OSHA has made reducing trenching and excavation hazards the agency’s priority goal. Make it yours! OSHA #3015 Excavation, Trenching, and Soil Mechanics.

• LET US COME TO YOU
Contract with us to customize any class in this catalog to fit your needs.

• EXPAND YOUR TRAINING TOOLBOX
Become an Authorized Safety & Health Trainer in over 15 different topics.

• ¿HABLA ESPAÑOL?
Earn your SSH or CSHO in Spanish at four locations throughout Region VI.
Excellence and achievement abound at The University of Texas at Arlington. Our highly ranked academic programs attract the best and brightest scholars from around the world, and our faculty and participants consistently receive national and international recognition for their accomplishments. The breadth and depth of these accolades accentuate UTA’s status as a preeminent place for intellectual pursuits and a driver of positive change. Our training is highly regarded by employers and industries.

As a leading OSHA Education Center, UTA is expanding its delivery of safety and health courses, offering new classroom locations, online courses, and more on-site contract training. Our courses are taught by industry experts with real-world insight and extensive technical and OSHA knowledge.

We will customize our training for your organization. No matter the delivery method you choose, course attendees can earn continuing education units (CEUs) and apply them to our professional certificates.

Attend Courses at Multiple Locations
Our numerous training sites throughout Region VI offer you flexible and convenient access to our knowledgeable and experienced instructors and quality training. Contract classes are also available.

## SCHEDULE CONTRACT

#GS-10F-211BA

Discount pricing and streamlined purchasing procedures for open enrollment and custom contract training is now available to federal government customers through UTA’s GSA schedule 899 Environmental Services contract. Visit our website at uta.edu/ded for more information or call us at 866.906.9190.

## FREE TRAINING

In recognition of Labor Rights Week, Workers’ Memorial Day, OSHA’s National Stand-Down to Prevent Falls in Construction, and Safe and Sound Week, the University of Texas at Arlington OSHA Education Center is offering a series of free short courses. See page 43 for complete course schedule.

Two OSHA short courses count as one elective toward your CSHO in Construction or General Industry.
BECOME AN INDUSTRY-RECOGNIZED CERTIFIED PROFESSIONAL

Who should earn a professional certification from the University of Texas at Arlington?
• Safety, health, and environmental professionals
• Safety coordinators
• Human resources professionals
• Safety and health training facilitators
• Public works professionals
• Risk management and risk assessment professionals
• Plant managers, supervisors, crew chiefs

Why should you earn a professional certification?
• Demonstrates professionalism
• Creates a safer work environment for you and your coworkers
• Distinguishes your career
• Validates your knowledge
• Proves your dedication to the profession
• Improves career advancement opportunities
• Provides for greater earning potential
• Qualifies for academic credit*

*The following institutions have made academic credit available for many of the courses taken from the OSHA Education Centers:

- Columbia Southern University | columbiasouthern.edu
- Northwest Arkansas Community College | nwacc.edu
- Tarrant County College | tccd.edu
- The University of Central Oklahoma | uco.edu

Download a certificate request form at uta.edu/ded/osha

If you wish to receive your certification in your last class, submit your application two to three weeks prior to your last class.

A minimum of two (2) classes being applied toward your SSH, CSHO, SHEP, or MC must be taken with UT Arlington.
SPECIALIST IN SAFETY & HEALTH

The Specialist in Safety and Health (SSH) is designed to give participants the foundational knowledge they need in the safety field, with an emphasis on their choice of industry.

### GENERAL INDUSTRY

**REQUIRED (1)**
- OSHA #511 OSHA Standards for General Industry

**ELECTIVES (3)**
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery & Machine Guarding Standards
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

### CONSTRUCTION INDUSTRY

**REQUIRED (1)**
- OSHA #510 OSHA Standards for Construction

**ELECTIVES (3)**
- OSHA #2015 Hazardous Materials
- OSHA #2055 Cranes in Construction
- OSHA #2225 Respiratory Protection
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

### PORT SAFETY

**REQUIRED (2)**
- OSHA #2055 Cranes in Construction
- OSHA #5410 OSHA Standards for the Maritime Industry

**ELECTIVES (2)**
- Any two (2) OSHA courses

### OIL & GAS

**REQUIRED (2)**
- OSHA #5810 Hazard Recognition for Oil and Gas
- OG 202 Hydrogen Sulfide (H₂S)

**ELECTIVES (2)**
- Any two (2) OSHA courses

### FIRE SAFETY

**REQUIRED (2)**
- OSHA #511 OSHA Standards for General Industry
- OSHA #510 OSHA Standards for Construction
- LS 101 Life Safety Code Concept
- FS 1500 Fire Safety and Health Management

**ELECTIVES (2)**
- OSHA #2015 Hazardous Materials
- OSHA #2225 Respiratory Protection
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3115 Fall Protection
- OSHA #5600 Disaster Site Worker Trainer Course
- MM 722 Chemistry for the Environmental Professional
- FS 201/202 Applied Fire Safety, Protection, and Analysis
- FS 913 Fire Service Trainer Course for Hazard Communication Global Harmonization (GHS)
- SH 7201 Bloodborne Pathogen Trainer Course

### DISASTER RESPONSE

**REQUIRED (2)**
- DR 560 ICS/NIMS for Disaster Response
- DR 660 Incident Management Training
- OSHA #511 OSHA Standards for General Industry
- OSHA #510 OSHA Standards for Construction

**ELECTIVES (2)**
- Any one (1) OSHA course
- HM 241 HAZWOPER General Site Worker 40-hour
- HM 245 HAZWOPER First Responder Operations Level

### HEALTHCARE

**REQUIRED (3)**
- SH 200 OSHA/Joint Commission Healthcare Safety Overview and Crosswalk
- SH 201 Trainer Course for Healthcare Employee Safety and Health
- OSHA #511 OSHA Standards for General Industry

**ELECTIVES (2)**
- Any two (2) OSHA courses

### RISK MANAGEMENT

**REQUIRED (2)**
- OSHA #511 OSHA Standards for General Industry
- OSHA #510 OSHA Standards for Construction
- RM 101 Risk Management Principles

**ELECTIVES (2)**
- RM 201 Assessment Techniques
- RM 202 Performance Measurement and Analysis
- RM 203 Risk-Informed Decision Making

---

1. Completion of OSHA #501 or #503 meets requirements.
2. Completion of SH 300 meets requirements.
3. Completion of SH 300 meets requirements.
4. Completion of SH 340 meets requirements.
5. Excluding Outreach Trainer courses and OSHA short courses.
6. Completion OG 200 or OG 201 meets requirements.
CERTIFIED SAFETY & HEALTH OFFICIAL

Offered in two major industry tracks, the CSHO provides a solid and broad-based safety and health education in a curricula of OSHA Training Institute courses.

**GENERAL INDUSTRY**

**REQUIRED (7)**
- OSHA #501 Trainer Course in OSHA Standards for General Industry
- OSHA #511 OSHA Standards for General Industry<br>  1 Completion of OSHA #501 or #503 meets requirements.
- OSHA #510 OSHA Standards for Construction<br>  3 Completion of OSHA #500 or #502 meets requirements.
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3095 Electrical Standards

**ELECTIVES (2)**
- OSHA #2015 Hazardous Materials
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #3085 Principles for Scaffolding<br>  2 Completion of SH 300 meets requirements.
- OSHA #3115 Fall Protection
- OSHA #5410 OSHA Standards for the Maritime Industry
- OSHA #5810 Hazard Recognition for Oil and Gas

**CONSTRUCTION INDUSTRY**

**REQUIRED (7)**
- OSHA #500 Trainer Course in OSHA Standards for Construction
- OSHA #510 OSHA Standards for Construction<br>  3 Completion of OSHA #500 or #502 meets requirements.
- OSHA #511 OSHA Standards for General Industry<br>  1 Completion of OSHA #501 or #503 meets requirements.
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding<br>  2 Completion of SH 300 meets requirements.
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

**ELECTIVES (2)**
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #2055 Cranes in Construction<br>  4 Completion of SH 340 meets requirements.
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry

**Note:** Two (2) OSHA short courses may be counted as one (1) elective toward your CSHO.

**SAFETY, HEALTH & ENVIRONMENTAL PROFESSIONAL**

Often, EHS responsibilities fall on the same person in an organization. Stay on top of your game and earn your SHEP certification by completing a full complement of coursework in safety and health, environmental, and risk management.

**REQUIRED (3)**
- ETI 101 Intro to Environmental Compliance
- RM 101 Risk Management Principles
- Certified Safety & Health Official (CSHO) Certification
  - Requires one (1) environmental elective

**SAFETY AND HEALTH ELECTIVES (4)**
- OSHA #500 Trainer Course in OSHA Standards for Construction
  - Requires five (5) electives
- OSHA #501 Standards for General Industry
  - Excluding Outreach Trainer courses and OSHA short courses.

