Welcome to the University of Texas at Arlington

The University of Texas at Arlington (UTA) is a Carnegie Research-1 “highest research activity” institution. With a projected global enrollment of close to 57,000, UTA is the largest institution in the University of Texas System. Guided by its Strategic Plan, Bold Solutions, and Global Impact, UTA fosters interdisciplinary research within four broad themes: health and the human condition, sustainable urban communities, global environmental impact, and data-driven discovery. UTA was recently cited by U.S. News & World Report as having the second lowest average student debt among U.S. universities. U.S. News & World Report also ranks UTA fifth in the nation for undergraduate diversity. The University is a Hispanic-Serving Institution and is ranked as the top four-year college in Texas for veterans on Military Times’ 2017 Best for Vets list.

Environmental Training Institute - Cultivating Environmental Awareness and Compliance

The Environmental Training Institute (ETI) at UTA’s Division for Enterprise Development (DED) offers professional training for those managing environmental challenges or implementing environmental regulations. Through our Training Institute, we are able to provide Environmental, Health, and Safety (EHS) professionals with six certification programs that bundle curriculum and cultivate expertise in three distinct environmental areas: Regulatory, Science, and Management.

IndiVidual Courses or In Support of Certification Programs:

- **Environmental Technology Professional (ETP)** - For those looking to capitalize on the growing need for Environmental Technicians, the Environmental Technology Professional (ETP) Certificate Program is designed and developed to provide training essential for an entry level or experienced level position as an Environmental Technician.

- **Specialist in Environmental Regulations (SER)** - This certification introduces three key areas within the environmental industry: Air, Water, and Waste. Earn your SER by completing four (4) required fundamental regulatory courses.

- **Environmental Regulatory Professional (ERP)** - This certificate program provides EHS professionals with tools to understand and implement environmental regulatory requirements. To receive this designation, the ERP will have completed a set of core required courses and four electives based on their interests and/or industry.

- **Environmental Science Professional (ESP)** - For those EHS professionals seeking information on the science behind the regulations, the Environmental Science Professional certificate program has curriculum to support this goal. With a base knowledge of the regulatory requirements, this certificate program includes electives specific to the ESP.

- **Environmental Management Professional (EMP)** - The management of environmental issues requires skills that include: regulatory knowledge, leadership, communication and planning. This certificate program has courses to support the development of these skills.

- **Master Certification (MC) for the Environmental Professional** - The Master Certification is our most advanced level of certification with tracks available in Safety and Health, Environmental, and Risk Management. The foundation of this advanced certification is the Management System Design for EHS course. This course is made up of three sessions with hands-on application work completed by the participants between sessions.

**Air Quality Compliance Certificate**

- **2 Courses Required. Cost depends on selected courses.**
- **Required:**
  - AIR 201 - Fundamentals of the Clean Air Act
- **Select 1:**
  - AIR 202 - Air Monitoring Techniques
  - AIR 210 - Air Quality Compliance in Texas

**Waste Management Certificate**

- **2 Courses Required. Cost depends on selected courses.**
- **Required:**
  - WST 401 - Resource Conservation and Recovery Act
  - WST 410 - Managing Hazardous Waste in Texas Workshop

Save the Date

**November 28-29, 2017**

The Royal Sonesta Houston Galleria
2222 West Loop South
Houston, TX 77027

oilandgasconference.org | 866.906.9190
The following ETI courses fulfill the environmental requirements and electives of the Safety, Health & Environmental Professional (SHEP) certification.

**ETI 101**
Introduction to Environmental Compliance
This course is designed to give Environmental, Health, and Safety (EHS) professionals the tools needed to reduce environmental risks. The course will present a full overview of EPA environmental regulations and demonstrate how to identify regulations pertinent to a company’s operations. This is a required SHEP course.

**AIR 201**
Fundamentals of the Clean Air Act
This course provides an overview of the most pertinent Clean Air Act (CAA) requirements including the New Source Review process and Title V permitting, as well as programs to manage hazardous air pollutants and criterion pollutants. Students will gain an understanding of what requirements may apply to their facilities and the path to compliance.

**WTR 301**
Introduction to Water and Wastewater Regulations
This course provides an introduction to the Clean Water Act (CWA) and the National Pollutant Discharge Elimination System (NPDES). Discussion topics include NPDES permit types for storm water, industrial wastewater, domestic wastewater, and pre-treatment. Students have opportunities to utilize knowledge gained during the course.

