmental management systems (EMS), environmental regulations, and energy efficiency conduct an interactive workshop with classroom exercises that will help you use pollution prevention strategies to improve your bottom line.

Oct 29 - 30, 2018 Houston, TX

Policies & Procedures

Cancellations
The University of Texas at Arlington reserves the right to change or cancel any class. In the event that a class must be changed or canceled, you will be notified by email and/or phone. You are required to provide a valid email address and phone number to ensure notification. Cancellations due to insufficient enrollment will be made approximately one (1) to two (2) business days prior to the class start date.

If a course is canceled by UTA, participants have the option to transfer to another course, hold their funds in escrow, or receive a refund. No fees will be charged for these transactions if UTA cancels a class.

Participant Withdrawal and Transfer Policy
If a participant withdraws from a class more than two (2) full business days prior to class, they may transfer to another class at no charge; hold fees in escrow up to one year at no charge; or refund their course fee less a $35 processing charge for fees less than $1,000, or 5% of fees over $1,000.

If a participant withdraws from a class later than two (2) business days prior to the class start date, the fees are non-refundable. They may transfer to another class at no charge or hold the fees in escrow at no charge.

All withdrawal requests must be received via telephone, Monday-Friday during normal business hours.

Textbooks
All course materials will be provided by UTA unless otherwise indicated. Additional Codes of Federal Regulations (CFRs) may be purchased in English or Spanish by contacting our office. A minimum purchase amount of $200 is required.

Accommodations
The Division for Enterprise Development is dedicated to providing equal educational opportunities to all qualified course participants. Contact cedquestions@uta.edu or call 866-906-9190 for information regarding special accommodations.

Title IX Policy
The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. For more information, visit uta.edu/eos. For information regarding Title IX, visit uta.edu/titleix.

CURSOS DE OSHA

OSHA #510
Normas de OSHA para la Industria de la Construcción
30 Horas | $595 Contrato | $8,000
Este curso cubre las normas, políticas y procedimientos de OSHA para la industria de la construcción. Los temas incluyen el alcance y aplicación de las Normas de Construcción de OSHA, compendio de los principios de seguridad y salud en la construcción, con énfasis en las áreas de más riesgo. Al completar el curso, los participantes serán capaces de precisar los términos encontrados en las Normas de Construcción de OSHA; identificar los riesgos en la industria de la construcción; localizar y determinar las normas, principios y procedimientos apropiados de las Normas de Construcción de OSHA, y describir el uso de las Normas de Construcción de OSHA, además de los reglamentos que complementan el desarrollo del programa de seguridad y salud en las instalaciones laborales.

Feb 12 - 15, 2019 El Paso, TX

Requisitos previos: Los participantes deben completar con éxito el curso OSHA 500 (Normas de OSHA para la Industria de la Construcción) o Extensión, además de tener cinco (5) años de experiencia en seguridad y salud laboral.

Curso de Actualización: Se exige que los instructores autorizados para el Programa de Formación y Acercamiento de OSHA (llamado también de Alcance o Extensión) tomen el Curso de Actualización #502 de OSHA para Entrenadores en la Industria de la Construcción por lo menos una vez cada cuatro (4) años con el fin de que puedan mantener vigente su rango o estado de entrenador.

Mar 26 - 29, 2019 El Paso, TX

OSHA #511
Normas de OSHA para la Industria en General
30 Horas | $595 Contrato | $8,000
Este curso cubre la política y procedimientos contenidos en las Normas de OSHA para la industria en general. Los temas abarcan y se enfocan en la implementación de las Normas de OSHA para la Industria en General, los principios referentes a la industria con énfasis especial en aquellas áreas de alto riesgo de la industria en general. Al completar el curso, los participantes podrán definir los términos contenidos en las Normas de OSHA para la Industria en General; identificar los riesgos de la industria en general; localizar y determinar las normas, política y procedimientos apropiados de OSHA para la Industria en General; describir el uso de las Normas de OSHA para la Industria en General y también los reglamentos para complementar un programa continuo de salud y seguridad en el lugar de trabajo.