**ENVIRONMENTAL ELECTIVES (1)**
- AIR 201 Fundamentals of the Clean Air Act
- ETI 501 EPA Outreach Trainer Course
- MGE 801 Environmental Management Systems
- MGE 810 Environmental Audits
- MGE 811 Environmental Law
- MGE 817 Pollution Prevention and Lean Principles
- WTR 301 Water and Wastewater Regulations
- WST 401 Resource Conservation and Recovery Act

---

1 Completion of OSHA #501 or #503 meets requirements.
2 Completion of SH 300 meets requirements.
3 Completion of OSHA #500 or #502 meets requirements.
4 Completion of SH 340 meets requirements.
5 Excluding Outreach Trainer courses and OSHA short courses.
6 Completion OG 200 or OG 201 meets requirements.
MASTER CERTIFICATION
The MC is our most advanced level of certification. Its foundation is the Management System Design course featuring one-on-one mentoring by our instructors.

SAFETY & HEALTH
REQUIRED (2)
- SHEP Certification
- MS 901 Management System Design for EHS

ELECTIVES (3)
Three (3) advanced safety and health courses with MC shield
- 
- 
- 

RISK MANAGEMENT
REQUIRED (2)
- SHEP Certification
- MS 901 Management System Design for EHS

ELECTIVES (3)
Three (3) additional risk management courses with MC shield
- 
- 
- 

ENVIRONMENTAL
REQUIRED (2)
- MS 901 Management System Design for EHS
  Environmental Regulatory Professional (ERP) Certification or
- Environmental Science Professional (ESP) Certification or
  Environmental Management Professional (EMP) Certification

ELECTIVES (3)
Three (3) additional environmental courses
- 
- 
- 

Note: Due to course content, we recommend attending your MC electives prior to taking the MS 901.
OSHA #510
OSHA Standards for the Construction Industry

30 Hours | $595  Contract | $8,000

This course covers the OSHA Standards, policies, and procedures in the construction industry. Topics include scope and application of the OSHA Construction Standards, construction safety and health principles, with special emphasis on the most hazardous areas in construction. Upon course completion, participants will be able to define construction terms found in the OSHA Construction Standards; identify hazards in the construction industry; locate and determine the appropriate OSHA Construction Standards, policies, and procedures; and describe the use of the OSHA Construction Standards and Regulations to supplement an ongoing workplace safety and health program.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Personal Protective Equipment.

OSHA #500
Trainer Course in OSHA Standards for Construction

30 Hours | $695  Contract | $9,000

This course prepares the participants to become a trainer in the OSHA Outreach Training Program, conduct both the 10- and 30-hour Construction Outreach classes and issue OSHA Outreach Cards to participants after verifying course completion. Using the OSHA Construction Standards as a guide, the course emphasizes those topics required in the 10- and 30-hour programs, as well as those which are most hazardous. Participants receive training on effective instructional approaches and the use of visual aids and handouts. Participants must prepare a presentation on an assigned OSHA Construction Outreach Training Program topic and pass a written exam.

Prerequisites: Participants must have successfully completed the OSHA #510 OSHA Standards for Construction within the past seven (7) years and have five (5) years of safety and health work experience in the construction industry.

Refresher Training: Authorized Construction Industry Outreach Training Program trainers are required to attend the OSHA #502 Update for Construction Industry Outreach Trainers at least once every four (4) years to maintain their trainer status.

FEATURED COURSE

SH 385
EM 385-1-1 Construction Requirements with OSHA 30-Hour Construction

40 Hours | $695  Contract | $10,000

This course is designed for contractors, military, and government employees who enforce, or must comply with, U.S. Army Corps of Engineers (USACE) safety and health requirements (EM 385-1-1, U.S. Army Corps of Engineers Safety & Health Requirements Manual) and OSHA 29 CFR 1926. Attendees will learn the unique procedures established by the USACE contracts and EM 385-1-1. Topics include recognition, avoidance, abatement, and prevention of safety and health hazards in construction. Specific topics cover preparation of site-specific accident prevention plan (APP), activity hazard analysis (AHA) development, site personnel training, incident response, and jobsite auditing.

Oct 21 - 25, 2019 Arlington, TX
OSHA #511
OSHA Standards for General Industry

30 Hours | $595
Contract | $8,000

This course covers the OSHA Standards, policies, and procedures in general industry. Topics include scope and application of the OSHA General Industry Standards and general industry principles, with special emphasis on the most hazardous areas in general industry. Upon course completion, participants will be able to define general industry terms found in the OSHA General Industry Standards; identify hazards in general industry; locate and determine appropriate OSHA General Industry Standards, policies, and procedures; and describe the use of OSHA General Industry Standards and regulations to supplement an ongoing workplace safety and health program.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Personal Protective Equipment.

OSHA #502
Update for Construction Industry Outreach Trainers

18.5 Hours | $495
Contract | $7,000
This course is for authorized OSHA Outreach Training Program trainers who have completed the OSHA #500 Trainer Course in OSHA Standards for the Construction Industry. The course provides an update on OSHA Construction Standards, policies, and regulations. Upon course completion, participants will be able to demonstrate professional development by applying effective adult learning principles and interactive training techniques to identify, define, and explain construction industry hazards and acceptable corrective measures as they teach the 10- and 30-hour Construction Outreach Training Program classes.

Prerequisites: OSHA #500 Trainer Course in OSHA Standards for Construction. Authorized Construction Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

UTA OUTREACH PROGRAM
The United States Department of Labor OSHA Outreach Training Program provides training for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces. The program also provides information regarding workers' rights, employer responsibilities, and how to file a complaint. This is a voluntary program and does not meet training requirements for any OSHA standards.

The OSHA #500, #501, #5400 and #5600 are part of the Occupational Safety and Health Administration Outreach Training Program. Completion of these courses authorizes individuals as an Outreach Trainer. Authorized Outreach Trainers deliver 10- and 30-hour outreach classes to workers in construction, general industry, maritime, and 7.5- and 15-hour classes for disaster site workers.

Advantages of being a UTA OSHA Education Center Outreach Trainer:
• Outstanding Instructor Training
• Experienced and Knowledgeable Outreach Staff
• Great Outreach Trainer Support
• Access to the Outreach Portal
• User-Friendly, Menu-Driven
• Simplified Submission and Recordkeeping
• Computer, Tablet, or Smartphone Access
• Improved Processing Speed
• Training Resources

**OSHA #503**

**Update for General Industry Outreach Trainers**

**18.5 Hours | $495**

This course is for authorized OSHA Outreach Training Program trainers who have completed course #501 Trainer Course in Occupational Safety and Health Standards for General Industry. The course provides an update on OSHA General Industry Standards, policies, and regulations. Upon course completion, participants will be able to demonstrate professional development by applying effective adult learning principles and interactive training techniques to clearly identify, define, and explain general industry hazards and acceptable corrective measures as they teach the 10- and 30-hour General Industry Outreach Training Program classes.

**Prerequisites:** OSHA #501 Trainer Course in Standards for General Industry. Authorized General Industry Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

Become an Authorized Safety & Health Trainer

Modeled after the OSHA Outreach Program, the goal of the UT Arlington Division for Enterprise Development Authorized Safety & Health Trainer Program is to provide training for workers on workplace hazards and safe work practices. Individuals designated as UTA Authorized Safety and Health trainers address the recognition, avoidance, abatement, and prevention of safety and health hazards associated with specific issues in the workplace. Trainers can use the Outreach Portal to request completion cards for their participants.

BECOME A TRAINER

☐ Take prerequisite course for desired designation¹
☐ Complete the ATP 191 Safety and Health Authorized Trainer

BE A TRAINER

☐ Instruct awareness-level classes following ATP guidelines
☐ Submit course reports via Outreach Portal to receive participant cards

STAY A TRAINER

☐ Update authorization every three (3) years through online modules

¹ Visit our website or view course descriptions for designation prerequisites

TRAINER SUPPORT

Advantages of being an Authorized Trainer:

• Train with some of the best instructors in the business
• Take advantage of our trainer resources
• Utilize our Outreach Portal to receive plastic participant wallet cards
• Work with our friendly staff
• Experience outstanding trainer support

The Outreach Training Portal is a web-based application designed with our trainers in mind to provide a more efficient and reliable method of requesting Outreach participant cards.

For more information about the Outreach Training Program or on using the Outreach Portal, contact our friendly staff at the number below.

ATP 191
Safety and Health Authorized Trainer

| 32 Hours | $695 | Contract | $9,000 |

This course incorporates an overview of instructional strategies, design, and practices for adult learning settings. It explores situational and cultural factors that influence adult learning and reviews the requirements of ANSI Z490.1, Criteria for Accepted Practices in Safety, Health, and Environmental Training on how to create, maintain, and evaluate effective EH&S training. Various instructional approaches, classroom management techniques, and the effective use of visual aids and handouts will be covered. Participants will develop informational presentations based upon the technical instruction and individual research requirements. Instruction and hands-on exercises on specific safety and health topics will be provided. The course includes “teach back” sessions to apply the adult learning techniques and effective safety and health training knowledge and skills. Participants will work in small groups, or independently, to develop the technical information for their presentation on one of the listed topic areas. Successful completion of the course and written and performance examinations will allow the participant to be recognized as an Authorized Trainer.

Refresher Training: Authorized Trainers are required to attend the ATP 1900 Online Update for Safety and Health Authorized Trainers at least once every three (3) years to maintain their trainer status.

Prerequisites: Participants must have three (3) years of safety and health work experience in any industry, or be a current authorized Outreach trainer.