**WST 401**
Resource Conservation and Recovery Act
Participants will learn about the federal Resource Conservation and Recovery Act (RCRA) and become familiar with a wide array of related federal, state, and local agencies as well as their requirements. The course will present the basics of managing waste, permitting processes, common violations, and waste minimization.

**ETI 501**
EPA Outreach Trainer Course
This course certifies trainers to teach the EPA 8-Hour Environmental Hazard Awareness course and allows them to be recognized by UTA as an EPA Outreach Trainer. Valid for 3 years.

**MGE 810**
Environmental Audits
This course provides participants with an in-depth look at multimedia environmental compliance auditing in all types of organizations in accordance with demonstrated industry techniques and standards of practice.

**MGE 802**
Pollution Prevention and Lean Principles Workshop
Attendees will learn to apply the pollution prevention and lean principles to work operations through a unique blend of written and interactive group activities and collaboration. Participants will be provided an opportunity to develop an action plan to improve their bottom line, reduce their regulatory burdens, and increase the overall efficiency of their organization.

**MGE 801**
This updated course specifies general requirements and guidelines of the new ISO 14001:2015 Environmental Management System (EMS) standard. A fully implemented Environmental Management System (EMS) will provide reasonable assurance of minimal negative environmental impact, improved environmental performance and sustainable growth.

**MGE 811**
Environmental Law
This course assists EHS professionals in identifying legal issues, deepening their understanding of how the law intersects with work duties and responsibilities, and learning how best to protect themselves and their employers from claims and enforcement actions.

Visit our website at www.uta.edu/ded/eti for more information on ETI and SHEP courses and certification programs.
Specialist in Environmental Regulations (SER)

Required:
- ETI 101 - Introduction to Environmental Compliance
- AIR 201 - Fundamentals of the Clean Air Act
- WTR 301 - Introduction to Water and Wastewater Regulations
- WST 401 - Resource Conservation and Recovery Act

Electives (Select 4):
- ETI 501 - EPA Outreach Trainer Course
- ETI 503 - Update for EPA Outreach Trainer Course
- AIR 203 - Fundamentals of Air Quality Management
- AIR 210 NEW! Air Quality Compliance in Texas
- WTR 302 - Stormwater Pollution Prevention Plans (SWPPP)
- WTR 303 - Spill Prevention, Control, and Countermeasure (SPCC)
- WTR 307 - National Pollutant Discharge Elimination System (NPDES)
- WST 403 - Introduction to Remediation: Leaking Petroleum Storage Tanks
- WST 405 - Aboveground Storage Tank/Underground Storage Tank
- MM 711 - Environmental Permitting - An Overview
- MGE 802 Pollution Prevention and Lean Principles Workshop
- MGE 803 - ESHIA: Environmental, Social, and Health Impact Assessment
- MGE 810 - Environmental Audits
- MGE 811 - Environmental Law
- WST 410 NEW! Managing Hazardous Waste in Texas Workshop
- WST 460 Resource Conservation and Recovery Act Overview (ONLINE)
- DOT 101 - DOT Hazardous Materials
- RM 101 - Safety, Health, and Environmental Risk Management (SHERM) Principles

Environmental Technology Professional (ETP)

Required:
- ETI 101 - Introduction to Environmental Compliance
- MM 720 - Environmental Monitoring & MM 721 - Environmental Monitoring Lab

Elective (Select 1):
- AIR 201 - Fundamentals of the Clean Air Act
- WTR 301 - Introduction to Water and Wastewater Regulations
- WST 401 - Resource Conservation and Recovery Act

For those looking to capitalize on the growing need for Environmental Technicians, the NEW Environmental Technology Professional (ETP) Certificate Program is designed and developed to provide you with the training essential for an entry or experienced level position as an Environmental Technician. Participants are required to complete three (3) required courses and one (1) elective course. After completing these requirements, you are only two (2) additional courses away from completing the Specialist in Environmental Regulations (SER) certification.

This certification introduces three key areas within the environmental industry including Air, Water, and Waste.

Once you complete the Specialist in Environmental Regulations (SER) requirements, you are only four (4) additional courses away from completing your Environmental Regulatory Professional (ERP) or Environmental Science Professional (ESP) requirements, and only five (5) additional courses away from completing your Environmental Management Professional (EMP).