Ene 28 - 31, 2019 Houston, TX
Mar 5 - 8, 2019 San Antonio, TX

OSHA #500
Curso de Entrenamiento en Normas de OSHA para la Industria de la Construcción
30 Horas | $695 Contrato | $9,000
Este curso prepara a los participantes para ser entrenadores para el Programa de Formación y Acercamiento Instructivo (Outreach Training Program en inglés) de OSHA, que se ofrece en clases de 10 y 30 horas, permitiéndoles emitir Tarjetas del Programa de Acercamiento y Entrenamiento de OSHA a aquellos participantes que hayan completado el curso bajo verificación. Usando las Normas de Construcción de OSHA como guía, el curso enfatiza las materias que exigen los programas de 10 y 30 horas de clase, además de aquellas condiciones que puedan ser muy peligrosas. Los participantes reciben entrenamiento bajo un método práctico e instructivo, usando además materiales visuales y volantes informativos. Los participantes tienen que preparar una presentación sobre un tema asignado referente al Programa de Entrenamiento de OSHA (llamado también de Alcance o Extensión), además de pasar un examen escrito al final del curso.

Abr 30 - May 3, 2019 San Antonio, TX

OSHA #521
Guía de OSHA para Higiene Industrial
26 Horas | $595 Contrato | $8,000
Este curso cubre las prácticas de higiene industrial y las regulaciones y procedimientos relacionados de OSHA. Los temas del curso incluyen reconocimiento, evaluación y control de peligros químicos, físicos, biológicos y ergonómicos; Límites de exposición permisibles (PEL); Los estándares de salud de OSHA; protección respiratoria; controles de ingeniería; Protocolos y estrategias de muestreo de OSHA; y elementos del programa de salud en el lugar de trabajo. Los talleres involucran a los participantes en el reconocimiento de peligros para la salud, los estándares de salud de OSHA y el uso de equipo de muestreo. Al finalizar el curso, los participantes podrán reconocer los principios y prácticas básicos de higiene industrial, identificar la característica de los contaminantes atmosféricos comunes, localizar los PEL, realizar cálculos básicos de higiene industrial y determinar los métodos para el control y la reducción de peligros.

Mar 5 - 8, 2019 San Antonio, TX

Los cursos de OSHA #500 y #501 son parte de un compendio del Programa de Entrenamiento para Formación y Acercamiento (llamado también de Alcance o Extensión), de OSHA. A las personas que logren completar estos cursos, se les concede autorización como Entrenadores en el Programa de Formación y Acercamiento Instructivo. Estos Entrenadores están Autorizados para impartir las clases de 10-y-30 horas de acercamiento a los trabajadores en la construcción, la industria en general, la marítima, además de las clases de -7.5 y15- horas para trabajadores que laboran en zonas de desastre.
OSHA #2055
Grúas en la Construcción

22.5 Horas Contrato | $8,000
Este curso cubre las mejores prácticas en la operación de grúas y torres de perforación utilizando como guía, las Reglas de OSHA sobre grúas y torres de perforación para la Industria de la Construcción. Los temas del curso incluyen los riesgos asociados con el montaje y desmontaje; variadas de grúas, conceptos para el levantamiento, manipulación, maniobrabilidad o aparejo de cable de acero, señalización, capacitación y entrenamiento del personal; reparación y requisitos para una inspección. Los estudiantes participarán en talleres para reforzar conceptos relativos al manejo práctico y protector del trabajo con grúas.

OSHA #2264
Permiso Requerido para Ingresar a Espacios Confinados

22.5 Horas Contrato | $8,000
Este curso cubre los riesgos para la seguridad y salud asociados con el permiso requerido para ingresar a espacios confinados. Las materias del curso incluyen tanto el Permiso Requerido bajo las Normas de OSHA para Espacios confinados para la Industria en General como para la de Construcción; identificación de permisos requeridos y no requeridos para ingresar a espacios confinados; técnicas de ventilación, desarrollo e implementación de un programa para laborar en espacios confinados y el entrenamiento que se exige. Los talleres para este curso se enfocan en la clasificación de permisos de ingreso, instrumentación y desarrollo de programas.