The courses listed on this page feature no U.S. Department of Labor or OSHA affiliation, approval, or endorsement.
OTHER OSHA COURSES

OSHA #5410
Occupational Safety and Health Standards for the Maritime Industry

| 35 Hours | $695 | Contract | $9,000 |
This course covers the OSHA policies, procedures, and standards for the maritime industry, specifically shipyard employment, marine terminals, and longshoring. Special emphasis is on those areas most hazardous in the maritime industry using the OSHA Maritime Standards as a guide.

May 11 - 15, 2020 New Orleans, LA

OSHA #5400
Trainer Course in OSHA Standards for the Maritime Industry

| 30 Hours | $695 | Contract | $9,000 |
This course prepares the participant to become a trainer in the Outreach Training Program to conduct 10- and 30-hour maritime classes in shipyard employment, marine terminals, and longshoring. It authorizes them to issue OSHA Outreach Cards to participants after verifying course completion. Participants will receive training on effective instructional approaches and use of visual aids and handouts. Participants must successfully prepare a presentation on an assigned OSHA maritime industry Outreach Training Program topic and successfully pass a written exam.

Prerequisites: Participants must successfully complete the OSHA #5410 Occupational Safety and Health Standards for the Maritime Industry, have three (3) years of maritime industry experience, and possess at least two (2) years of occupational safety and health experience with a broad focus in any industry.

Refresher Training: Authorized Maritime Industry Outreach Training Program trainers are required to attend OSHA #5402 Maritime Industry Trainer Update Course at least once every four (4) years to maintain their trainer status.

July 14 - 17, 2020 New Orleans, LA

OSHA #5402
Maritime Industry Trainer Update Course

| 19 Hours | $7,000 | Contract | $5,000 |
This course provides trainers with information about updates to the OSHA Maritime standards, policies, and regulations. Upon course completion, participants will be able to demonstrate professional development by applying effective adult learning principles and interactive training techniques to identify, define, and explain maritime industry hazards and acceptable corrective measures.

Prerequisites: OSHA #5400 Trainer Course in OSHA Standards for the Maritime Industry. Authorized OSHA Outreach trainers are required to attend this course once every four (4) years to maintain their trainer status.

OSHA #5600
Disaster Site Worker Trainer Course

| 26 Hours | $9,000 |
Successful completion of this course authorizes participants to become OSHA Outreach trainers in the Disaster Site Worker Outreach Training Program. Course topics include the National Response Framework; the ICS; disaster work zone safety; respiratory protection; communication issues; and application of the elements of successful adult training.

Prerequisites: OSHA #500 Trainer Course in OSHA Standards for General Industry, three (3) years of safety training experience, and completion of the 40-hour HAZWOPER training.

Refresher Training: Authorized Disaster site worker Outreach Training Program trainers are required to attend the OSHA #5602 Update for Disaster Site Worker Trainer course at least once every four (4) years to maintain their Outreach Training Program trainer authorization.

OSHA #5602
Update for Disaster Site Worker Trainer Course

| 7.5 Hours | $5,000 |
This course updates the authorized Disaster Site Worker trainer with new technical and regulatory information related to disaster response and the role of OSHA in coordinating occupational safety and health efforts in the National Response Framework. Participants will have the opportunity to share "lessons learned" from teaching the Disaster Site Worker Course.

Prerequisites: OSHA #5600 Disaster Site Worker Trainer Course. Authorized Construction Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

SH 15DR
Disaster Site Worker

| 15 Hours | $5,000 |
This course is designed for personnel who provide skilled support services or site clean-up services (including hazardous waste cleanup) in response to a disaster. The importance of respiratory protection, other Personal Protective Equipment and proper decontamination procedures that may be used to mitigate the hazards will be emphasized.

Prerequisites: OSHA 10- or 30-hour training in Construction or General Industry.

FEATURED COURSE

SH 522
Industrial Hygiene Sampling Techniques for Silica

| 16 Hours | $395 | Contract | $5,000 |
This course introduces participants to basic industrial hygiene concepts, principles, and practices as they relate to the evaluation of respirable crystalline silica in the oil and gas industry. Schedule monitoring and the best practices for silica sampling as identified in the new OSHA standard will be covered with hands-on activities.

Nov 5 - 6, 2019 Arlington, TX

OSHA #5600 Disaster Site Worker Trainer Course

| 26 Hours | $9,000 |
Successful completion of this course authorizes participants to become OSHA Outreach trainers in the Disaster Site Worker Outreach Training Program. Course topics include the National Response Framework; the ICS; disaster work zone safety; respiratory protection; communication issues; and application of the elements of successful adult training.

Prerequisites: OSHA #500 Trainer Course in OSHA Standards for Construction or OSHA #501 Trainer Course in OSHA Standards for General Industry, three (3) years of safety training experience, and completion of the 40-hour HAZWOPER training.

Refresher Training: Authorized Disaster site worker Outreach Training Program trainers are required to attend the OSHA #5602 Update for Disaster Site Worker Trainer course at least once every four (4) years to maintain their Outreach Training Program trainer authorization.

OSHA #5602 Update for Disaster Site Worker Trainer Course

| 7.5 Hours | $5,000 |
This course updates the authorized Disaster Site Worker trainer with new technical and regulatory information related to disaster response and the role of OSHA in coordinating occupational safety and health efforts in the National Response Framework. Participants will have the opportunity to share "lessons learned" from teaching the Disaster Site Worker Course.

Prerequisites: OSHA #5600 Disaster Site Worker Trainer Course. Authorized Construction Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

SH 15DR Disaster Site Worker

| 15 Hours | $5,000 |
This course is designed for personnel who provide skilled support services or site clean-up services (including hazardous waste cleanup) in response to a disaster. The importance of respiratory protection, other Personal Protective Equipment and proper decontamination procedures that may be used to mitigate the hazards will be emphasized.

Prerequisites: OSHA 10- or 30-hour training in Construction or General Industry.
**OSHA #521**

**OSHA Guide to Industrial Hygiene**

26 Hours | $595  
**Contract | $8,000**

This course covers industrial hygiene practices and related OSHA regulations and procedures. Course topics include recognition, evaluation, and control of chemical, physical, biological, and ergonomic hazards; Permissible Exposure Limits (PEL); OSHA health standards; respiratory protection; engineering controls; OSHA sampling protocols and strategies; and workplace health program elements. Workshops involve participants in health hazard recognition, OSHA health standards, and use of sampling equipment. Upon course completion, participants will be able to recognize basic industrial hygiene principles and practices, identify characteristics of common air contaminants, locate PELs, perform basic industrial hygiene calculations, and determine the methods for hazard control and abatement.

**OSHA #2015**

**Hazardous Materials**

26 Hours | $595  
**Contract | $8,000**

This course covers OSHA General Industry Standards and other consensus and proprietary standards related to the use of hazardous materials. Course topics include flammable liquids, compressed gases, LP-gases, and cryogenic liquids. Participants will review related processes, such as spraying, dipping, and the use of electrical equipment in hazardous locations. Upon course completion, participants will be able to assess compliance with OSHA hazardous materials standards; determine hazardous (classified) locations; and conduct proper moving, storing, and handling of hazardous materials.

*This course satisfies the training prerequisite for the Authorized Trainer Program designation in Hazard Communication/Global Harmonization System (GHS).*

OSHA #2045
Machinery and Machine Guarding Standards

26 Hours | $595 Contract | $8,000

This course covers various types of common machinery, machine safeguards, and related OSHA regulations and procedures. Participants will receive guidance on the hazards associated with various types of machinery and determining proper machine safeguards. Course topics include machinery processes, mechanical motions, points of operation, control of hazardous energy sources (lockout/tagout), guarding of portable powered tools, control methods and hazard abatement, appropriate machine safeguards, and common OSHA machine guarding violations. Program highlights include the ability to recognize hazards, provide options for control, and hazard abatement through machine safeguarding and inspection workshops.

This course satisfies the training prerequisite for the Authorized Trainer Program designations in Lockout Tagout and Machine Guarding.

OSHA #2225
Respiratory Protection

26 Hours | $595 Contract | $8,000

This course covers the requirements for establishing, maintaining, and monitoring a respiratory protection program. Course topics include terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements. Program highlights include workshops on respirator selection, qualitative and quantitative fit testing, and the use of respiratory protection and support equipment. Upon course completion, participants will be able to identify and describe the elements of a respiratory protection program; properly select, use, and inspect respiratory protection and protection factors; and evaluate compliance with the OSHA standards.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Respiratory Protection.
**OSHA #2055**  
Cranes in Construction  

22.5 Hours | $595  
This course covers best practices in crane and derrick operation using as a guide the OSHA Cranes and Derricks in Construction Rule. Course topics include hazards associated with crane assembly and disassembly; types of cranes; lifting concepts; rigging and wire rope; signaling; employee qualifications and training; and maintenance, repair, and inspection requirements. Participants will participate in workshops to reinforce the concepts of safe crane operation.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Cranes & Rigging.

**OSHA #2264**  
Permit-Required Confined Space Entry  

22.5 Hours | $595  
This course covers safety and health hazards associated with permit-required confined space entry. Course topics include both the OSHA permit-required confined space standards for construction and general industry, identification of permit- and non-permit-required confined spaces; ventilation techniques; development and implementation of a confined space program; and training requirements. This course features workshops on permit entry classification, instrumentation, and program development.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Confined Space.