These higher level certifications (ERP, ESP, EMP) fulfill one (1) of two (2) total requirements for the Master Certification (MC) for the Environmental Professional.
### Environmental Science Professional (ESP)

**Required:**
- Specialist in Environmental Regulations (SER)

**Electives (Select 4):**
- AIR 202 - Air Monitoring Techniques
- AIR 203 - Fundamentals of Air Quality Management
- WTR 305 - Wastewater Pretreatment Strategies and Controls
- WTR 308 - Potable Water Storage Inspection Techniques
- WST 403 - Introduction to Remediation: Leaking Petroleum Storage Tanks
- MM 710 - Environmental Controls
- MM 720 - Environmental Monitoring & MM 721 - Environmental Monitoring Lab
- MM 722 - Intro to Chemistry for the Environmental Professional
- MM 730 - Introduction to Environmental Toxicology
- MGE 802 - Pollution Prevention and Lean Principles Workshop
- MGE 803 - ESHIA: Environmental, Social, and Health Impact Assessment
- MGE 804 - Sustainability
- MGE 805 - Energy Efficiency/Management
- MGE 811 - Environmental Law
- MGE 830 - Technical Writing for the EHS Professional
- RM 701 - Advanced Accident Investigation
- SH 920 - Process Safety Management (PSM) Introduction
- SH 930 - Project Management
- DR 660 - Incident Management Training
- WST 410 NEW! Managing Hazardous Waste in Texas Workshop

### Environmental Management Professional (EMP)

**Required:**
- Specialist in Environmental Regulations (SER)

**Electives (Select 3):**
- AIR 210 NEW! Air Quality Compliance in Texas
- WTR 305 - Wastewater Pretreatment Strategies and Controls
- MM 711 - Environmental Permitting
- MM 722 - Intro to Chemistry for the Environmental Professional
- MM 730 - Introduction to Environmental Toxicology
- MGE 802 - Pollution Prevention and Lean Principles Workshop
- MGE 803 - ESHIA: Environmental, Social, and Health Impact Assessment
- MGE 804 - Sustainability
- MGE 805 - Energy Efficiency/Management
- MGE 811 - Environmental Law
- MGE 830 - Technical Writing for the EHS Professional
- RM 701 - Advanced Accident Investigation
- SH 920 - Process Safety Management (PSM) Introduction
- SH 930 - Project Management
- DR 660 - Incident Management Training
- WST 410 NEW! Managing Hazardous Waste in Texas Workshop

### Master Certification (MC) for the Environmental Professional

The Master Certification is our most advanced level of certification. The foundation of this advanced certification is the Management System Design for EHS course. To complete the Master Certification for the Environmental Professional, participants must complete all requirements and three (3) additional environmental electives.

**Required:**
- MS 901 - Management System Design for EHS (Note: Formerly MC101)

**Required (Select 1):**
- Environmental Regulatory Professional (ERP) Certification
- Environmental Science Professional (ESP) Certification
- Environmental Management Professional (EMP) Certification

**Additional Environmental Electives (3):**

**Note:** Environmental electives used for the required environmental certification (ERP, ESP, EMP) chosen may not be used toward the Master Certification for the Environmental Professional.

In order to obtain your certification, download the appropriate Certificate Request Form from uta.edu/ded.
ETI 501
EPA Outreach Trainer Course
32 Hours | $695 per student
$9,000 Group Price

Environmental compliance is the responsibility of all workers. Communicating and integrating environmental compliance into operations can be challenging. Attendance and successful completion of this course with a passing grade on the final exam certifies trainers to teach the EPA 8-Hour Environmental Hazard Awareness course and allows them to be recognized by UTA as an EPA Outreach Trainer. Trainers certified through this course will receive a wallet card valid for 3 years. During the course, EPA topics will be reviewed and training techniques presented to promote environmental awareness among workers and equip them to better protect human health and environmental resources. Various instructional approaches including the effective use of visual aids and handouts are covered, with course participants working in groups or independently to practice presentation of selected topics.

Note: Participants are encouraged to bring a laptop to work on presentation materials.

Prerequisites: ETI 101 - Introduction to Environmental Compliance with completion exam AND three years of environmental program experience. A college or master’s degree in environmental programs or a Registered Environmental Manager (REM) designation from the National Registry of Environmental Professions may be substituted for two years of experience.

Sep 5 - 8, 2017 Arlington, TX
Dec 5 - 8, 2017 Texas City (South Houston), TX
Mar 27 - 30, 2018 Lake Charles, LA
Jun 5 - 8, 2018 Arlington, TX

ETI 503 NEW!
Update for EPA Outreach Trainer Course
16 Hours | $495 per student
$6,000 Group Price

This course is designed for Authorized Outreach Trainers who completed the ETI 501 EPA Outreach Trainer Course. This course provides an update on EPA regulations and instructional approaches. Upon completion, participants will demonstrate effective adult learning principles and training techniques to present environmental hazards as they continue to teach the EPA 8-Hour Environmental Hazard Awareness class.

