MISSION:
Improving safety in the Oil and Gas Industry through cooperative educational programming provided by DOL OSHA, Oil and Gas Industry and other Government and Regulatory Agencies. Building a productive and collaborative relationship between the Oil and Gas Industry and Regulatory Agencies through the sharing of best practices.

LEADERSHIP:
The primary planning committee is comprised of OSHA Region VI, The University of Texas at Arlington, Region VI OSHA Education Center and volunteer Oil and Gas Safety Leaders dedicated to promoting the improvement of health and safety practices.

Event Highlights

Number of attendees: 1600
Attendees from 3 countries and 37 states
Number of exhibitors: 119
Exhibit booths: 134

Keynote Speakers

TONY CROW
It's Not Just About Me (INJAM) Delivering a Message of Safety
Tony worked for TXU for 20 plus years attending numerous safety meetings, which became second nature to him. On February 15, 2003, while enjoying his favorite hobby, quail hunting, he was accidentally shot and blinded for life. Tony believes leadership is best shown by example. He shared his thoughts on safety as well as leadership in the workplace, at home, and through everyday life. Tony models his personal philosophies at home, church, and in the community. He has let life's difficulties make him better, not bitter.

KENI THOMAS
Army Ranger Involved in "Black Hawk Down" Mission
Ken is a former United States Army Ranger and current award winning country singer. Thomas was a member of Task Force Ranger as a part of Operation Restore Hope in Somalia, and served in the Battle of Mogadishu. Drawing from this experience as US Ranger, Thomas shared his motivational message of safety.
Featured Speakers

DAVID MICHAELS
PhD, MPH, Assistant Secretary of Labor for Occupational Safety and Health

David Michaels is an epidemiologist and a nationally recognized leader in the scientific community's efforts to protect the integrity of the science on which public health and regulatory policies are based. Before joining OSHA, he was Professor of Environmental and Occupational Health at the George Washington University School of Public Health. From 1998 to 2001, Dr. Michaels served as Assistant Secretary of Energy for Environment, Safety and Health. In that position, he was the chief architect of the Energy Employees Occupational Illness Compensation Program, the historic initiative to compensate nuclear weapons workers who contracted occupational illnesses as a result of exposure to radiation, beryllium and other hazards. The program has provided more than $6 billion in payments to sick workers and the families of deceased workers.

JOHN H. HERMANSON
Regional Administrator, Dallas Region of the U. S. Department of Labor

John Hermanson is the Regional Administrator for the Dallas Region of the U. S. Department of Labor, Occupational Safety and Health Administration (OSHA). Mr. Hermanson began his career as an Industrial Hygienist with OSHA in 1976 in the Indianapolis Area Office. From 1987 to 1990 he served as the Area Director in three different offices in Illinois, California and Arizona. In 1990 he returned to Chicago. Mr. Hermanson served as the Assistant Regional Administrator for Enforcement Programs, overseeing all enforcement operations for the Chicago region, which encompasses the six Great Lakes states. In 2004, he was promoted to the position of Deputy Regional Administrator for the Denver region. He was promoted to the position of Regional Administrator in Philadelphia in 2008 and came to Dallas in 2011.
Featured Speakers

JOHN HOWARD
MD, MPH, JD, LLM, Director, National Institute for Occupational Safety and Health

John Howard is the Director of the National Institute for Occupational Safety and Health in the U.S. Department of Health and Human Services. Dr. Howard also serves as the Administrator of the World Trade Center Health Program. Prior to his appointment as Director of NIOSH in 2002, Dr. Howard served as Chief of the Division of Occupational Safety and Health in the California Labor and Workforce Development Agency from 1991 through 2002. Dr. Howard is board-certified in internal medicine and occupational medicine. He is admitted to the practice of medicine and law in the State of California and in the District of Columbia, and is a member of the U.S. Supreme Court bar. He has written numerous articles on occupational health law and policy.

JAMES L. (JIM) GALLOGLY
PhD Chief Executive Officer of LyondellBasell

James L. (Jim) Gallogly is Chief Executive Officer of LyondellBasell, one of the world’s largest olefins, polyolefins, chemicals and refining companies. Prior to joining LyondellBasell in May 2009, Gallogly served as Executive Vice President of Exploration and Production for ConocoPhillips. He was named to that position in 2008 after serving as Executive Vice President of Refining, Marketing and Transportation for ConocoPhillips since 2006. Gallogly joined Chevron Phillips Chemical as President and Chief Executive Officer in 2000. Previously, he served Phillips Petroleum Company as senior vice president of chemicals and plastics, vice president of olefins and polyolefins, and vice president for North America production. Gallogly joined Phillips in 1980 and held various roles in exploration and production, legal and finance in the early portion of his career, including Jim Gallogly international assignments.
Featured Speakers

JANET FROETSCHER
President & CEO National Safety Council

Janet Froetscher is president and chief executive officer of the National Safety Council. The National Safety Council saves lives by preventing injuries and deaths at work, in homes and communities, and on the roads through leadership, research, education and advocacy. Under Froetscher’s leadership, the Council has focused on key safety initiatives, grounded in science, to advance its mission. These include the creation of the Journey to Safety Excellence approach to workplace safety that promotes continuous improvement of leadership and employee engagement, safety management systems, risk reduction and performance measurement. Froetscher has also led NSC in taking a leadership role on the issues of distracted and teen driving. NSC was the first organization to call for a national ban on cell phone use while driving; has driven 34 states to pass texting laws; and has encouraged corporations to adopt corporate cell phone bans.