**OSHA #2255**  
Principles of Ergonomics  

19 Hours | $595  
This course covers the use of ergonomic principles to recognize, evaluate, and control workplace conditions that cause or contribute to musculoskeletal and nerve disorders. Topics include work physiology; anthropometry; musculoskeletal disorders; use of video display terminals; and risk factors, such as vibration, temperature, material handling, repetition, and lifting. Industrial case studies cover analysis and design of workstations and equipment workshops, along with coverage of current OSHA policies and guidelines. Upon course completion, participants will be able to recognize work-related musculoskeletal and nerve disorders, assess ergonomic programs, and conduct ergonomic evaluations.

OSHA #3015
Excavation, Trenching, and Soil Mechanics
22.5 Hours | $595 Contract | $7,000
This course covers the OSHA Excavation Standard and safety and health aspects related to excavation and trenching. Course topics include the relationship between practical soil mechanics and the stability of shored and unshored slopes and walls, introduction of various types of shoring, soil classification, and use of protective systems. Participants participate in workshops in the use of instruments such as penetrometers, Torvane shears, and engineering rods to demonstrate testing methods. Participants will be able to assess compliance with the Standard, use soil testing methods to classify soil types, determine protective systems for excavation operations, and understand the training requirements.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Excavation & Trenching.

OSHA #3095
Electrical Standards
26 Hours | $595 Contract | $8,000
This course covers the OSHA Electrical Standards and hazards associated with electrical installations and equipment. Course topics include single- and three-phase systems, cord- and plug-connected and fixed equipment, grounding, ground fault circuit interrupters (GFCI), and safety-related work practices. Emphasis is on electrical hazard recognition, OSHA Standards and policies, hazard recognition and abatement measures, and procedures. Applicable portions of the National Electrical Code (NEC) are also covered. Participants will participate in workshops on the safe and correct use of electrical testing equipment.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Electrical and Lockout/Tagout.

OSHA #3115
Fall Protection
22.5 Hours | $595
This course covers OSHA Fall Protection Standards for construction, as well as an overview of fall protection methods. Course topics include the components and limitations of fall arrest systems, and the OSHA Standards and policies regarding fall protection. Workshops provide participants the opportunity to demonstrate the proper inspection and use of fall protection equipment and fall arrest systems, training requirements, and the methods for developing a fall protection program.
This course satisfies the training prerequisite for the Authorized Trainer Program designation in Fall Protection.

OSHA #3085
Principles for Scaffolding
22.5 Hours | $595
This course covers the requirements for the safe construction and use of scaffolding, using as a guide the OSHA construction scaffold standard. Participants will participate in workshops to reinforce concepts of safe scaffolding. Upon course completion, participants will be able to identify the types of scaffolds and their components, determine safe assembly, use, and disassembly of scaffolding, and recognize common violations of OSHA Standards.
This course satisfies the training prerequisite for the Authorized Trainer Program designation in Scaffolding.

### OSHA #7100
**Introduction to Machinery and Machine Safeguarding**

| 4 Hours | $145 | Contract | $3,000 |

This course covers the process to identify, select and properly safeguard machinery to protect employees and others in the work area and provide training in safe work practices. Participants will be able to explain the hazardous actions and motions of various types of machinery, identify methods of safeguarding, and match identified safeguards with the applicable OSHA Machinery and Machine Guarding Standards to reduce and eliminate the potential for accidents and injuries.

Apr 27, 2020

Oklahoma City, OK

### OSHA #7105
**Evacuation and Emergency Planning**

| 4 Hours | $145 | Contract | $3,000 |

This course covers the OSHA requirements for emergency action and fire protection plans. Workshops involve participants in the development of emergency action plans. Participants will be able to list the elements of an emergency action plan and emergency evacuation floor plans, recognize violations of OSHA exit route requirements, and develop and implement workplace emergency action and fire protection plans.

Apr 27, 2020

New Orleans, LA

### OSHA #7115
**Lockout/Tagout**

| 7.5 Hours | $195 | Contract | $3,000 |

This course covers the role and responsibility of the employer in developing and implementing an energy control or lockout/tagout (LOTO) program. Topics include types of hazardous energy, detecting hazardous conditions, implementing control measures, and developing and implementing energy control programs. Participants will be able to explain the importance of energy control programs, procedures, training, and audits.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Lockout Tagout.

Sep 13, 2019

Baton Rouge, LA

May 1, 2020

Albuquerque, NM

### OSHA #7215
**Silica in Construction, Maritime, and General Industries**

| 7.5 Hours | $195 | Contract | $3,000 |

This course covers the development and implementation of controls and strategies to prevent or mitigate silica exposures in construction, maritime, and general industries. Course topics include describing the requirements of OSHA’s Respirable Crystalline Silica standards and recognizing the hazards and risks, assessment options, and exposure control measures associated with silica exposure.

Sep 9, 2019

Arlington, TX

Nov 7, 2019

Arlington, TX

### OSHA #7300
**Understanding OSHA’s Permit-Required Confined Space Standard**

| 7.5 Hours | $195 | Contract | $3,000 |

This course covers the requirements of the OSHA Permit-Required Confined Space Standard. Course topics include safety and health hazards associated with confined space entry, and the evaluation, prevention, and abatement of these hazards. The course covers OSHA requirements; it does not feature workshops (instrumentation, control methods and testing) which are included in the OSHA #2264 Permit-Required Confined Space Entry. This course is designed for small employers or a designated representative (line supervisor or manager) with the responsibility to develop a permit-required confined space program. Upon course completion students will have a basic understanding of confined space hazards, evaluating and abatement of the hazards, and determining when a confined space shall be classified as a permit-required confined space.

Apr 27, 2020

Arlington, TX

### OSHA #7405
**Fall Hazard Awareness for the Construction Industry**

| 7.5 Hours | $195 | Contract | $3,000 |

This course covers the identification, evaluation, prevention, and control of fall hazards in the construction industry. The course focuses on falls to a lower level rather than falls to the same level resulting from slips and falls. Participants will be able to identify fall hazards and employ OSHA-compliant methods to control and abate these hazards.

Tulsa, OK

### FREE TRAINING

In recognition of Labor Rights Week, Workers’ Memorial Day, OSHA’s National Stand-Down to Prevent Falls in Construction, and Safe and Sound Week, the University of Texas at Arlington OSHA Education Center is offering a series of free short courses. See page 43 for complete course schedule.
OSHA #7500
Introduction to Safety & Health Management
7.5 Hours | $195
Contract | $3,000
This course covers the implementation of an effective safety and health management system. The course addresses the core elements of an effective safety and health management system and those central issues that are critical to management of each element. This interactive training session, with class discussion and workshops, provides participants with the ability to evaluate, develop, and implement an effective safety and health management system.

Aug 10, 2020 Arlington, TX
Aug 10, 2020 Houston, TX

OSHA #7505
Introduction to Incident (Accident) Investigation
7.5 Hours | $195
Contract | $3,000
This course introduces basic accident investigation procedures and describes accident analysis techniques and is intended for employers, managers, employees, and employee representatives involved in conducting accident and/or near-miss investigations. Course topics include reasons for conducting accident investigations, employer responsibilities related to workplace accident investigations, and a six-step accident investigation procedure. Upon course completion, students will have the basic skills necessary to conduct effective workplace accident investigations.

Apr 27, 2020 SPANISH Arlington, TX
May 1, 2020 Houston, TX

OSHA #7510
Introduction to OSHA for Small Business
4 Hours | $145
Contract | $3,000
This course covers an introduction to the Occupational Safety and Health Administration (OSHA) and the OSH Act for owners and managers of small businesses. Course topics include an introduction to OSHA, OSHA Standards, the inspection process, implementation of a safety and health program, worker training requirements and assistance available to small businesses.

Sep 9, 2019 Albuquerque, NM

OSHA #7845
Recordkeeping Rule Seminar
4 Hours | $145
Contract | $3,000
This course covers the OSHA requirements for maintaining and posting records of occupational injuries and illnesses and reporting specific cases to OSHA. Participants will be able to identify OSHA requirements for recordkeeping, posting, and reporting occupational injuries and illnesses, as well as complete the OSHA Form 300 Log of Work-Related Injuries and Illnesses, the OSHA Form 300A Summary of Work-Related Injuries and Illnesses, and the OSHA Form 301 Injury and Illness Incident Report.

Sep 9, 2019 Albuquerque, NM
Apr 27, 2020 Arlington, TX
SH 200
OSHA/Joint Commission
Healthcare Safety Overview & Crosswalk

8 Hours | $195
Online | $150
Contract | $3,000

This course will prepare participants to evaluate the readiness of a healthcare organization pursuing accreditation by the Joint Commission. Participants crosswalk the OSHA 29 CFR 1910 General Industry Standards and Joint Commission Accreditation Manual Chapters covering Environment of Care (EC), Emergency Management (EM), Life Safety (LS) and Infection Control (IC). In addition, if applicable, references will be made to provisions of the Centers for Medicare Services (CMS) conditions of Participation. Participants investigate the numerous agencies, funding sources, investors and interest groups that contribute to regulatory and compliance requirements. Case studies are used to highlight and direct participant activities and identify areas for further investigation. This course is available for 9.6 Contact Hours of Nursing Continuing Education.

