ROBERT BOLDES

Copperas Cove, Texas 76522

PROFESSIONAL SUMMARY

Safety/Maintenance Professional and Veteran of the United States Army offering over **9 years** of proven experience in operating and maintaining vehicles/equipment while overseeing logistics, personnel, and operations to achieve success in high-pressure oil drilling and military situations.

SUMMARY OF QUALIFICATIONS

- **Certified Forklift Operator**
- **Certified Flagger and Work Zone Training**
- **Certified Rigger/Crane Signal person**
- **OSHA 10-hour Construction Certification**
- **Trenching and Excavation Competent Person**
- **CPR/AED/First Aid Certified**

PROFESSIONAL EXPERIENCE

PRECISION DRILLING – Houston, TX 2013 – Present

Motorman

Operated and maintained equipment including tongs, pipe spinners, SCR houses, top-drive houses, draw works, mud pumps and air-compressors to support the operations of a private oil field services company. Ensured the safety and proficiency of all operators and kept detailed records to track maintenance and use on all equipment.

CACTUS DRILLING – Oklahoma City, OK 2008 – 2013

Motorman

Operated and maintained equipment including ST-80, hydraulic catwalk, EDS brake systems, SCR houses, top-drive houses, draw works, mud pumps, air compressors and top-drives

UNIT DRILLING – Woodward, OK 2007 – 2008

Chainhand

Performed functions included throwing chain, tailing pipe, working tongs, mixing chemicals and checking the weight/viscosity of mud in order to support the operations of a private oil field services company. Performed replacements of valves, seats and liners on pumps while power-washing, painting and organizing maintenance facilities.

CHEYENNE DRILLING – Woodward, OK 2005 – 2007

Floorhand

Gained knowledge and expertise in working all floor positions including tailing pipe, throwing chain, working tongs, running hoist, working pits, operating forklift and upkeep of rig

UNITED STATES ARMY – Various Locations 1996 – 2004

Fire Detection Specialist

Established, maintained, and operated radio and wire communications equipment to support military operations... Recorded ammunitions and weapon movement. Performed vehicle and generator maintenance. Trained in satellite tracking systems.

EDUCATION

- Texas Construction Career Academy, UT Arlington 2015
- Certificate in Industrial Technology
- Fire Direction Specialist Course

Robert A. Brass

PROFESSIONAL SUMMARY:

Highway Construction Certified, US Army Veteran, Available for Work Immediately.

SUMMARY OF QUALIFICATIONS:

- Competent Work Zone Person Training
- Certified Forklift Operator
- OSHA 10-hour Construction Certification
- Certified Flagger
- Certified Rigger/Crane Signal person
- Trenching and Excavation Competent Person Training
- CPR/AED/First Aid Certified

WORK EXPERIENCE:

Old World Antieks 01/2014 – 08/2014

Warehouseman/Delivery Driver

- Unloaded and loaded containers of antiques from various countries.

AHMAD F. QASIMI

Summary

Over 6 years of experience as a Project Manager, Project Engineer, Estimator, Proposal Writer, Quality Control and Procurement Officer on both Commercial Construction Projects and US Federal Contracts administrated by the US Army Corps of Engineer and Air Force Civil Engineer Center at US military bases in Afghanistan.

As the Project Manager, completed a \$10M USACE MILCON Project on schedule and under budget.

B.S degree in Civil Engineering, in the process of getting PE and eager to achieve PMP.

Available for infrastructure development in the Austin area immediately,

Areas of Expertise and Certifications

- Site Safety Coordinator and Safe Site Set-up
- Blue Print Fluency
- Construction Management
- Quantity Surveying
- MS Office Proficient
- Basic CAD Drawing Skills
- Cost Estimation
- Quality Control
- Proposals and Contracts
- Procurement and Negotiations
- FAR (*Federal Acquisition Regulation*) and DFAR (*Defense Federal Acquisition Regulation Supplement*)
- Construction Claims
- Terminations (T4C & T4D)
- Work Zone Safety Training
- Trenching and Excavation Competent Person
- OSHA-10 Construction Certified
- First Aid/CPR/AED Certified
- Forklift Operator Certified