Prerequisites: Authorized Outreach Trainers are required to complete the ETI 501 EPA Outreach Trainer Course.

Refresher Training: Authorized Outreach trainers are required to attend the ETI 503 Update for the EPA Outreach Trainer Course at least once every three (3) years to maintain their trainer status.

Nov 2 - 3, 2017 Albuquerque, NM
Feb 15 - 16, 2018 Arlington, TX
May 16 - 17, 2018 Oklahoma City, OK

For more information on using the Outreach Portal, please contact our office:
866.906.9190 • outreach@uta.edu

UTA EPA Outreach Trainers are now able to submit UTA EPA Outreach card request through the Outreach Portal via our website, OutreachPortal.com.
AIR QUALITY COMPLIANCE CERTIFICATE
2 Courses Required. Cost depends on selected courses.

Required:
- AIR 201 - Fundamentals of the Clean Air Act
- AIR 202 - Air Monitoring Techniques
- AIR 210 - Air Quality Compliance in Texas

Select 1:
- AIR 203 - Fundamentals of Air Quality Management
- AIR 204 - Asbestos Awareness – General Industry
- AIR 205 - Indoor Air Quality Awareness

AIR 201
Fundamentals of the Clean Air Act
24 Hours | $750 per student
$9,000 Group Price
The Clean Air Act (CAA) requires facilities to implement robust air emission control practices which are regulated and enforced through a complex permitting process. During this class, the instructor will provide an overview of the most pertinent CAA requirements, including the New Source Review process and Title V permitting, as well as programs to manage hazardous air pollutants and criterion pollutants. Through classroom activities, presentations, and a discussion of compliance and enforcement activities, students will gain an understanding of what requirements may apply to their facilities and the path to compliance.

- Aug 15 - 17, 2017 La Marque (South Houston), TX
- Aug 29 - 31, 2017 Austin, TX
- Sep 6 - 8, 2017 Arlington, TX
- Oct 2 - 4, 2017 Austin, TX
- Oct 18 - 20, 2017 El Paso, TX
- Nov 6 - 8, 2017 La Marque (South Houston), TX
- Nov 15 - 17, 2017 Albuquerque, NM
- Dec 5 - 7, 2017 Arlington, TX
- Jan 22 - 24, 2018 Oklahoma City, OK
- Feb 19 - 21, 2018 Lake Charles, LA
- Mar 12 - 14, 2018 Arlington, TX
- Apr 16 - 18, 2018 Albuquerque, NM
- May 21 - 23, 2018 Houston, TX
- Jun 18 - 20, 2018 Arlington, TX
- Jul 16 - 18, 2018 Austin, TX

AIR 202
Air Monitoring Techniques
16 Hours | $650 per student
$8,000 Group Price
This course includes an overview of air monitoring and sampling, techniques to develop an air sampling strategy, purpose of air monitoring instruments (including DRI, PID, FID, and different types of dosimetry), common sampling media, calibration requirements, laboratory analysis, and documentation requirements. Through scenario-based activities, students will be given an opportunity to apply the techniques and principles presented.

- Oct 5, 2017 Austin, TX
- Mar 15, 2018 Arlington, TX
- Jun 21, 2018 Arlington, TX

AIR 203
Fundamentals of Air Quality Management
24 Hours | $795 per student
$10,000 Group Price
This course provides essential knowledge and skills required for successful management of a facility’s air quality program under the Clean Air Act (CAA) which is pivotal to good air quality. This course covers key components of CAA, air permitting, technical standards, enforcement, and compliance demonstration with federal, state, and local air quality regulations at a deeper level.

Note: Students are encouraged to bring a scientific calculator for class exercises.

- Dec 13 - 15, 2017 Arlington, TX
- Mar 7 - 9, 2018 Arlington, TX

AIR 204
Asbestos Awareness – General Industry
4 Hours | $195 per student
$2,500 Group Price
This course covers the identification of damaged and deteriorated asbestos-containing materials, characteristics and health effects of asbestos exposure, and work activities required to comply with general industry regulations.

- Sep 1, 2017 Arlington, TX
- Apr 6, 2018 Arlington, TX

AIR 205
Indoor Air Quality Awareness
4 Hours | $195 per student
$2,500 Group Price
This course has been designed to assist participants in identifying, preventing, and mitigating potential indoor air quality problems. The course prepares participants to apply their knowledge through indoor air quality problems and includes hands-on training and case studies developed by experienced instructors.