Sep 30, 2019 San Antonio, TX
Nov 11, 2019 Arlington, TX

SH 201
Trainer Course for Healthcare Employee Safety & Health

16 Hours | $395
Online | $300
Contract | $5,000

This course is designed for healthcare professionals who plan to present safety and health content to their employees and colleagues. The program covers topics specific to making safety and health training engaging, relevant, and impactful for all healthcare workers. In addition to the content, the participants will receive a Trainer’s Tool Kit with a variety of resources and training materials.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Healthcare Employee Safety & Health.

Oct 1 - 2, 2019 San Antonio, TX
Nov 12 - 13, 2019 Arlington, TX

ONLINE TRAINING AT YOUR OWN PACE
SH 200 and 201 are now available online.

MEDIC First Aid® is a leading provider of corporate CPR, AED, and first aid training programs. For 35 years, MEDIC First Aid Training Programs have used a scenario-based, video-directed, instructional approach that combines seeing, hearing, speaking, feeling, and doing to engage participants, embrace different learning styles, and make teaching and learning easier and more enjoyable. All backed by outstanding customer service and technical support. Learn more at hsi.com/medicfirstaid.

SH 202
Trainer Course for Medic First Aid and CPR

16 Hours | $495
Contract | $8,000

This course is designed to help participants build essential life-saving skills. Participants will be qualified to train others in Medic First Aid/CPR, use of Automated External Defibrillators (AEDs), disease prevention from Bloodborne Pathogens, and Infant and Child rescue skills and AED applications. Participants will apply these skills in optional scenario-based practices. Upon course completion, participants will be approved to instruct MEDIC First Aid training programs in BasicPlus, CarePlus, Bloodborne Pathogens, Emergency Oxygen, and Child/Infant Supplement. This training can be used for continuing education credits for nursing.

Oct 3 - 4, 2019 San Antonio, TX
Nov 14 - 15, 2019 Arlington, TX
Jan 15 - 16, 2020 Houston, TX
May 6 - 7, 2020 Arlington, TX
Jun 10 - 11, 2020 Oklahoma City, OK
Jul 1 - 2, 2020 Houston, TX
Jul 29 - 30, 2020 New Orleans, LA
These 3-day courses are designed for personnel who may be designated as the Competent Person by their employer. They incorporate specific ANSI standards, US Army Corps of Engineer EM 385-1-1 requirements, and other consensus standards in addition to the OSHA requirements. They include active participation, with hands-on activities and demonstrations. These courses are also recommended for any construction, maintenance, or supervisory personnel with specific responsibilities in the covered activities.*

**COMPETENT PERSON COURSES**

### CPT 101
**Fall Protection for the Competent Person**

| 24 Hours | Contract | $8,000 |

This course is designed for typical construction-related activities involving working at height or personnel who use fall prevention and/or protection equipment and systems or who is responsible for safety at their job sites where fall hazards exist. The topics covered include fall hazard recognition, evaluation, and control; construction exposures and applications; general industry, or ATP 191 Safety & Health Authorized Trainer. This course satisfies the training prerequisite for the Authorized Trainer Program designation in Fall Protection.

### CPT 102
**Excavation and Trenching Safety for the Competent Person**

| 24 Hours | Contract | $8,000 |

This course is designed for typical construction-related trenching and excavation activities or personnel responsible for safety at their job sites where excavation hazards exist. The topics covered include hazard recognition, evaluation, and control; construction exposures and applications; trenching and excavation regulations and requirements; soil classification; excavation hazard abatement; selection of suitable worker protection systems; pre-engineered and engineered systems; access and egress; and incident investigations.

### CPT 103
**Scaffolding Safety for the Competent Person**

| 24 Hours | Contract | $8,000 |

This course is designed for typical construction-related scaffolding erection, use, maintenance, and dismantling activities or personnel responsible for safety at their job sites where scaffolding is used. The topics covered include hazard recognition, evaluation, and control; construction exposures and applications; a detailed review of scaffolding regulations and requirements; eliminating and controlling hazards; conducting hazard surveys and inspections; access and egress; and incident investigations.

### CPT 104
**Confined Space Entry for the Competent Person**

| 24 Hours | Contract | $8,000 |

This course is designed for personnel who oversee crane operations and lifts or are required to be Qualified Riggers/Signalpersons. The topics covered include hazard recognition, evaluation, and control; construction exposures and applications; proper rigging principles and techniques; knots; tagline use; working load limits, mathematical calculations, and sling angles and load angle factors; sling selection and usage; wire rope and chain design; rigging inspection, proper rigging hardware inspection, and hook inspection and use; conditions and causes for removal; wedge sockets; hitches, crane characteristics and dynamics; requirements of the signal person; and hand signals and voice communication.

### CPT 105
**Qualified Rigger and Signalperson**

| 24 Hours | Contract | $8,000 |

This course is designed for personnel who oversee crane operations and lifts or are required to be Qualified Riggers/Signalpersons. The topics covered include hazard recognition, evaluation, and control; construction exposures and applications; proper rigging principles and techniques; knots; tagline use; working load limits, mathematical calculations, and sling angles and load angle factors; sling selection and usage; wire rope and chain design; rigging inspection, proper rigging hardware inspection, and hook inspection and use; conditions and causes for removal; wedge sockets; hitches, crane characteristics and dynamics; requirements of the signal person; and hand signals and voice communication.

### CPT 106
**Silica for the Competent Person**

| 24 Hours | Contract | $8,000 |

This course is designed to meet the new requirements for silica-competent person capable of recognizing and evaluating situations where overexposure may be occurring. The topics covered include routes of silica exposure; health effects of silica overexposure; exposure levels and tasks associated with acute and chronic silicosis; occupational exposure level and how exposures are measured; current regulations and best practices; determination of presence of silica through bulk sample analysis; material safety data sheets and material checklists; and controls to reduce silica exposures.

---

*Prerequisites: OSHA #500 Trainer Course in OSHA Standards for Construction, OSHA #501 Trainer Course in OSHA Standards for General Industry, or ATP 191 Safety & Health Authorized Trainer. This course satisfies the requirements of OSHA, ANSI, and USACE 385-1-1.*
Do you have several employees who need training or don’t see a course offering that meets your schedule? Every course and professional certification offered in this catalog can be delivered straight to you, at your facility, and on your schedule – eliminating employee travel expenses. Unless otherwise indicated, contract pricing throughout this publication reflects a class size of up to 20 participants and includes all instructor fees and course materials.

*These courses satisfy training prerequisites for the ATP 191. See page 15 for more information.*
OG 201
Update for Hydrogen Sulfide (H₂S) Trainer Course

4 Hours | $195 Online | $175 Contract | $3,000

This update course provides trainers with the skills and knowledge to educate employers and employees on the hazards associated with H₂S (Hydrogen Sulfide). It is required once every three (3) years for all personnel teaching H₂S classes in accordance with ANSI Z390.1. It provides timely information on hazards, policies, and regulations, with specific emphasis on the ANSI Z390.1 Standard.

Prerequisites: OG 200/202 Trainer Course in Hydrogen Sulfide (H₂S)

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Hydrogen Sulfide.

Nov 14, 2019 Houston, TX
Jan 23, 2020 Arlington, TX
Feb 27, 2020 Albuquerque, NM
Mar 26, 2020 El Paso, TX

Jul 9, 2020 Arlington, TX
Aug 13, 2020 Tulsa, OK

OG 202
Hydrogen Sulfide (H₂S)

20 Hours | $595 Contract | $7,000

This course provides comprehensive training on the hazards associated with H₂S and their required protective measures. Participants will learn the properties and characteristics, respiratory protection requirements, gas detection, emergency response, and current H₂S technology. Hands-on exercises and equipment demonstrations are included. The requirements in the ANSI Z390.1, Accepted Practices for Hydrogen Sulfide Training, American Petroleum Institute (API) Recommended Practices, and Federal H₂S regulatory standards are also covered. This course is designed for personnel working in the petroleum industry, municipalities, utilities, research and development laboratories, transportation, paper/pulp/food processing, and chemical manufacturing companies. Upon course completion, participants will receive a course completion certificate and student card.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Hydrogen Sulfide.

Jul 7 - 9, 2020 Arlington, TX
Aug 11 - 13, 2020 Tulsa, OK

DR 560
ICS/NIMS for the Disaster Response Supervisor & Professional

24 Hours Contract | $7,000

This course is designed for those individuals who may have leadership responsibilities at a natural or human-caused disaster site. The Incident Command System (ICS) and the National Incident Management System (NIMS) are studied in detail with an emphasis on their roles and uses during the crisis and consequence management phases of disaster response work. The topics covered include the history, features and principles, and organizational structure of ICS; introduction and overview of NIMS; the relationship between ICS and NIMS; operating efficiently during an incident or event within ICS; the intent, key concepts and principles underlying NIMS; and the purpose of the NIMS components, including preparedness, communications and information management, resource management, and command and management.

Oct 14 - 17, 2019 Houston, TX

DR 660
Incident Management Training

32 Hours | $695 Contract | $8,000

This course provides training in Incident Command under the National Incident Management System (NIMS) for Corporate Organizations. The training provides an introduction to the Incident Command System (ICS) and then develops the knowledge and skills necessary for personnel who are likely to assume a supervisory position during Incident Command. This course describes the history, features, principles, and organizational structure, as well as the organization and operation of the ICS and Incident Command Hazardous-Material. The topics covered include management of resources, the duties of all positions, and examples of how these principles are used in incident and event planning. It also explains the relationship between ICS and NIMS.

