PROFESSIONAL SUMMARY

Skilled heavy equipment operator, certified in road construction safety and OSHA compliance, available for work in the El Paso area.

- Heavy Equipment Operator
- Electrician Apprentice
- Certified Forklift Operator
- OSHA 10-hour Construction Certification
- Certified Flagger
- Certified Rigger/Crane Signal person
- CPR/AED/First Aid Certified
- Trenching and Excavation Training

WORK HISTORY

CLP Resources, Union NJ 2011-2014

Equipment Operator/ Solar Photovoltaic Installer

Operate Front End loader. Learn and follow safety

regulations. Take actions to avoid potential hazards or obstructions, such as utility lines, other equipment, other workers, or falling objects. Locate underground services, such as pipes or wires, prior to beginning work. Monitor operations to ensure that health and safety standards are met. Adjust hand wheels and depress pedals to control attachments, such as blades, buckets, scrapers, or swing booms. Coordinate machine actions with other activities, positioning or moving loads in response to hand or audio signals from crew members. Load and move dirt, rocks, equipment, or other materials, using trucks, crawler, tractors, shovels, graders, and related equipment.

Install photovoltaic (PV) systems in accordance with codes and standards using drawings. Assemble solar modules, panels, or support structures, as specified. Apply weather sealing to array, building, or support mechanisms. Install module array interconnect wiring, implementing measures to disable arrays during installation. Identify methods for layout, orienting, and mounting modules or arrays to ensure efficient installation, electrical configuration, or system maintenance. Identify electrical, environmental, and safety hazards associated with photovoltaic (PV) installations. Check electrical installation for proper wiring, polarity, grounding, or integrity of terminations.

Sherwoods Concrete, Williamsburg VA 2006-2010

Concrete Laborer / Finisher

Form setter and finisher. Spread, level, and smooth concrete, using rake, shovel, hand or power trowel, hand or power screed, and float. Mold expansion joints and edges, using edging tools, jointers, and straightedge. Signal truck driver to position truck to facilitate pouring concrete, and move chute to direct concrete on forms. Apply hardening and sealing compounds to cure surface of concrete, and waterproof or restore surface. Control traffic in work zones. Signal equipment operators to facilitate alignment, movement, or adjustment of machinery, equipment, or materials. Read plans and blueprints to determine work activities. Load, unload, or identify building materials, machinery, or tools, distributing them to the appropriate locations, according to project plans or specifications. Measure, mark, or record openings or distances to layout areas where construction work will be performed. Dig ditches or trenches, backfill excavations, or compact and level earth to grade specifications, using picks, shovels, pneumatic tampers, or rakes.

Ashe Facility Services, Yorktown VA 2003 - 2005

Operator

Operate vehicles and powered equipment, such as mowers, tractors, twin-axle vehicles, snow blowers, chain saws, electric clippers, sod cutters, and pruning saws. Mow or edge lawns, using power mowers or edger. Shovel snow from walks, driveways, or parking lots and spread salt in those areas. Care for established lawns by mulching, aerating, weeding, grubbing, removing thatch, trimming or edging around flower beds, walks, or walls. Use hand tools, such as shovels, rakes, pruning saws, saws, hedge or brush trimmers, or axes. Prune or trim trees, shrubs, or hedges, using shears, pruners, or chain saws. Maintain and repair tools.