- Oct 13, 2017 Arlington, TX
- May 18, 2018 Arlington, TX
**WTR 301**
Introduction to Water and Wastewater Regulations

*24 Hours | $795 per student | $10,000 Group Price*

This course provides an introduction to the Clean Water Act (CWA) and the National Pollutant Discharge Elimination System (NPDES). The course will facilitate the student's ability to attain and maintain compliance with applicable water and wastewater regulations, and to better understand how those regulations impact their organization. Discussion topics include NPDES permit types for storm water, industrial wastewater, domestic wastewater, and pre-treatment. Case studies and class activities will be used to provide opportunities for participants to utilize knowledge gained during the course.

**WTR 302**
Stormwater Pollution Prevention Plans (SWPPP)

*16 Hours | $650 per student | $8,000 Group Price*

This course covers the fundamental requirements of a stormwater pollution prevention plan. It includes how to identify a facility's potential sources of pollution, discharge, and contamination, as well as methods to prevent and control storm water pollution through the implementation of best management practices (BMPs). From new construction to plant operations, participants will gain an understanding of erosion and sedimentation challenges, as well as methods to monitor and evaluate the effectiveness of SWPPPs.

**WTR 303**
Spill Prevention, Control, and Countermeasure (SPCC)

*16 Hours | $650 per student | $8,000 Group Price*

Under the Clean Water Act (CWA), the U.S. Environmental Protection Agency requires that regulated oil storage facilities develop and implement oil spill prevention, control, and countermeasure (SPCC) plans. In this spill prevention training course, participants will learn about SPCC plans, pollution regulations, proper storage of oil, oil transfer procedures, and proper containment practices. These include secondary containment, how to avoid security breaches, and follow proper discharge procedures.

**WTR 305**
Wastewater Pretreatment – Strategies and Controls

*16 Hours | $650 per student | $8,000 Group Price*

This introductory training for wastewater pretreatment provides practical resources to implement NPDES federal, state, and local wastewater pretreatment requirements under the Clean Water Act. Attendees will gain the ability to evaluate the need for permits and to effectively comply with permit requirements.

**WTR 307**
National Pollutant Discharge Elimination System (NPDES) – Water Quality

*16 Hours | $650 per student | $8,000 Group Price*

The National Pollutant Discharge Elimination System (NPDES) is a comprehensive program to manage pollutant discharges through a permitting process. Through workshops and case studies presented during this course, participants will explore the NPDES permitting process as well as the preservation of water quality.

**WST 401**
**Resource Conservation and Recovery Act**

**32 Hours | $895 per student**
**$11,000 Group Price**

This course is designed for professionals whose job duties include managing, storing, and shipping hazardous waste; managing solid waste; and identifying underground storage tanks (USTs). Participants will learn about the federal Resource Conservation and Recovery Act (RCRA) and become familiar with a wide array of related federal, state, and local agencies as well as their requirements. The course will present the basics of managing non-hazardous waste, permitting processes, common violations, and waste minimization.

**WST 410**
**Managing Hazardous Waste in Texas Workshop**

**8 Hours | $395 per student**
**$5,000 Group Price**

This 8-hour course covers state-specific regulations for managing hazardous and industrial waste in Texas. Topics include: Texas regulations vs. Federal regulations, hazardous and industrial wastes classification, identifying and managing Texas-specific universal wastes, regulatory exclusions and exceptions, preparing the hazardous waste manifest, recordkeeping and reporting requirements in Texas, as well as pollution prevention planning.

**Prerequisite:** WST 401 - Resource Conservation and Recovery Act.

**WST 403**
**Introduction to Remediation: Leaking Petroleum Storage Tanks**

**16 Hours | $650 per student**
**$8,000 Group Price**

Product releases at leaking petroleum storage tanks (LPSTs) often require the installation and operation of remediation systems to minimize impacts on soil and groundwater. This course is designed to introduce the steps and activities that are completed during the remediation phase at sites where soil and groundwater are contaminated by petroleum products. Discussion topics include existing site data review, potential data gap identification, technology selection criteria, feasibility study options, system design and costing, installation and startup, and operation and performance monitoring. Activities and case studies will be used throughout the course to enable attendees to apply the knowledge gained from the course.