OSHA #3015
Excavaciones, Zanjas y Clasificación de los Suelos

22.5 Horas $595 Contrato | $8,000
Este curso cubre las Normas de OSHA en cuanto a los aspectos de seguridad y salud relacionados con las excavaciones y zanjas. Los temas incluyen la relación entre la mecánica práctica del suelo, la estabilidad tanto de pendientes en tierra firme como de costa afuera y paredes, iniciación en, o introducción a varios tipos de tierra firme, clasificación del suelo y uso de sistemas de protección. Los estudiantes participarán en talleres enfocados en el uso de instrumentos como penetrométros, cizallas Torvane y varillas de ingeniería para demostrar métodos de ensayo o prueba. Los estudiantes Participantes tendrán la capacidad de evaluar el cumplimiento de las Normas, uso y métodos de análisis y pruebas que clasifican los tipos de suelo, determinar qué sistemas de protección se necesitan para operaciones de excavación, y entender los requisitos de entrenamiento.

OSHA #3085
Principios de Trabajo en y con Andamios

22.5 Horas $595 Contrato | $8,000
Este curso cubre los requisitos para la seguridad en la construcción, seguridad en la edificación y uso de andamios, basándose en los estándares de construcción de andamios de OSHA como guía. Los estudiantes participarán en talleres de refuerzo de conceptos referentes a seguridad en labores con andamios. Al completarse el curso, los participantes tendrán la capacidad de identificar los tipos de andamios y sus componentes, determinar los aspectos de seguridad en el montaje, utilización y desmontaje, además de reconocer violaciones comunes a las Normas de OSHA.

OSHA #3095
Normas que Rigen el Trabajo con Electricidad

26 Horas $595 Contrato | $8,000
Este curso abarca las Normas de OSHA y los riesgos asociados con instalaciones eléctricas y equipo correspondiente. Los temas del curso incluyen sistemas de una y tres fases, cable-y-enchufe-conectados y equipo de conexión fija, conexión terrestre, interruptores (GFCI) con mecanismo de fallo en circuitos de tomacorrientes con descarga a tierra, así como también prácticas de trabajo relacionadas con la seguridad en el desempeño laboral. Se hace hincapié en la detección de riesgos con electricidad, Normas de OSHA y política asociadas con detección y medidas de prevención y disminución de riesgos y procedimientos. Porciones aplicables al Código de Electricidad Nacional (NEC en inglés) también están incluidas. Los Estudiantes participarán en talleres sobre el uso protector y correcto del equipo para hacer pruebas con electricidad.

OSHA #3115
Protección Contra Caídas

22.5 Horas $595 Contrato | $8,000
Este curso cubre las Normas de Protección Contra Caídas de OSHA para la construcción, al igual que una perspectiva general de los métodos de protección contra caídas. Los temas del curso incluyen los componentes y limitaciones preventivas para detectar caídas, así como también las Normas OSHA y su política correspondiente a protección contra caídas. Los talleres proveerán a los participantes la oportunidad de demostrar la forma correcta de hacer inspección y uso del equipo de protección y prevención para detectar caídas, requisitos de entrenamiento y los métodos para el desarrollo de un programa de protección contra caídas.
GUÍA DE PLANIFICACIÓN DE CERTIFICACIÓN

ESPECIALISTA EN SEGURIDAD Y SALUD OCUPACIONAL

El Especialista en Seguridad y Salud (SSH) está diseñado para proporcionar a los participantes los conocimientos básicos que necesitan en el campo de la seguridad, con énfasis en la elección de su industria.

INDUSTRIA EN GENERAL

CURO OBLIGATORIO (1)
- OSHA #511 Normas de OSHA para la Industria en General

CUROS ELECTIVOS (3)
- OSHA #521 Guía de OSHA para la Higiene en el Campo Industrial
- OSHA #2015 Materiales Peligrosos y de Alto Riesgo
- OSHA #2045 Normas para la Maquinaria y la Protección de las Mismas
- OSHA #2225 Protección del Aparato Respiratorio
- OSHA #2255 Principios Referentes a la Ergonomía
- OSHA #2264 Permiso Requerido para el Ingreso a Espacios Confinados
- OSHA #3085 Principios Referentes al los Andamios
- OSHA #3095 Normas que Rigen Labores con Electricidad
- OSHA #3115 Protección contra Caídas

Valorado en dos pistas principales de la industria, el CSHO proporciona una educación de seguridad y salud, sólida y amplia en un currículo de cursos de seguridad y salud.

INDUSTRIA DE LA CONSTRUCCIÓN

CURO OBLIGATORIO (1)
- OSHA #510 Normas de OSHA para la Industria de la Construcción