Experience

Estimator and Proposal Writer

EMROOZ Engineering and Construction

09/2014 – 04/2015

- Communicated with clients on new RFPs/RFQs
- Reviewed RFPs, Specifications, and Drawings
- Identified critical paths and submitted RFIs to clients
- Prepared Bill of Quantities, projects milestones and basic schedules for 11 Projects
- Estimated a total of \$40M projects
- Prepared and submitted eleven proposal packages
- Awarded two projects; a total of \$4.6M contracts

Project Manager

EMROOZ Engineering and Construction

07/2013 – 09/2014

- Reported to General Operations Manager
- Awarded \$1M fund due to proposal submitted for client's delays
- Sold \$450K worth surcharge materials due to a partial termination for convenience (T4C)
- Hired and fired project engineers, staff, and subcontractors
- Coordinated the field and the design teams
- Supervised equipment, manpower, engineers, and staff in a safe site with zero loss and injuries
- Constructed over 50,000 square meters of Aprons and Taxiways
- Placed 4,000 liner meter communication lines and installed 3,500 liner meter cable

Assistant and Acting Project Manager

EMROOZ Engineering and Construction

06/2011 – 07/2013

- Reported to the Sr. Project Manager and General Operations Manager on daily basis
- Completed a \$32M military construction contract with zero loss and injury
- Assisted the company HQ in hiring project team, staff and subcontractors
- Assisted the Sr. Project Manager in coordinating the field and design teams
- Drafted subcontracts in compliance with the company's general terms and conditions
- Coordinated the Scheduling, Quality Control, Inventory, and Procurement
- Generated, submitted, tracked, and logged all payment applications
- Held safety meetings, staff meetings, design meetings, and client meetings
- Surveyed the quantities and cost estimated all RFPs and amendments of the project
- Constructed 61,000 square meter Airfield and 24,000 square meter concrete and K-Span buildings
- Installed 6,000KVA Power Plant
- Assisted the Project Manager on all legal and contractual issues

Quantity Surveyor and Project Engineer

EMROOZ Engineering and Construction

09/2010 – 06/2011

- Reviewed project documents, specifications and conceptual drawings
- Double checked if the design is in compliance with the concept drawings and specifications
- Determined that the contract documents have less quantities versus actual construction field
- Quantity surveyed over 100 different materials/items, a total of \$6M worth
- Submitted material requests on daily basis observing the project schedule and long lead items
- Worked with inventory, procurement and quality control on daily bases
- Prepared the schedule of values (SOV), entered the work progress in the SOV and invoices
- Assisted field team with the plans, specifications and drawings.
- Prepared bill of quantities and estimated for the new RFPs and amendments of project
- Did the punch listing, redlining, and the as-built drawing

Project Engineer and Assistant Project Manager

Tetra Tech EC, Inc.

10/2009 – 08/2010

- Assisted the management of project from start-up to closeout under the direction of the Project Manager
- Assisted with the management of the bid process, analysis of blueprints/specifications
- Reviewed proposals and project requirements
- Provided status updates and maintained documentation records
- Drafted subcontracts, purchase orders and material requisition
- On-site job walk-throughs
- Generated schedule of values (SOV) and pay applications
- Provided redlines and as-built documentation

Assistant Quality Control Manager

FARDA Construction Company

12/2008 – 09/2009

- Submitted QC deliverables, RFIs, daily progress, quality report, material submittal and test results
- Scheduled inspections, preparatory meetings, and initial meetings
- Ensured subcontractors are adequately prepared to begin each phase of work to prevent deficiencies
- Did oversight tests and inspections in compliance with plans and applicable codes and standards
- Provided corrective action plans and inducted three phases of inspections

Education

- Texas Construction Career Academy, University of Texas, Arlington 2015
- Bachelor Degree in Civil Engineering, Balkh University 2003 – 2008

Lee V. Roberts

SUMMARY:

Certified Electronics Technician and Construction Professional, Ready for Infrastructure Development in Austin.