Oct 14 - 17, 2019 Houston, TX
HAZARDOUS MATERIALS COURSES

HM 241
HAZWOPER General Site Worker 40-Hour

40 Hours | $595
Contract | $10,000

This course is designed to fulfill the training requirements for workers involved in hazardous waste cleanup/remediation at industrial sites, RCRA or Superfund sites, voluntary cleanup operations, and operations involving hazardous wastes listed within Title 29 CFR Part 1910.120(e). Topics include scope, application, and definitions; safety and health programs; site characterization and analysis; site control; training; medical surveillance; engineering controls, work practices, and personal protective equipment; monitoring; site safety and health plans; drums and containers; decontamination; and on-site emergencies.

Sep 16 - 20, 2019 Arlington, TX
Mar 16 - 20, 2020 Arlington, TX
Mar 30 - Apr 3, 2020 Houston (South), TX
Jun 22 - 26, 2020 Tulsa, OK

HM 241H
Onsite HAZWOPER General Site Worker (Part II)

8 Hours | $295
Contract | $5,000

The onsite HAZWOPER course is designed to fulfill the site-specific and hands-on training requirements, as described in OSHA Interpretation Letter dated 11/22/94. This training includes the donning, doffing, and use of specific Personal Protective Equipment (PPE) required as well as site-specific hands-on task training tailored to the participant’s assigned duties.

Sep 20, 2019 Arlington, TX
Mar 20, 2020 Arlington, TX
Apr 3, 2020 Houston (South), TX
Jun 26, 2020 Tulsa, OK

HM 242
HAZWOPER Annual Refresher

8 Hours | $195
Online | $150
Contract | $3,000

This course is a refresher training course for individuals currently trained as HAZWOPER General Site Workers, First Responder Awareness Level or First Responder Operations Level. This training is required within one (1) year of the initial 40-hour course completion and yearly thereafter. Topics reviewed include hazardous materials and associated risks, HAZMAT recognition and identification, the role of the awareness-level individual, site security and control, and the Emergency Response Guidebook. The course satisfies the annual refresher training requirements of Title 29 CFR Part 1910.120(e&c).

Sep 16, 2019 Arlington, TX
Mar 16, 2020 Arlington, TX
Mar 30, 2020 Houston (South), TX
Jun 22, 2020 Tulsa, OK

HM 241O
Online HAZWOPER General Site Worker (Part I)

Online | $295

This online HAZWOPER course is designed to fulfill the basic training requirements for hazardous waste cleanup workers (Title 29 Code of Federal Regulations 1910.120(e)), and workers involved in emergency response operations or storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste. Topics include safety and health programs, site characterization and analysis, site control, training, medical surveillance, engineering controls, work practices, and PPE, monitoring; site safety and health plans; drums and containers; decontamination; and on-site emergencies. Participants must have additional training to complement this computer-based training. Training includes donning, doffing, and use of specific PPE, as well as site-specific hands-on task training.

ONLINE TRAINING AT YOUR OWN PACE

HM 241O and HM 242O are available online.
Enroll today at uta.edu/ded/osha

HM 243
HAZWOPER Site Supervisor

8 Hours | $3,000

HM 244
HAZWOPER First Responder Awareness Level

8 Hours | $3,000

HM 245
HAZWOPER First Responder Operations Level

24 Hours | $7,000

The courses listed on this page feature no U.S. Department of Labor or OSHA affiliation, approval, or endorsement.
MS 901
Management System Design for EHS
92 Hours | $2,895  Contract | $27,000
This management system course provides participants the opportunity to design the core elements of a management system for environmental, risk, safety, and health programs. The goal of this course is to assist participants in the design and development of an effective management system through classroom instruction, case studies, and participant exercise activities. Participants must be available to attend all three sessions.

Note: Due to course content, we recommend attending your MC electives prior to taking the MS 901.

ARLINGTON, TX
Session 1:  Aug 5 - 9, 2019
Session 2:  Sep 10 - 13, 2019
Session 3:  Oct 22 - 24, 2019

ALBUQUERQUE, NM
Session 1:  Feb 3 - 7, 2020
Session 2:  Mar 17 - 20, 2020
Session 3:  Apr 21 - 23, 2020

SH 810
Written Programs for Safety & Health Management
40 Hours | $995  Contract | $11,000
This course addresses the eight core elements of an effective safety and health system and those central issues that are critical to each element’s development, implementation, and proper management through the use of written material. Using a hands-on approach, participants will have the opportunity to develop policies, procedures, and checklists that are required to effectively manage a safety and health management system. It includes a course completion certificate for the OSHA #7500 Certification to Safety & Health Management.

May 18 - 22, 2020  Albuquerque, NM

SH 900
Leading Measures for Improving Safety
24 Hours | $895  Contract | $11,000
This advanced safety and health course is designed to provide participants with the skill and knowledge to identify key steps in the performance measurement process and to develop implementation strategies for an organization to effectively apply leading measures for improving performance: productivity, safety, and quality. We will review reporting requirements and standards such as GRI 403 on Occupational Health and Safety. We will illustrate corporate success measures, reward and recognition programs, and identify potential pitfalls in performance measurement systems. Use of case studies, job safety analyses, infraction records, and near-miss (near-hit) reports will be used to demonstrate the practical application of the leading measure approach to improving performance.

Dec 10 - 12, 2019  Arlington, TX
Aug 11 - 13, 2020  Albuquerque, NM

SH 687
Safety and Health Management Systems
32 Hours | $795  Contract | $10,000
Through lecture, intense participant involvement, and demonstrations of learning, participants will be provided the opportunity to differentiate various features of consensus standards and international standards for Safety and Health Management Systems (SHMS) such as the ANSI Z10 and ISO 45001. Participants will analyze the benefits of implementing a Safety and Health Management System and learn how to implement a SHMS in a variety of industries such as manufacturing, construction, healthcare, and retail.

Sep 24 - 27, 2019  Arlington, TX

SH 801
Enhancing Safety Performance with Behavioral Safety: Current Trends in BBS
24 Hours  Contract | $11,000
This course is designed to provide participants with a thorough understanding of Behavior-Based Safety and begins with the evolution of BBS, including the underlying principles, common myths and half-truths. Emphasis is given to lessons learned from experience and research. Long-term goals for BBS are identified, along with proven steps organizations can take that lead to safety excellence. Participants will learn how to develop observation and feedback skills, how to use behavioral data to improve performance, and strategies to motivate employee safety performance.

Sep 24 - 26, 2019  Albuquerque, NM
Feb 25 - 27, 2020  Arlington, TX
SAFETY & HEALTH MANAGEMENT

**SH 920**  
Process Safety Management (PSM)  
32 Hours | $995  
Contract | $12,000

Process Safety Management, or PSM, is an OSHA requirement for companies that use Highly Hazardous Chemicals (HHC) in their manufacturing processes. This course describes the procedures required by OSHA and instructs the participant in how to design a full implementation of a PSM program that addresses the hazardous issues and is compliant with the OSHA requirements.

Aug 20 - 23, 2019 Arlington, TX  
Sep 3 - 6, 2019 Houston (South), TX

**SH 925**  
Management of Change  
20 Hours  
Contract | $7,000

The management of change (MOC) is a control procedure critical to many industries and processes. Change is essential to a company's productivity and needs to be managed. This two-and-half-day course will present methods to identify, review, approve, and implement changes within a management of change program through a series of exercises. After completing this course, participants will have tools to develop a management of change process.

**SH 930**  
Project Management for EHS Professionals  
28 Hours  
Contract | $12,000

Project Management is both an art and a science. This course introduces EHS professionals to the methodology, tools, and techniques needed to deliver successful projects. Participants will learn the fundamentals of the project management framework, consisting of project initiation, planning, execution, control, and closure. Through course exercises and scenarios, participants will build skills in assessing and managing stakeholders, identifying and controlling project scope, developing a Project Plan, as well as other critical project documentation, managing risks, and building the project schedule and budget.

**SH 964**  
Safety Trained Supervisor (STS) Examination Preparation Workshop  
20 Hours | $395  
Contract | $5,000

The Safety Trained Supervisor (STS) certification provides a means to verify safety and health knowledge important for first-line supervisors, managers, and any person with safety responsibilities. This workshop will prepare you for the Safety Trained Supervisor Examination. Participants will review essential information that will be covered on the exam and review sample questions to identify areas where additional study may be required. Topics covered include hazard and risk assessment, observation of work practices, implementing safety and health requirements, risk mitigation, correcting unsafe and reinforcing safe behaviors, coaching methods, inspections, and incident investigation and more.

Apr 7 - 9, 2020 Arlington, TX

**ACCIDENT INVESTIGATION CERTIFICATE**

**SH 601**  
Intermediate Accident Investigation & Photography  
24 Hours | $595  
Contract | $7,000

This three-day course provides participants with instruction on accident investigation procedures and analysis techniques beyond the basic level. The goal of the course is to assist participants in gaining the skills and knowledge necessary to conduct more effective workplace incident investigations. This course also includes a full day of instruction on the proper use of digital photography and its role in conducting investigations and documenting the scene of an incident.