**WST 405**
**Aboveground Storage Tank/ Underground Storage Tank**

**16 Hours | $650 per student**
**$8,000 Group Price**

Proper tank management of hazardous materials and petroleum products is critical to maintaining water quality. This course is designed to give environmental safety and health professionals a background, overview, and basic understanding of Underground Storage Tank and Aboveground Storage Tank (UST and AST) systems and components, laws, policies and guidelines to ensure compliance with federal and state environmental regulations. Activities and case studies will be used throughout the course to allow attendees to apply knowledge of the topics discussed during the course.

MM 710
Environmental Controls
16 Hours | $650 per student
$8,000 Group Price
Environmental controls are used to prevent, minimize, or mitigate environmental impacts. The controls can be focused on air, water, land, or a combination of the three. With proper usage and selection, environmental releases are managed. This course will provide an overview of the types of environmental controls, applications, and methods to verify effectiveness.

Sep 21 - 22, 2017 Arlington, TX
Mar 21 - 22, 2018 Arlington, TX

MM 711
Environmental Permitting - An Overview
20 Hours | $750 per student
$9,000 Group Price
Knowing whether an environmental permit is required for specific operations can prevent potential costs and/or violations related to conducting unpermitted operations. Although it seems simple, the process of obtaining environmental permits is complicated and specific to a particular company's operations. This course will provide techniques for identifying the relevant types of permits and planning techniques to obtain documents in a timely fashion.

Oct 11 - 13, 2017 Arlington, TX
Apr 25 - 27, 2018 Arlington, TX

MM 720
Environmental Monitoring
16 Hours | $650 per student
$8,000 Group Price
Environmental sampling is one of the primary methods of determining the effectiveness of controls. This class provides an overview of basic environmental monitoring techniques, including identifying when environmental monitoring is required; sampling techniques for air, water, and soil; sample handling, review of documentation, and more.

Sep 13 - 14, 2017 Arlington, TX
Nov 1 - 2, 2017 Arlington, TX
Feb 20 - 21, 2018 Arlington, TX
May 8 - 9, 2018 La Marque (South Houston), TX

MM 721
Environmental Monitoring Lab
8 Hours | $395 per student
$5,000 Group Price
This course applies the principles presented in Environmental Monitoring course in a laboratory setting. During the course, participants will explore the principles using environmental sampling equipment and case studies.

Prerequisites: Completion of the MM 720 Environmental Monitoring.

Sep 15, 2017 Arlington, TX
Nov 3, 2017 Arlington, TX
Feb 22, 2018 Arlington, TX
May 10, 2018 La Marque (South Houston), TX

MM 732
Introduction to Environmental Site Assessments
4 Hours | $195 per student
$2,500 Group Price
This course provides environmental professionals with concepts and skills necessary to conduct a Phase 1 ESA in compliance with federal requirements. Topics include how to obtain records, photos, environmental liens, and how to write a final environmental site assessment report.

Nov 17, 2017 Arlington, TX
Apr 20, 2018 Arlington, TX

MM 722
Introduction to Chemistry for the Environmental Professional
20 Hours | $750 per student
$9,000 Group Price
This class is designed for environmental professionals seeking knowledge in basic chemistry practices to assist them in everyday decision-making. This class provides attendees tools to understand environmental data, chemical analyses, and treatment options.

Aug 23 - 25, 2017 Arlington, TX
Apr 17 - 19, 2018 Arlington, TX

MM 730
Introduction to Environmental Toxicology
24 Hours | $795 per student
$10,000 Group Price
This course prepares professionals to identify, prevent, diagnose, manage, or treat populations exposed to environmental toxins. Participants will learn which hazardous materials cause health problems, how those chemicals affect the body, and how those chemicals enter the body.

Sep 27 - 29, 2017 Arlington, TX
Jan 30 - Feb 1, 2018 Arlington, TX

MM 731
Lead Awareness - General Industry
4 Hours | $195 per student
$2,500 Group Price
This course presents proper work practices related to prevention of Lead Based paint exposure in General Industry employees. Course content covers health effects of lead exposure and the compliance requirements of OSHA's Lead in General Industry Standard.

Oct 20, 2017 Arlington, TX

OSHA #521
OSHA Guide to Industrial Hygiene
26 Hours | $995 per student
$8,000 Group Price
This course covers industrial hygiene practices and related OSHA regulations and procedures. Course topics include recognition, evaluation, and control of chemical, physical, biological, and ergonomic hazards; Permissible Exposure Limits (PEL); OSHA health standards; respiratory protection; engineering controls; OSHA sampling protocols and strategies; and workplace health program elements. Workshops involve participants in health hazard recognition, OSHA health standards, and use of sampling equipment. Upon course completion, participants will be able to recognize basic industrial hygiene principles and practices, identify characteristics of common air contaminants, locate PELs, perform basic industrial hygiene calculations, and determine the methods for hazard control and abatement.