CERTIFICATIONS:

- OSHA 10-hour Construction Certification
- Certified Rigger/Crane Hand Signal person
- CPR/AED/First Aid Certified
- Trenching and Excavation Competent Person Training
- Certified Forklift Operator

KEY SKILLS:

- Remodeling and Construction of Homes – all phases – demolition, carpentry, framing, sheetrock, tile, paint, plumbing and electrical.
- Competent use of all hand and power tools.
- Module, PCB and Component level diagnostics.
- Installation and operation of Semiconductor manufacturing equipment.
- RF tuning and Radio assembly of Microwave band communications terminals and repeaters
- Expert on use of radio and electronics test equipment
- Ability to create Pareto analysis of obstacles hindering the achievement of quality and productivity goals
- 5 years as a Lead Operator

PROFESSIONAL EXPERIENCE:

FLEXTRONICS

OCTOBER 2013-2015

RF Technician

Austin, Texas

The scope of this job requires the ability to read electronic schematics and expert knowledge in the use of RF and electronic test equipment.

- Calibration and tuning of the MPR 9500 and 8000 series radios utilizing detailed manufacturing and customer specification manuals, cross reference materials and Golden Template components.
- Test/repair of power amplifier boards for insertion losses utilizing Network Analyzers, Signal Generators and Oscilloscopes, debugging and soldering components onto a circuit board.
- Perform board and component level tests and repair of Alcatel-Lucent 9500 Microwave Transceiver PCB's.
- Test and characterization of components ranging from individual transistors, RF circuit blocks (low-noise amplifiers, power amplifiers, automatic gain control (AGC), filters, mixers, oscillators).
- Functional testing, calibration and debugging of Alcatel- Lucent 9500 Microwave Packet Radio modules

SAMSUNG

AUGUST 2012 – JULY 2013

LSI – Preventative Maintenance Technician

Austin, Texas

The scope of this job requires the ability to Work from technical manuals, specifications, diagrams and problem solving techniques. Daily routine tasks/responsibilities involve but are not limited to the following:

- Interface directly with Mfg and Other Engineer groups on productivity and quality Issues.
- Work on advanced assignments that require considerable judgment and Initiative.
- Responsibilities included equipment maintenance, troubleshooting, and defect reduction.
- Responsible for documenting items through the generation and modification of specifications, SOPS.
- Interprets and analyzes data requiring abnormal sampling and referencing of historical data.

EDUCATION AND TRAINING:

- Texas Construction Career Academy/UT Arlington - 2015
- Department Real Estate License /Los Angeles – 2000 - 2005
- Los Angeles Fire Department, State Of California
- Premier Fire Extinguishing Service/ San Pedro CA - License Holder 1990 - 1995

Astrid Sandoval

Professional Summary and Certifications

U.S. Military professional, newly certified in the highway construction industry, ready for opportunities in Travis County projects.

- CPR/AED/First Aid
- Forklift Operator Certification
- Certified Flagger
- Rigger/Crane Hand Signal Person
- Safety Security Officer
- Government Acquisition
- Oral/Written Communication
- Skills in both English and Spanish
- Trenching and Excavation Competency
- OSHA 10-hour Construction Certification
- Logistics Manager
- Secret Security Clearance
- Organizational Skills
- Preventive maintenance of vehicles
- Combat Life Saver

Work Experience

Contract Specialist/Resource Manager

- Analyze project requirements to provide recommendations and ensure that contracts are followed and remain within scope
- Ensures that prospective contractor site visits and pre-bid conferences are conducted where applicable
- Able to work with a variety of people with varying skills and backgrounds to develop, award, administrate, and close-out contracts
- Conducted inspections for completion of projects before releasing final payments to contractors

Budget Analyst

- Respond to command requests and resolved unexpected high priority budget issues in a timely manner which decreased the loss of fund by 50% and increased customer satisfaction
- Led by example and set high standards for conduct and performance when training junior enlisted in the section
- Trained, mentored, and led in the development and facilitation of common task training within the battalion

Entry Level Laborer with Logging Experience, Ready for Work in the Construction Industry, Open to Travel.