Aug 27 - 29, 2019 Arlington, TX  
Oct 8 - 10, 2019 New Orleans, LA  
Apr 14 - 16, 2020 Albuquerque, NM  
May 12 - 14, 2020 Austin, TX

**SH 701**  
Advanced Accident Investigation  
32 Hours | $695  
Contract | $7,000

This four-day course presents advanced skills in conducting incident investigations that aid in determining the contributing factors to workplace injuries and fatalities. In particular, participants will learn how to develop a course of action to prevent future problems. They will also learn the importance of conducting a thorough investigation in a consistent manner that will, if necessary, stand up in court. Coursework includes lecture, in-class workshops, case studies, and out-of-class work.

Prerequisites: SH 601 Intermediate Accident Investigation and Photography

Oct 1 - 4, 2019 Arlington, TX  
Sep 16 - 19, 2019 Houston, TX  
Dec 3 - 6, 2019 New Orleans, LA  
Aug 4 - 7, 2020 Austin, TX

**SH 702**  
Accident Investigation Certificate Program  
40 Hours | $995  
Contract | $12,000

This combination course takes participants step-by-step through the entire accident investigation process, as well as how to conduct their investigations consistently, and how to perform a root cause analysis. Participants will conduct investigations for multiple simulated accidents as well as participate in workshops and case studies.

**RM 101 Summary:**
This course provides an overview of risk management from the safety, health, and environmental program perspective. Specific topics covered include introduction to risk management using ISO STD 31000, key terminology, describing and applying the risk management process, and suggested strategies for improving environmental, health, and safety (EHS) programs using risk management principles.

**Locations and Dates:**
- Sep 9 - 12, 2019, Baton Rouge, LA
- Nov 12 - 15, 2019, Arlington, TX
- Nov 18 - 21, 2019, Houston, TX
- Jan 14 - 17, 2020, Austin, TX
- Feb 11 - 14, 2020, Arlington, TX
- Mar 2 - 5, 2020, Houston, TX
- Mar 24 - 27, 2020, Albuquerque, NM

- Aug 4 - 7, 2020, Arlington, TX
- Aug 17 - 20, 2020, Houston, TX

**RM 201 Summary:**
This course provides participants with techniques used to prepare for and conduct assessments, identify issues, and the disposition of identified issues. Assessments are used to systematically gather information, which is analyzed against approved criteria to identify potential issues related to compliance, performance, and effectiveness.

LS 101  
Life Safety Code Concept  
32 Hours | $695  
This course provides training and application of the concepts of NFPA 101 Life Safety Code requirements that protect people, property, and equipment. The course covers a host of topics related to reducing the spread of fire in buildings and providing a means of safe egress from buildings. Case studies and exercises will be used to convey the concepts supporting the code and its relationship to OSHA and Building Code requirements.

Sep 3 - 6, 2019

FS 1000  
Building Construction for the Fire Service  
24 Hours | $595  
Contract | $7,000  
Participants learn the components of building construction as they relate to firefighter safety and life safety, identify various classifications of building construction, and explain the theoretical concepts of how fire impacts the major types of building construction. They will gain knowledge on the elements of construction and the design of structures that are key factors when inspecting buildings, pre-planning fire operations, and operating during emergencies.

San Antonio, TX

FS 202  
Applied Fire Safety, Protection, and Analysis  
20 Hours | $595  
Contract | $7,000  
In this interactive course, participants will develop a comprehensive working knowledge of fire protection and prevention as it pertains to life safety within the workplace. Topics include historical background on codes and standards, legal and ethical authority, fire safety, building construction, building occupancy classifications, means of egress, features of fire protection, tent fire safety code analysis, building rehabilitation, field inspections, and detailed information on the Incident Command System.

FS 711  
Blueprint Reading for the Fire Service  
16 Hours | $395  
Contract | $5,000  
Participants learn to identify and interpret the different symbols and abbreviations related to fire, life safety, plumbing, heating and ventilation, and electrical construction drawings, schematics, and wiring diagrams. Participants will also learn fire safety and building code requirements and be able to identify hazards during the various project design phases. The training will enable participants to provide construction recommendations that will improve overall safety of the facility and the construction process.

ETI 501
EPA Outreach Trainer Course
32 Hours | $695
This course authorizes trainers to teach the EPA 8-Hour Environmental Hazard Awareness course and allows them to be recognized by UTA as an EPA Outreach Trainer. During the course, EPA topics will be reviewed and training techniques presented to promote environmental awareness among workers and equip them to better protect human health and environmental resources.

Note: Participants are encouraged to bring a laptop.

Prerequisites: ETI 101 - Introduction to Environmental Compliance with completion exam and three years of environmental program experience. A college or master's degree in environmental programs or a Registered Environmental Manager (REM) designation from the National Registry of Environmental Professions may be substituted for two years of experience.

Oct 1 - 4, 2019 Arlington, TX
Jan 28 - 31, 2020 San Antonio, TX
May 26 - 29, 2020 Arlington, TX
MGE 801
Environmental Management Systems ISO 14001:2015
32 Hours | $995
This course specifies general requirements and guidelines of the ISO 14001:2015 Environmental Management System (EMS) standard. A fully implemented EMS will provide reasonable assurance of minimal negative environmental impact, improved environmental performance and sustainable growth.

Aug 6 - 9, 2019          Houston, TX

**Policies & Procedures**

**Textbooks**

All course materials will be provided by UTA unless otherwise indicated. Additional Codes of Federal Regulations (CFRs) may be purchased in English or Spanish by contacting our office. A minimum purchase amount of $200 is required.

**Accommodations**

The Division for Enterprise Development is dedicated to providing equal educational opportunities to all qualified course participants. Contact cedquestions@uta.edu or call 866-906-9190 for information regarding special accommodations.

**Title IX Policy**

The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. For more information, visit uta.edu/eos. For information regarding Title IX, visit uta.edu/titleix.

**Cancellations**

The University of Texas at Arlington reserves the right to change or cancel any class. In the event that a class must be changed or canceled, you will be notified by email and/or phone. You are required to provide a valid email address and phone number to ensure notification. Cancellations due to insufficient enrollment will be made approximately one (1) to two (2) business days prior to the class start date.

If a course is canceled by UTA, participants have the option to transfer to another course, hold their funds in escrow, or receive a refund. No fees will be charged for these transactions if UTA cancels a class.

**Participant Withdrawal and Transfer Policy**

If a participant withdraws from a class more than two (2) full business days prior to class, they may transfer to another class at no charge; hold fees in escrow up to one year at no charge; or refund their course fee less a $35 processing charge for fees less than $1,000, or 5% of fees over $1,000.

If a participant withdraws from a class later than two (2) business days prior to the class start date, the fees are non-refundable. They may transfer to another class at no charge or hold the fees in escrow at no charge.

All withdrawal requests must be received via telephone, Monday-Friday during normal business hours.
FREE TRAINING

In recognition of Labor Rights Week, Workers’ Memorial Day, OSHA’s National Stand-Down to Prevent Falls in Construction, and Safe and Sound Week, the University of Texas at Arlington OSHA Education Center is offering a series of free short courses. Registration for these courses will open seven (7) days before each class.

866.906.9190 | oilandgasconference.org
• PROGRAMA DE ENTRENADOR AUTORIZADO
  Capacitar a los trabajadores y emitir tarjetas a estudiantes en más de 15 temas.

• CONVIÉRTETE EN UN PROFESIONAL CERTIFICADO RECONOCIDO EN LA INDUSTRIA
  Conviértase en un Especialista en Seguridad y Salud (SSH) o en un Oficial Certificado de Seguridad y Salud (CSHO) en cualquier de cuatro diferentes ubicación.
## CURSOS DE OSHA

### OSHA #510
**Normas de OSHA para la Industria de la Construcción**

<table>
<thead>
<tr>
<th>Horas</th>
<th>Precio</th>
<th>Contrato</th>
</tr>
</thead>
<tbody>
<tr>
<td>30</td>
<td>$595</td>
<td>$8,000</td>
</tr>
</tbody>
</table>

Este curso cubre las normas, políticas y procedimientos de OSHA para la industria de la construcción. Los temas incluyen el alcance y aplicación de las Normas de Construcción de OSHA, compendio de los principios de seguridad y salud en la construcción, con énfasis en las áreas de más riesgo. Al completar el curso, los participantes serán capaces de precisar los términos encontrados en las Normas de Construcción de OSHA; identificar los riesgos en la industria de la construcción; localizar y determinar las normas, principios y procedimientos apropiados de las Normas de Construcción de OSHA, y describir el uso de las Normas de Construcción de OSHA, además de los reglamentos que complementan el desarrollo del programa de seguridad y salud en el ámbito laboral.

Nov 12 - 15, 2019
Arlington, TX

### OSHA #500
**Curso de Entrenamiento en Normas de OSHA para la Industria de la Construcción**

<table>
<thead>
<tr>
<th>Horas</th>
<th>Precio</th>
<th>Contrato</th>
</tr>
</thead>
<tbody>
<tr>
<td>30</td>
<td>$695</td>
<td>$9,000</td>
</tr>
</tbody>
</table>

Este curso prepara a los participantes para ser entrenadores para el Programa de Formación y Acercamiento Instructivo (Outreach Training Program en inglés) de OSHA, que se ofrece en clases de 10 y 30 horas, permitiéndoles distribuir Tarjetas del Programa de Acercamiento y Entrenamiento de OSHA a aquellos participantes que hayan completado el curso bajo verificación. Usando las Normas de Construcción de OSHA como guía, el curso enfatiza las materias que exigen los programas de 10 y 30 horas de clase, además de aquellas condiciones que puedan ser muy peligrosas. Los participantes reciben entrenamiento bajo un método práctico e instructivo, usando además materiales visuales y volantes informativos. Los participantes tienen que preparar una presentación sobre un tema asignado referente al Programa de Entrenamiento de Formación y Acercamiento de OSHA (llamado también de Alcance o Extensión), además de pasar un examen escrito al final del curso.