Sep 5 - 8, 2017 Austin, TX
Sep 12 - 15, 2017 Corpus Christi, TX

Feb 13 - 16, 2018 Bentonville, AR
Feb 20 - 23, 2018 Arlington, TX
Feb 27 - Mar 2, 2018 Oklahoma City, OK

For additional OSHA #521 class dates, log on to uta.edu/ded/osha

SH 920
Process Safety Management (PSM)
32 Hours | $995 per student
$12,000 Group Price
Process Safety Management, or PSM, is an OSHA requirement for companies that use Highly Hazardous Chemicals (HHC) in their manufacturing processes. This course describes the procedures required by OSHA and instructs the participant in how to design a full implementation of a PSM program that addresses the hazardous issues and is compliant with the OSHA requirements.

Jan 23 - 26, 2018 Arlington, TX

SH 930
Project Management for EHS Professionals
28 Hours | $995 per student
$12,000 Group Price
Project Management is both an art and a science. This course introduces EHS professionals to the methodology, tools, and techniques needed to deliver successful projects. Participants will learn the fundamentals of the project management framework, consisting of project initiation, planning, execution, control, and closure. Through course exercises and scenarios, participants will build skills in assessing and managing stakeholders, identifying and controlling project scope, developing a Project Plan and other critical project documentation, managing risks, and building the project schedule and budget.

Aug 29 - Sep 1, 2017 Houston, TX
Apr 17 - 20, 2018 Arlington, TX

MS 901
Management System Design for EHS
92 Hours | $2,895 per student
$27,000 Group Price
This management system course provides participants the opportunity to design the core elements of a management system for environmental, risk, safety, and health programs. The goal of this course is to assist participants in the design and development of an effective management system through classroom instruction, case studies, and participant exercise activities. Participants must be available to attend all three sessions.

Houston, TX
Session 1: Jan 22 - 26, 2018
Session 2: Mar 6 - 9, 2018
Session 3: Apr 24 - 26, 2018

Arlington, TX
Session 1: May 14 - 18, 2018
Session 2: Jul 10 - 13, 2018
Session 3: Sep 4 - 6, 2018

RM 101
Safety, Health, and Environmental Risk Management (SHERM) Principles
32 Hours | $695 per student
$9,000 Group Price
This course provides an overview of risk management from the safety, health, and environmental program perspective. Specific topics covered include introduction to risk management using ISO STD 31000, key terminology, describing and applying the risk management process, and suggested strategies for improving environmental, health, and safety (EHS) programs using risk management principles.

May 7 - 10, 2018 Houston, TX
For additional RM 101 class dates, log on to uta.edu/ded/osha

DOT 101
Hazardous Materials Transportation Awareness
8 Hours (Online) | $150
This course provides the fundamentals of complying with the Department of Transportation (DOT) 49 CFR for proper handling of hazardous materials and regulatory requirements. Participants will learn how to use the Hazardous Materials Table to determine if materials are hazardous and how to communicate the requirements such as how to assign proper shipping names and descriptions; proper class and division, guidance for proper packaging and handling, prepare shipping papers, proper marking, labeling, and placarding. Hazardous Material registration, permitting, responsibilities, and enforcement will also be covered.

Aug 1 - 4, 2017 Arlington, TX
Oct 30 - Nov 2, 2017 Houston, TX
For additional DR 660 class dates, log on to uta.edu/ded/osha

RM 701
Advanced Accident Investigation
32 Hours | $695 per student
$8,000 Group Price
This four-day course presents advanced skills in conducting incident investigations that aid in determining the contributing factors to workplace injuries and fatalities. In particular, participants will learn how to develop a course of action to prevent future problems. Participants will also learn the importance of conducting a thorough investigation in a consistent manner that will, if necessary, stand up in court. Coursework includes lecture, in-class workshops, case studies, and out-of-class work.
Prerequisite: RM 601 Intermediate Accident Investigation and Photography

Sep 5 - 8, 2017 Oklahoma City, OK
Nov 28 - Dec 1, 2017 Lafayette, LA
Feb 27 - Mar 2, 2018 Arlington, TX
Mar 13 - 16, 2018 Albuquerque, NM
For additional RM 701 class dates, log on to uta.edu/ded/osha

DR 660
Incident Management Training
32 Hours | $695 per student
$8,000 Group Price
This course provides training in Incident Command under the National Incident Management System for Corporate Organizations. The training provides an introduction to the Incident Command System (ICS) and develops the knowledge and skills necessary to assume a supervisory position during Incident Command. This course describes the history, features, principles, and organizational structure as well as the organization and operation of the ICS and Incident Command Hazardous-Material. Topics include; management of resources, duties of all positions, and examples of what principles are used in incident and event planning. The relationship between ICS and the National Incident Management System (NIMS) is also explained.

