ETI Courses

ETI 101 Introduction to Environmental Compliance

\$895 | 32 Hours

This course is designed to give environmental, safety and health professionals the tools they need to reduce environmental risks. The course will present a full overview of EPA environmental regulations and demonstrate how to identify pertinent regulations to your operations.

AIR 201 Fundamentals of the Clean Air Act

\$750 | 24 Hours

The Clean Air Act (CAA) requires facilities to implement robust air emission control practices which are regulated and enforced through a complex permitting process. During this class, the instructor will give an overview of the most pertinent CAA requirements including the New Source Review process and Title V permitting, as well as programs to manage hazardous air pollutants and criterion pollutants.

WTR 301 Introduction to Water and Wastewater Regulations

\$795 | 24 Hours

This course provides an introduction to the Clean Water Act (CWA) and the National Pollutant Discharge Elimination System (NPDES), to include the NPDES permit types for storm water, industrial wastewater, domestic wastewater, and pre-treatment. Case studies and class activities will be used to provide opportunities for participants to utilize knowledge gained during the course.

WST 401 Resource Conservation and Recovery Act

\$895 | 32 Hours

This course is designed for professionals who need to understand rules and regulations for managing, storing, and shipping hazardous waste; solid waste management and underground storage tanks (USTs). Participants will learn about the federal Resource Conservation and Recovery Act (RCRA) and become familiar with a wide array of related federal, state and local agencies as well as their requirements.

ETI 501 EPA Outreach Trainer Course

\$695 | 32 Hours

Environmental compliance is the responsibility of all workers. The challenge is communicating and integrating environmental compliance into operations. Attendance and successful completion of this course and the final exam will prepare trainers to teach the EPA 8-Hour Environmental Hazard Awareness course and allow the participant to be recognized by UTA as an EPA Outreach Trainer with a wallet card (valid for 3 years).

Prerequisites: ETI 101 - Introduction to Environmental Compliance with completion exam AND three years of environmental program experience.

MGE 802 Pollution Prevention and Lean Principles Workshop

\$495 | 24 Hours

In this three-day workshop, learn to apply the pollution prevention and lean principles to your operations through a unique blend of written and interactive group activities and collaboration. During the first two days, you will analyze your operations and identify which activities add value. As part of the workshop, techniques to translate environmental goals into business critical operations are presented. On the third day of the workshop, attendees will be provided an opportunity to develop an action plan to improve their bottom line, reduce their regulatory burdens, and increase the overall efficiency of their organization.

*The above courses are part of the SHEP and MCE certification programs.
Funding may be available for eligible students.*