Skills:

Certified Forklift Operator
Certified Rigger/Crane Hand Signal Person
Trenching and Excavation Training
OSHA 10-hour Construction Certification
CPR/AED/First Aid Certified

Professional Highlights:

Richwood Logging

2014

Skitter Driver: Carrying the logs to a destination so that the loader can pick them up and load the trailer

Cutter Driver: cut the logs out the ground for the skitter to take them to the loader

Grapple Equipped Loader Operator

Education:

Texas Construction Career Academy UTArlington 2015

MOHAMMAD AZAM YAQUBI

CAREER SUMMARY

Civil Engineer, in the process of getting PE licence, with over six years of experience in construction field, available now for Texas infrastructure projects.

Turnover value of over \$70M on projects funded by United States Army Corps of Engineering (USACE), United States Air force Civil Engineering Center (US-AFCEC), USAID, ISAF and NATO at U.S. military bases in Afghanistan, and completion of \$16.5M budgeted AFCEC Herc contract project.

AREAS OF EXPERTISE

CONSTRUCTION MANAGEMENT, ESTIMATION / QUANTITY SURVEY, PROJECT MANAGEMENT, CONSTRUCTION QUALITY ASSURANCE AND QUALITY CONTROL, HSE/OSHA

WORKING EXPERIENCE

CONSTRUCTION SUPERINTENDENT

GILBANE FEDERAL
Dec-2013 TO Jan-2015

- Estimated all required project materials, quantities
- Controlled all construction activities in the project site
- Prepared weekly job plan as per the approved schedule
- Pushed the work and subcontractors and completed the project on time, within the budget
- Kept the job site safe and maintained OSHA requirements
- Assisted subcontractors with technical issues
- Maintained good construction standard and quality
- Constructed over 110,000 square feet RCC buildings
- Installed 7500feet force protection fence
- Constructed underground utilities and roads
- Achieved the milestone of 1200,000hrs safe work with no injuries and accidents

SR. ESTIMATOR & PROJECT MANAGER

EMROOZ Engineering & Construction Company
FEB-2011 TO DEC-2013

- Estimated all construction materials
- Prepared a quantity comparison sheet using the bid documents and actual site quantities in utility works - found a major difference, and corrected a \$1.2M error
- Prepared and maintained the project schedule
- Planed all site works as per the approved schedule
- Review and coordinate plans, specifications, scope of work, shop drawings, manufacturer cuts, and samples with all subcontractors and supervise the construction to ensure that the contract documents are being followed
- Controlled and monitored labor/manpower, material and equipment as per the project requirements
- Constructed 3 helicopter landing pads and a firing range
- Constructed over 180,000 square feet PEB, K-SPAN and RCC buildings
- Constructed 1 mile long concrete road - 22 feet wide
- Achieved the milestone of 2000,000 hrs safe work with no injuries and accidents

- Constructed Sewer/water/drainage/power utility system

SENIOR ESTIMATOR / QUANTITY SURVEYOR

VICC (Venco Imtiaz Construction Company)
MAY-2008 TO JAN-2011

- Quantity estimation for all construction materials
- Preparing material tracking sheets and keep updating them
- Verifying the invoices of Sub-contractors
- Supporting Proposal Department in preparation of Bill of quantities for on bid projects
- Ensuring on time material delivery to the project site

EDUCATION / ACADEMIC QUALIFICATIONS

BACHELOR OF CIVIL ENGINEERING FROM BALKH UNIVERSITY – AFGHANISTAN 2003 - 2008

PROFESSIONAL TRAININGS & CERTIFICATIONS

- Certified Forklift Operator
- OSHA 10-hour Construction Certification
- Certified Flagger and Work Zone Set Up
- Certified Rigger/Crane Signal person
- CPR/AED/First Aid Certified
- Trenching and Excavation Competent Person
- Primavera Project Planning P6 V7
- Construction Quality Management (CQM)
- Water Resources Management
- Management, Accounting and Marketing
- Auto CAD Experience