LATIN AMERICAN ENVIRONMENTAL TRAINING

Our Partners in Mexico and Colombia - UT Arlington is proud to provide environmental regulatory and compliance training to participants in Mexico through EHSA Programas and in Colombia through Control Total de perdidas SA.

We offer classes at both these locations! Please visit the web addresses to view upcoming classes.

ehsaprogramas.com  controltotal.biz

GROUP (CONTRACT) TRAINING

UTA’s Environmental Training Institute can deliver any course and professional certification shown in this catalog at your site, international or domestic, in a time frame that fits your schedule with no employee travel expenses. Unless otherwise indicated, group (contract) pricing throughout this catalog reflects a class size of up to 20 students and includes all instructor fees and course materials. Training for groups over 20 are also available for an additional fee. We will come to you, wherever you are.

ENVIRONMENTAL CONSULTING

When you need services from experienced EHS professionals, The University of Texas at Arlington Division for Enterprise Development is your solution. We provide expert consultation on a variety of topics including: air, water, waste, risk management and more!

GSA PROGRAM

Discount pricing and streamlined purchasing procedures for open enrollment and custom contract training is now available to federal government customers through UT Arlington’s GSA Schedule 899 Environmental Services contract.

REGISTRATION

Registration is currently available online, in person, by phone, fax or mail. Early registration is strongly advised due to the space limitations of many classes. If a course requires prerequisite(s) all documentation MUST be verified prior to attending class.

- Online: uta.edu/ced
- In Person or by mail: 140 W. Mitchell St. Arlington, TX 76019
- By Phone: (817) 272-2581 or Toll Free: (866) 906-9190
- By Fax: (817) 272-2556

STUDENT WITHDRAWAL AND TRANSFER POLICY

Students have several options available should they need to withdraw from a class. The available options are dependent on when the student withdrawal is made. If a student withdraws from a class more the 2 full business days before the class, they may transfer to another class at no charge; hold fees in escrow up to one year at no charge; or refund their course fee less a $35 processing charge for fees less than $1,000, or 5% of fees over $1,000. If a student withdraws from a class any time from 2 days prior to the class start date or after a class begins, the fees are nonrefundable. They may transfer to another class or hold the fees in escrow. Please note: All student withdrawal requests must be received via telephone, Monday-Friday during normal business hours.

CANCELLATIONS

UT Arlington reserves the right to change or cancel any class. In the unfortunate event that a class must be changed or canceled, you will be notified by phone and/or email. You are required to provide a valid e-mail address and phone number to ensure notification. The decision to cancel a class due to insufficient enrollment will be made approximately one to two business days prior to the class start date. In the event that a class for which you have registered is canceled, you may transfer to another class, have funds held in escrow or receive a refund in accordance with the UT Arlington, Division for Enterprise Development Refund Policy.

OPEN ENROLLMENT

At UT Arlington, our open enrollment classes are offered in a variety of formats and locations to better serve the community, including weekday classes in over 20 locations throughout Texas, New Mexico, Oklahoma, Arkansas, and Louisiana. See schedules by course starting on page 6.

TEXTBOOKS

All course materials will be provided on the first class by UT Arlington unless indicated otherwise.

OUTREACH PORTAL

The Outreach Portal is a web based application that allows Authorized Outreach Trainers to request 8-hour student completion cards electronically via the Internet. This portal provides trainers with a personal, easy to use interface that uploads course information and stores data for better record keeping.

ON SITE SERVICE

If your company is looking to train a group of people, you can save time and money by contracting us to bring our best training and services to your site. We can customize any of the courses we teach to focus the content on your specific industry or facility. We can also provide you with expert consultation on your environmental, safety and health programs. Whether you need a one-time audit or more robust program support, we are here to connect you with the necessary resources.

ACCOMMODATIONS

The Division for Enterprise Development is dedicated to providing equal educational opportunities to all qualified course participants. Contact cedquestions@uta.edu or call 866.906.9190 for information regarding special accommodations.

TITLE IX POLICY

The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. For more information, visit uta.edu/eos. For information regarding Title IX, visit uta.edu/titleix.