Requisitos previos: Los participantes deben completar con éxito el curso OSHA $100 Normas para la Construcción, además de tener cinco (5) años de experiencia en seguridad y salud laboral en el sector de la construcción.

Curso de Actualización: Se exige que los instructores autorizados para el Programa de Formación y Acercamiento (llamado también de Alcance o Extensión), tomen el Curso de Actualización #502 de OSHA para Entrenadores en la Industria de la Construcción, por lo menos una vez cada cuatro (4) años con el fin de que puedan mantener vigente su rango o estado de entrenador.

Jul 28 - 31, 2020
Arlington, TX

### OSHA #511
**Normas de OSHA para la Industria en General**

<table>

Este curso cubre las prácticas de higiene industrial y las regulaciones y procedimientos relacionados de OSHA. Los temas del curso incluyen reconocimiento, evaluación y control de peligros químicos, físicos, biológicos y ergonómicos; Límites de exposición permisibles (PEL); Los estándares de salud de OSHA; protección respiratoria; controles de ingeniería; Protocolos y estrategias de muestreo de OSHA; y elementos del programa de salud en el lugar de trabajo. Los talleres involucran a los participantes en el reconocimiento de peligros para la salud, los estándares de salud de OSHA y el uso de equipo de muestreo. Al finalizar el curso, los participantes podrán reconocer los principios y prácticas básicas de higiene industrial, identificar las características de los contaminantes atmosféricos comunes, localizar los PEL, realizar cálculos básicos de higiene industrial y determinar los métodos para el control y la reducción de peligros.

### OSHA #2045
**Normas de Protección Maquinaria**

</tbody>
</table>

Este curso cubre las mejores prácticas en la operación de grúas y torres de perforación utilizando como guía, las Reglas de OSHA sobre grúas y torres de perforación para la Industria de la Construcción. Los temas del curso incluyen los riesgos asociados con el montaje y desmontaje; variedades de grúas, conceptos para el levantamiento, manipulación, maniobrabilidad o aparejo de cable de acero, señalización, capacitación y entrenamiento del personal; reparación y requisitos para una inspección. Los estudiantes participarán en talleres para reforzar conceptos relativos al manejo práctico y protector del trabajo con grúas.

### OSHA #3015
**Excavaciones, Zanjas y Clasificación de los Suelos**

<table>

<td>Mar 3 - 5, 2020</td>
</tr>
</tbody>
</table>

Este curso cubre las Normas de OSHA en cuanto a los aspectos de seguridad y salud relacionados con las excavaciones y zanjas. Los temas incluyen la relación entre la mecánica práctica del suelo, la estabilidad tanto de pendientes en tierra firme como de costa afuera y paredes, iniciación en, o introducción a varios tipos de tierra firme, clasificación del suelo y uso de sistemas de protección. Los estudiantes participarán en talleres enfocados en el uso de instrumentos como penetrómetros, cizallas Torvane y varillas de ingeniería para demostrar métodos de ensayo o prueba.

### OSHA #3085
**Principios de Trabajo en y con Andamios**

<table>

<td>Jun 2 - 4, 2020</td>
</tr>
</tbody>
</table>

Este curso cubre los requisitos para la seguridad en la construcción, seguridad en la edificación y uso de andamios, basándose en los estándares de construcción de andamios de OSHA como guía. Los estudiantes participarán en talleres de refuerzo de conceptos referentes a seguridad en labores con andamios. Al completarse el curso, los participantes tendrán la capacidad de identificar los tipos de andamios y sus componentes, determinar los aspectos de seguridad en el montaje, utilización y desmontaje, además de reconocer violaciones comunes a las Normas de OSHA.

### OSHA #3115
**Protección Contra Caídas**

<table>

</tbody>
</table>

Este curso cubre las Normas de Protección Contra Caídas de OSHA para la construcción, al igual que una perspectiva general de los métodos de protección contra caídas. Los temas del curso incluyen los componentes y limitaciones preventivas para detectar caídas, así como también las Normas OSHA y su política correspondiente a protección contra caídas. Los talleres proveerán a los participantes la oportunidad de demostrar la forma correcta de hacer inspección y uso del equipo de protección y prevención para detectar caídas, requisitos de entrenamiento y los métodos para el desarrollo de un programa de protección contra caídas.
GUÍA DE PLANIFICACIÓN DE CERTIFICACIÓN

ESPECIALISTA EN SEGURIDAD Y SALUD OCUPACIONAL

El Especialista en Seguridad y Salud (SSH) está diseñado para proporcionar a los participantes los conocimientos básicos que necesitan en el campo de la seguridad, con énfasis en la elección de su industria.

INDUSTRIA EN GENERAL

CURSO OBLIGATORIO (1)
- OSHA #511 Normas de OSHA para la Industria en General

CURSOS ELECTIVOS (3)
- OSHA #521 Guía de OSHA para la Higiene en el Campo Industrial
- OSHA #2015 Materiales Peligrosos y de Alto Riesgo
- OSHA #2045 Normas para la Maquinaria y la Protección de las Mismas
- OSHA #2255 Principios Referentes a la Ergonomía
- OSHA #2264 Permiso Requerido para el Ingreso a Espacios Confinados
- OSHA #3085 Principios Referentes al los Andamios
- OSHA #3095 Normas que Rigen Labores con Electricidad
- OSHA #3115 Protección contra Caídas

INDUSTRIA DE LA CONSTRUCCIÓN

CURSO OBLIGATORIO (1)
- OSHA #500 Curso de Entrenamiento en Normas de OSHA para la Industria de la Construcción

CURSOS ELECTIVOS (3)
- OSHA #2015 Materiales Peligrosos o de Alto Riesgo
- OSHA #2055 Grúas de la Construcción
- OSHA #2225 Protección del Aparato Respiratorio
- OSHA #2264 Permiso Requerido para el Ingreso a Espacios Confinados
- OSHA #3015 Excavaciones, Zanjas y Clasificación de los Suelos
- OSHA #3085 Principios Referentes al los Andamios
- OSHA #3095 Normas que Rigen el Trabajo con Electricidad
- OSHA #3115 Protección Contra Caídas

Note: Dos (2) cursos cortos de OSHA pueden ser considerados como uno (1) electivo para la obtención de su certificación como CSHO (en inglés)

CERTIFICACIÓN PARA OFICIAL EN SEGURIDAD Y SALUD

Ofrecido en dos pistas principales de la industria, el CSHO proporciona una educación de seguridad y salud, sólida y amplia en un currículo de cursos de seguridad y salud.

INDUSTRIA EN GENERAL

CURSOS OBLIGATORIOS (7)
- OSHA #501 Curso de Entrenamiento en Normas de OSHA para la Industria en General
- OSHA #511 Normas de OSHA para la Industria en General
- OSHA #510 Normas de OSHA para la Industria de la Construcción
- OSHA #521 Guía de OSHA para la Higiene en el Campo Industrial
- OSHA #2045 Normas para la Maquinaria y la Protección de las Mismas
- OSHA #2264 Permiso Requerido para el Ingreso a Espacios Confinados
- OSHA #3095 Normas que Rigen el Trabajo con Electricidad

CURSOS ELECTIVOS (2)
- OSHA #2015 Materiales Peligrosos o de Alto Riesgo
- OSHA #2225 Protección del Aparato Respiratorio
- OSHA #2255 Principios Referentes a la Ergonomía
- OSHA #3085 Principios Referentes al los Andamios
- OSHA #3115 Protección contra Caídas
- OSHA #5410 Normas de OSHA que Rigen la Industria Marítima
- OSHA #5810 Técnicas para Reconocer los Riesgos con labores en la Exploración y Producción Terrestre de Gas y Petróleo

INDUSTRIA DE LA CONSTRUCCIÓN

CURSOS OBLIGATORIOS (7)
- OSHA #500 Curso de Entrenamiento en Normas de OSHA para la Industria de la Construcción
- OSHA #510 Normas de OSHA para la Industria de la Construcción
- OSHA #511 Normas de OSHA para la Industria en General
- OSHA #3015 Excavaciones, Zanjas y Clasificación de los Suelos
- OSHA #3085 Principios Referentes al los Andamios
- OSHA #3095 Normas que Rigen el Trabajo con Electricidad
- OSHA #3115 Protección Contra Caídas

CURSOS ELECTIVOS (2)
- OSHA #521 Guía de OSHA para la Higiene en el Campo Industrial
- OSHA #2015 Materiales Peligrosos o de Alto Riesgo
- OSHA #2045 Normas para la Maquinaria y la Protección de las Mismas
- OSHA #2055 Grúas de la Construcción
- OSHA #2225 Protección del Aparato Respiratorio
- OSHA #2255 Principios Referentes a la Ergonomía
- OSHA #2264 Permiso Requerido para el Ingreso a Espacios Confinados

Nota: Dos (2) cursos cortos de OSHA pueden ser considerados como uno (1) electivo para la obtención de su certificación como CSHO (en inglés)