JAMES J. THATCHER
PhD Advisor for Safety, Health, Training, Environmental and Security Programs for Encana Oil and Gas Company

Dr. Thatcher has 25 years of experience in the Oil and Gas, Metals/Minerals and Chemical industry. He has had many articles published in the Occupational Hazards Magazine, the VPP Leadership Magazine, IADC driller magazine, and through organizations such as the National Safety Management Society and the World Safety Organization. He is listed as an expert witness for operational as well as safety, health, environmental, training and security issues in the Oil and Gas industry and the mining, minerals and chemical industry. Dr. Thatcher retired from US Marine Corps with the rank of Colonel after 22 years. He was the president of the National Safety Management Society, and is on their board of directors. He is closely associated with the World Safety Association, and is listed in the United Nations directory as an expert in the field of safety, health, training and security.
Award Recipients

Rick Ingram and Linda Berryman (posthumously) received the OSHA Regional Administrator Award. This award recognizes individuals for their significant contributions in planning, establishing, administering, or enforcing worker protection programs in the Oil and Gas industry in Region VI.

There were also five recipients for the Linda Berryman Scholarship Award, which was established to fund and support those who are just starting out in the safety field, or who wouldn’t otherwise have the financial ability to attend the conference. The scholarship honors the life and legacy of Linda Berryman and her commitment to protecting workers in the Oil and Gas industry as well as her leadership on the first OSHA Oil & Gas Safety Conference in 2008.
Breakout Session Titles by Conference Track

BEHAVIOR BASED SAFETY
- Tools for Stopping and Re-directing Unsafe Operations
- Under the Influence; Attitudes at work
- The Contributing Factors of Behavior-Based Safety Failures
- Commitment Based Safety - The Only Way to Zero Injuries!
- Understanding and Influencing Bulletproof Employees
- Commitment is the Key
- The War Against Complacency
- The Psychology of Workplace Safety and Health
- Behavioral Safety and Safety Culture…Two Approaches lead to one result Safety Excellence
- Integrating Process and Behavior-Based Safety

CONTRACTOR SAFETY
- The Owner/Contractor Engagement: Shifting Your Leadership Focus
- OSHA Multi-Employer Policy and Relevance to Oil and Gas Operations
- Evaluating Contractor HES Systems & Culture - An Opportunity to Mentor
- Building a Foundation: Effective Health and Safety Programs
- Industrial Hygiene - what do contractors need to know?
- Contractor Safety: Issues, Best Practices and Approaches
- Surviving an Oil Company Contractor Safety Audit

DRILLING SAFETY
- Drilling Safety
- Duration and Energy of Flash Fires and Evaluation of FR Clothing
- The Cactus Story
- Do the Right Thing When Things Go Wrong
- Focus on Hurt Free
- Electrical Safety Hazards on Drilling Rigs
- Risk Assessment
- Recruiting, Hiring and Retaining the right people in the Drilling Industry
Breakout Session Titles by Conference Track

ENGINEERING CONTROLS & HEALTH SAFETY
- Ergonomic Design Considerations for the Aging Populations
- Frac Site Dust Control
- Silica Exposures in Completions Crews: Exposure Risks and Controls
- Heat Stress: What it is, How to evaluate your worksite for it and How to prevent it in your workers.
- Combustion Engines as Ignition Sources
- Fatigue Risk Management in the Petro-Chemical Industry
- Practical Steps For Addressing Fitness-For-Duty
- Sleep, Fatigue, and Safety

MANAGEMENT AND LEADERSHIP
- Accelerating HSE Culture through HSE Leadership
- CSR Implementation
- Business Impact of Injuries & Incidents
- Safety Culture Step Change
- Lead On
- Business Impact of Injuries & Incidents
- Increasing Risks to Oilfield Worker Safety – Panel Discussion
- Which Leaders Will Actually Lead
- Leading Safety through Predictive Analytics: The 4 Safety Truths about Observations
- Controlling and Reducing Costs of Job Related Injury

OSHA REGULATORY COMPLIANCE
- Oil & Gas Conference Open Discussion
- OSHA Recordkeeping - Why it is Important
- The OSHA Inspection Process
- E&P Fatalities and the Oklahoma Safety Stand Down
- Planning for the Unexpected
- OSHA Oil and Gas Workgroup
- Confined Spaces in Oil and Gas Operations
- FRC Update: API FRC Risk Assessment for the Oil and Gas Industry
- Respiratory Protection - The Last Line of Defense!
- OSHA’s Chemical NEP and Gas Plants
- Multi-agency Performance Based Regulations
Breakout Session Titles by Conference Track

TRAINING AND EDUCATION
- OTI Education Centers Adding Value for Organizations and Workers, including the Oil and Gas Industry
- Effective Strategies for Protecting Hispanic Oil & Gas Workers
- API Standards and Safety Related E&P Activities
- Oil and Gas Equipment Susceptible to Youth Curiosity
- The Importance of an Effective Incident Investigation
- 4 Hour OSHA 7845 Recordkeeping Rule Seminar
- On Site Medical Emergency Drills
- Making a Difference: Creating Effective Training for the Oilfield
- Is Team Training More Effective Than Cross-Group Training?

TRANSPORTATION DRIVER SAFETY
- Implementing an In-Vehicle Monitoring Program: A Guide for the Oil and Gas Extraction Industry
- Employer Liability and the Case for Comprehensive Cell Phone Policies
- Managing DOT Compliance with Authority
- Fatigue and Driver Safety
- Driving Safety: Enhancing Performance, Reducing Exposure
- Journey Management
- Fleet Exposures in the Oilfield

WELL SERVICING
- Engineered Restraint Systems for Pressure Pumping Operations
- 10 Steps to Oilfield Explosive Safety
- Well Service and Workover Safety
- Overcoming Generational Challenges in Safety Implementation
- SafeLandUSA Orientation for Onshore E&P
